This new book is more than a simple engine repair manual. Designed for the beginner with little or no mechanical experience, Small Engines & Outdoor Power Equipment is a graphically appealing, step-by-step guide that covers all of the most important engine maintenance and repair skills you'll need to keep your equipment running at peak performance. It also shows exactly how to perform mechanical upkeep and repairs on the most common outdoor power implements, including

lawn mowers, snow blowers, chain saws, power washers, generators, leaf blowers, rototillers, wood splitters, lawn edgers, and weed whips. With clear 'how-to' photos and detailed diagrams, you'll see exactly what needs to be done. A comprehensive troubleshooting guide helps you define problems and enact solutions. With Small Engines & Outdoor Power Equipment in your library, you won't need to haul the lawn mower off to the repair center and wait a few weeks just because a filter is plugged or the old gas needs to be replaced. Among the many skills you'll learn are seasonal tune-ups, changing oil, servicing spark plugs, cleaning filters, replacing muffler, servicing the fuel tank, overhauling the carburetor, servicing brakes, inspecting flywheels, replacing the fuel pump, and replacing a rewind cord.

Middle Management

Survival Guidec is intended

to be a survival guide for

anyone who calls him or herself a middle manager.

All too often the wisdom

that flows to the middle

managers of this world descends from the lofty heights of academia. By point of contrast, Middle Management Survival Guide c flows from the trenches where middle managers carry out their craft. It is a book grounded in common sense and aimed at creating a world-view and mindset for middle managers that will enable them to better combat the daunting forces arrayed against them. From the perspective of a middle manager this survival guide describes the impossibility of the workplace and the paucity of the tools traditionally available to managers. Most importantly this book provides specific strategies, attitudes and values that will help managers maintain balance and sanity while improving their overall performance as

managers. The author has worked as a middle manager for the past twenty years. Tasting both the sweet fruit of success as well as the bitter gall of failure he has acquired a unique insider's view of the daunting task faced by those who call themselves middle managers.

"This synthesis report will be of interest to transportation agency maintenance engineers, managers, and operators and others involved with roadway snow and ice control including safety engineers, traffic engineers, and law enforcement agency personnel. It presents information on the state of the practice in managing roadway snow and ice control considering both rural and urban locations. The document

describes the developments that have occurred during the past 20 years to improve winter maintenance. This report of the Transportation Research Board discusses winter maintenance policies and provides examples for state, city, and county agencies. Included in the discussion of winter maintenance policies are issues such as: levels of service, public relations, liability for services, and experimenting with new policies. Additional information is included on estimating winter maintenance benefits and costs; personnel and management issues; weather information systems; and materials, equipment, and facilities for winter maintenance."--Avant-propos. Why???

This guide reviews current operational arrangements, indicates best practices and suggests the way ahead. To reflect the complexities of the subject the Guide covers operational requirements for winter maintenance; weather forecasting; support technology, research and development; specialist plant and transport; and the role of privatization. The Guide has been designed as an aide memoire for experienced highways managers, and to

promote discussion and contribute to establishing best value benchmarks. It will also provide valuable guidance for young engineers and the junior staff who are engaged in this work.
