Of Mice and Men: Teacher's Deluxe Edition Simon and Schuster
Discover the mysteries of science with Future Geniuses! Darwin the chicken feels like the smallest animal in the farm, but he wants to be big and strong like a dinosaur. Come along with Valentina, a young paleontologist, in this adventure about the history of evolution and find out how she gets Darwin to feel proud of who he is! Valentina and Darwin travel back in time to find the origin of life. They go all the way back, before there were any plants or even animals in the world. Valentina teaches Darwin about unicellular organisms, bad and good mutations, and variations. Then they observe microevolutions and macroevolutions, which lead to new species. Soon, Valentine and Darwin are surrounded by invertebrates and vertebrates and then—dinosaurs! But what happened to the dinosaurs? And how did the dinosaurs eventually evolve into birds? Future Geniuses is a collection that will help families spend a lot of time reading and learning together. Through simple text and fun illustrations, author and scientist Carlos Pazos makes the subjects of evolution, and specifically dinosaurs and their creation and extinction, approachable and easy to understand for even the smallest scientists.

Supporting Students on the Autism Spectrum: A Practical Guide for Academic Libraries Penguin
NEW YORK TIMES BESTSELLER WALL STREET JOURNAL BESTSELLER "Sprint offers a transformative formula for testing ideas that works whether you're at a startup or a large organization. Within five days, you'll move from idea to prototype to decision, saving you and your team countless hours and countless dollars. A must read for entrepreneurs of all stripes." --Eric Ries, author of The Lean Startup From three partners at Google Ventures, a unique five-day process for solving tough problems, proven at more than a hundred companies. Entrepreneurs and leaders face big questions every day: What's the most important place to focus your effort, and how do you start? What will your idea look like in real life? How many meetings and discussions does it take before you can be sure you have the right solution? Now there's a surefire way to answer these important questions: the sprint. Designer Jake Knapp created the five-day process at Google, where sprints were used on everything from Google Search to Google X. He joined Braden Kowitz and John Zeratsky at Google Ventures, and together they have completed more than a hundred sprints with companies in mobile, e-commerce, healthcare, finance, and more. A practical guide to answering critical business questions, Sprint is a book for teams of any size, from small startups to Fortune 100s, from teachers to nonprofits. It's for anyone with a big opportunity, problem, or idea who needs to get answers today.

Copyright for Schools: A Practical Guide, 6th Edition Portage & Main Press
This updated edition of Copyright for Schools explains U.S. copyright law as it applies to education settings clearly and concisely for teachers and school librarians. Topics new to this edition include copyright implications related to the use of such streaming services as NetflixTM and PandoraTM, links to online tools that teachers can use to assist them in making their own daily decisions regarding the use of copyrighted materials, and implications relating to the use of anonymous internet publishing tools such as SnapchatTM and use of Cloud-based sharing. Other new topics include issues related to disability, how to appropriately respond to cease and desist letters and other legal inquiries, implications of the Music Modernization Act, and expanded discussion of open resources such as Creative Commons licenses. This edition also adds a concordance in a "Scope and Sequence" table format, so all information related to U.S. copyright knowledge is accessible no matter where it resides within the text, and provides links to online tools and resources that can be used to guide users of copyrighted materials in making decisions about how to use them. Still included are the real-world applications and the Q&A sidebars from prior editions.

SMART Board Interactive Whiteboard For Dummies Simon and Schuster
This practical and accessible workbook is designed to support student-teachers, NQTs and beginning teachers as they develop their teaching skills, and increase their broader knowledge and understanding for teaching design and technology.

Sprint ABC-CLIO
This book by the experts from Your Church magazine answers your questions on the practical aspects of running a church--from stained glass to speaker systems. It helps you determine what you need, what it will cost, and where to get it.

Getting the Most Out of Your Interactive Whiteboard B & H Publishing Group
This practical, hands-on guidebook offers support for your first years in the classroom by presenting strategies to overcome ten common challenges. Expertly curated by experienced educators, this book delivers quick access to timely advice, applicable across a range of educational settings. With contributions from National Board-Certified Teachers, National Teachers of the Year, and other educators involved in robust induction and mentoring programs, The New Teacher's Guide to Overcoming Common Challenges provides: Wise and practical tips from accomplished veterans and successful new teachers from across rural, suburban, and urban settings; Web access to an online teacher community and customizable resources created by the book's authors that can be quickly downloaded for immediate use in the classroom; Newly commissioned material that addresses the shift to remote learning brought about by the world pandemic. Accessible and stimulating, this book is designed for a wide range of users, including PK-12 school districts who offer new teacher induction programming, traditional and alternative teacher preparation programs and teacher cadet programs, and individual in-service teachers. Don't face the challenges alone—learn from those who have been there!

Saddleback Educational Publishing
Advances in literacy require collaboration between all of a school's stakeholders. This book harnesses the latest research and takes into consideration CCSS to show how to make that collaboration a reality. • Emphasizes adolescent literacy and literacy coaching, currently the two most significant topics in literacy instruction •

Summarizes current literacy research, including research and practices for adolescent literacy • Provides detailed examples and applications of theoretical principles of reading instruction • Presents practical information on infusing technology throughout literacy instruction • Encourages utilizing conversations in the classroom and describes methods for implementation

Discover the mystery of science with Future Geniuses! Little Doctor Valentina is back with a brand new adventure! This time, join Valentina as she explains the concept of genetics, using her adorable puppy, Mendel, as her model. With her handy microscope, Valentina examines Mendel's cells and teaches us all about cell parts—organelles, membranes, cytoplasm, and finally, the powerhouse of the cell, the nucleus. Within the nucleus, Valentina points out the DNA and the genes that explain everything about us—like why Mendel is yellow and his siblings are brown! Dive deep into the world of genetics and learn all about nitrogen bases, RNA, chromosomes, mitosis, and more. Uncover what makes you, well, you! Future Geniuses is a collection that will help families spend a lot of time reading and learning together. Through simple text and fun illustrations, author and scientist Carlos Pazos makes the subject of genetics approachable and easy to understand for even the smallest scientists.
