the very secrets of our prehistory... While shattering myths about evolution and God, Michael Tellinger's Slave Species of god enables evolutionists and creationists to finally co-exist in one pond. The arguments are compelling, simple and refreshing, retracing the path of human evolution from the murky distant past to the religious dogma that haunts humankind today.

In Slave Species of god - Telling achieves the  
following: • draws clear and startling analogies  
between new discoveries in genetic engineering and  
ancient archaeological finds... • highlights emerging  
scientific information overlooked in the past... •  
unravels the Bible's often obscure stories by  
linking these to their original forms in Sumerian  
clay tablets and other prehistoric writings... •  
provides explicit answers to why our modern world  
has become so senseless and chaotic ...
