Fire In the United States New Society Publishers

Nursing and Informatics for the 21st Century Series is a critical resource in chronicling the huge historical shift in nursing linked to the explosion of EHR national and international strategies and health policies around the globe. Each book in the series examines the revolution that has occurred in nursing and explores the role IT continues to play in this transformation, with a thoughtful examination of nursing practice, science and research, and education. This book, Nursing Education and Digital Health Strategies explores the current state of health and healthcare education, as well as the current state of nursing informatics education. These topics include technologies-enabled education for all nurses and interprofessional collaborations from a worldwide perspective. The "New" learning for applied critical thinking will include technology, content, skills versus tools, and the use of "smart" systems for care delivery, the role of critical thinking and uniqueness of nursing care delivery. Further, how these changes are understood as a paradigm shift that needs to be incorporated along with nursing and healthcare education is emphasized. The effects of technology on human behavior are also explored, addressing human-factors interaction, interdependence of human computer interaction and other effects of technology on wellbeing. As part of nursing education, learning from clients/patients to better shape and advance nursing education and scholarship are discussed. Academic-clinical practice partnerships for a digital future, how teams are working together (clinician/teacher) for better healthcare delivery and applied knowledge, including joint appointments (exchange of academia and applied expertise), academic-applied human resources, and interprofessional learning/development are discussed. The book closes by discussing and using case studies to showcase nursing competencies for the next decade, and implications for preparing the healthcare workforce for a digital world, faculty readiness and the interaction with gaming and simulations. Nursing informatics education, including continuing education beyond academia, i.e., informal education, worldwide is described as well as global challenges to support digital world capabilities. Hands-on Experiential Delivery (shifting from lecture-based delivery) - case studies learning-based exemplars are included.

BoD – Books on Demand

New York Times bestselling author Patti Callahan Henry delivers a novel that explores the power of lasting love through the connected stories of two women from opposite sides of the sea. Twenty-seven-year-old Kara Larson is bogged down in the stress of planning her elaborate wedding to a professional golfer. Still, to fulfill the requirements of the Palmetto Pointe Junior Society, she makes time in her busy schedule to visit an elderly woman at a nursing home facility. Soon she finds herself mesmerized by the singsong Irish lilt of ninety-six-year-old Maeve Mahoney as Maeve recounts the rambling story of her first love back in Ireland. Or, Kara begins to wonder, is she really retelling an ancient tale of myth and legend? Waiting for the story to unfold in bits and pieces, and trying to discern the underlying truth, Kara is drawn in—and driven to remember her own first love: childhood neighbor Jack Sullivan. Gradually she realizes that before she embarks on her new life, she must find out how her own story—with Jack—will end. “About all the things that make us worthy as human beings—integrity, honesty, and living the life you are meant to live....A triumph!” —Dorothea Benton Frank “A passionate, unforgettable novel of self-discovery, regret, and the illuminating power of love.” —Mary Alice Monroe

The #1 New York Times bestselling memoir of U.S. Navy SEAL Chris Kyle, and the source for Clint Eastwood's blockbuster, Academy-Award nominated movie. “An amazingly detailed account of fighting in Iraq--a humanizing, brave story that's extremely readable.” —PATRICIA CORNWELL, New York Times Book Review "Jaw-dropping...Undeniably riveting." —RICHARD ROEPER, Chicago Sun-Times From 1999 to 2009, U.S. Navy SEAL Chris Kyle recorded the most career sniper kills in United States military history. His fellow American warriors, whom he protected with deadly precision from rooftops and stealth positions during the Iraq War, called him “The Legend”; meanwhile, the enemy feared him so much they named him al-Shaitan (“the devil”) and placed a bounty on his head. Kyle, who was tragically killed in 2013, writes honestly about the pain of war—including the deaths of two close SEAL teammates—and in moving first-person passages throughout, his wife, Taya, speaks openly about the strains of war on their family, as well as on Chris. Gripping and unforgettable, Kyle's masterful account of his extraordinary battlefield experiences ranks as one of the great war memoirs of all time.
