CDL Study Guide Book
Bookouture
Modern Automotive Technology details the construction, operation, diagnosis, service, and repair of late-model automobiles and light trucks. This comprehensive text uses a building block

approach that starts with the fundamental principles of system operation and progresses gradually to complex diagnostic and service procedures. Short sentences, concise definitions, and thousands of color illustrations help students learn quickly and easily. The 1998 edition has been extensively revised and provides thorough coverage of the latest developments in the automotive

field, including OBD II diagnostics, IM 240 testing, misfire monitoring, air bag systems, anti-lock brakes, and security systems. Organized around the eight ASE automobile test areas, this text is a valuable resource for students preparing for a career in automotive technology, as well as experienced technicians preparing for the ASE Certification /Recertification Tests.

Automotive Body Repair & Painting Manual

The Ford GT40 is one of the most famous of all sports racing cars. Built by Ford to challenge the supremacy of Ferrari at Le Mans, the GT40 first raced in 1964, and went on to win Le Mans four times in a row, from 1966 to 1969. Here, in this Haynes Manual, is a unique perspective on what it takes to own, restore and

maintain a GT40, as well as an insight into the engineering and construction of this legendary racing car.
