Gun Digest Buyer's
Guide to Concealed-
Carry Handguns
Fawcett
At a time when
crime scene
television shows are
all the rage amongst

the civilian population, knowledge of firearm forensics is of paramount importance to crime scene analysts, police detectives, and attorneys for both the prosecution and the defense. Cartridges and Firearm Identification brings together a unique, multidisciplinary approach to questions that arise regarding ammunition and firearms within the context of investigation. Supplying essential practical information about firearms and ammunition in a clear, easy-to-follow format, this volume:

Defines and depicts photographically all varieties of firearms. Presents investigative concerns of firearms evidence from the perspectives of preservation and safe handling procedures. Introduces readers to the standards of measurement used to classify ammunition, including the significance of names, adjectives, and other descriptors used in conjunction with ammunition cartridges. Categorizes and identifies ammunition head stamps from cartridges produced around the world. Provides ammunition manufacturing practices for dozens of nations. The text offers a methodology for the identification of unknown firearms as well as ammunition of questioned identity. The author explains the terminology and describes each group of firearms and the aspects that identify the weaponry—including property marks, proof marks, and patent dates. Lavishly illustrated, this comprehensive reference includes case studies to support the text, making it a premier reference for all

those responsible for the complicated task of investigating firearms and cartridges.

Gun Digest Book of Automatic Pistols Assembly/Disassembly, 7th Edition

Gun Digest Books
If You Carry a Gun—If You're Considering Carrying a Gun—You Need the Gun Digest Buyer's Guide to Concealed Carry Handguns
There's a lot more to legally carrying a concealed handgun than just sticking something in your pocket. Which is best for you, a revolver or semi-auto? Which caliber? Shoulder holster, waist holster, or ankle holster—or none of the above? In the Gun Digest Buyer's Guide to Concealed Carry

Handguns, concealed-carry expert Jerry Ahern sorts it all out for you in clear, plain-speaking text, supported with hundreds of detailed photos. From explaining why you might want to carry a concealed handgun to testfires of many of today's hottest small handguns, there's no better guide. It's All Here! How, when and why to carry a concealed handgun
Lasers and optics
Holsters and accessories
Practical, real-world testfires
And much, much more! Your safety and well-being are too important to risk on an uninformed buying decision. Arm yourself with the facts—in the Gun Digest Buyer's Guide to Concealed Carry Handguns!

Cartridges and Firearm Identification
CRC Press
This is the fourth volume in an operational and chronological series covering the U.S. Marine Corps' participation in the Vietnam War. This volume details the change in focus of the III Marine Amphibious Force (III MAF), which fought in South Vietnam's northernmost corps area, I Corps. This volume, like its predecessors, concentrates on the ground war in I Corps and III MAF's perspective of the Vietnam War as an entity. It also covers the Marine Corps participation in the advisory effort, the operations of the two Special Landing

Forces of the U.S. Navy's Seventh Fleet, and the services of Marines with the staff of the U.S. Military Assistance Command, Vietnam. There are additional chapters on supporting arms and logistics, and a discussion of the Marine role in Vietnam in relation to the overall American effort.

Small Arms of the World House of Collectibles

This is the best and longest-selling book on close combat in history. Reprinted and in current use by the U.S. Marine Corps as an official training manual, it details methods of self-defense, offensive

close combat, combat shooting and crowd-control techniques in riot situations. Colonel Rex Applegate is widely regarded as the father of modern close combat and combat shooting, and this book is considered the standard by which all other books on the subject are judged.

Standard Catalog of Smith & Wesson

Simon and Schuster Although military operations against terrorist forces often garner the headlines, those who protect government,

military, and business leaders from assassination or kidnapping are also in the front lines against terrorism. Ready and prepared to place his body between his employer and a bullet, the bodyguard must be able to blend into the milieu around his charge, yet be ready to spring into action instantly to counter an attack. Based on techniques of the U.S. Secret Service, U.S. State Department Security, the Special Air Service, the Royal Corps of Military

Police, the Metropolitan Police, the KGB and its successor the FSB, France's GSPR, and other protective units around the world, The Bodyguard Manual details the steps a protective team takes to prevent attack as well as the tactics which are employed when it is necessary to counter an attack in progress. From security aboard Concorde, the Orient Express, or the Queen Elizabeth 2, to protecting a military general officer in combat, The Bodyguard

Manual allows the reader to "stand post" with the professional bodyguard. **The Official Guide to Collecting Handguns 1985** Simon and Schuster Shooting to Live describes methods developed and practiced during an eventful quarter of a century and adopted by numerous police organization in the Far East and elsewhere. It covers everything from the purpose of the pistol, to selection, training, advance methods and more! This

book was the first time that fighting with firearms was clearly and explicitly disassociated from classical target/range shooting. The proven techniques displayed have spawned most modern pistol techniques because of their simplicity and effectiveness. It is written as instruction to police forces in the methods of shooting (reflexive /instinctive) and training (realistic/challenging) that the author developed over two decades active service in

Shanghai.

If you are one of the
millions of
Americans who
chooses to exercise
your Second
Amendment Right
but haven't quite
mastered the proper

technique with guns,
then this is the
essential manual for
you. It is your right
to carry a firearm to
protect yourself and
your family.
However, it is your
responsibility to
know how to
operate that gun
correctly and safely.
Don't wait to be
placed in a
dangerous setting
faced with an armed
attacker. The
updated second
edition of the
Shooter's Bible
Guide to Concealed
Carry is an all-
encompassing
resource that not
only offers vital gun
terminology, but
also suggests which
gun is the right fit
for you and how to
efficiently use the

device properly, be it in public or home. Firearm expert Brad Fitzpatrick examines how to practice, how to correct mistakes, and how to safely challenge yourself when you have achieved basic skills. Included within is a comprehensive chart describing the various calibers for concealed carry, suitable instructions for maintaining it, and most importantly, expert step-by-step instructions for shooting. Once again, renowned firearms expert Fitzpatrick delivers poignant tips and provides valuable information. The

purpose of this book is to familiarize yourself with firearms and to gain the confidence you need to protect yourself in the worst of situations. "My experience working with Skyhorse is always a positive collaboration. The editors are first-rate professionals, and my books receive top-shelf treatment. I truly appreciate our working relationship and hope it continues for years to come."
—David Fischer, author
