In this second edition of Orchestral “ Pops ” Music: A Handbook, Lucy Manning brings forward to the present her remarkable compendium of information about this form of orchestral music. Since the appearance of the first edition in 2008, this work has proven critical to successful “ pops ” concert programming. With changes in publishers and agents, the discontinuation of the publication of certain original material or, worst of all, presses going out of business, music directors, orchestra conductors, and professional instrumentalists face formidable challenges in tracking down accurate information about this vast repertoire. This revised handbook alleviates the time-consuming task of researching these changes by offering a list of works for orchestral “ pops ” concerts that is comprehensive, informative, and current. Manning ’ s emphasis on clarity and accuracy gives users an indispensable tool for gathering vital information on the style, instrumentation, and availability of the repertoire listed, as well as notes on its performance. The user-friendly appendices include expanded instrumentation choices, easy-to-find durations, and handy title cross-references. In addition to corrections and updates, this new edition of Orchestral “ Pops ” Music includes at least 1,000 new title listings. Orchestral “ Pops ” Music: A Handbook is the ideal tool for working conductors and orchestral librarians, as well as music program directors at colleges, conservatories, and orchestras.

The internment of 'enemy aliens' during the Second World War was arguably the greatest stain on the Allied record of human rights on the home front. Internment during the Second World War compares and contrasts the experiences of foreign nationals unfortunate enough to be born in the 'wrong' nation when Great Britain, and later the USA, went to war. While the actions and policy of the governments of the time have been critically examined, Rachel Pistol examines the individual stories behind this traumatic experience. The vast majority of those interned in Britain were refugees who had fled religious or political persecution; in America, the majority of those detained were children. Forcibly removed from family, friends, and property, internees lived behind barbed wire for months and years. Internment initially denied these people the right to fight in the war and caused unnecessary hardships to individuals and

families already suffering displacement because of Nazism or inherent societal racism. In the first comparative history of internment in Britain and the USA, memoirs, letters, and oral testimony help to put a human face on the suffering incurred during the turbulent early years of the war and serve as a reminder of what can happen to vulnerable groups during times of conflict. Internment during the Second World War also considers how these 'tragedies of democracy' have been remembered over time, and how the need for the memorialisation of former sites of internment is essential if society is not to repeat the same injustices. Hands-on Manual for Cinematographers Oxford University Press An irresistible collection of favorite writings from an author celebrated for his bravura style and sheer unpredictability Francis Spufford’s welcome first volume of collected essays gathers an array of his compelling writings from the 1990s to the present. He makes use of a variety of encounters with particular places, writers, or books to address deeper questions relating to the complicated relationship between story-telling and truth-telling. How must a nonfiction writer imagine facts, vivifying them to bring them to life? How must a novelist create a dependable world of story, within which facts are, in fact, imaginary? And how does a religious faith felt strongly to be true, but not provably so, draw on both kinds of writerly imagination? Ranging freely across topics as diverse as the medieval legends of Cockaigne, the Christian apologetics of C. S. Lewis, and the tomb of Ayatollah Khomeini, Spufford provides both fresh observations and thought-provoking insights. No less does he inspire an irresistible urge to turn the page and read on.

Understanding Sam Shepard investigates the notoriously complex and confusing dramatic world of Sam Shepard, one of America’s most prolific, thoughtful, and challenging contemporary playwrights. During his nearly fifty-year career as a writer, actor, director, and producer, Shepard has consistently focused his work on the ever-changing American cultural landscape. James A. Crank’s comprehensive study of Shepard offers scholars and students of the dramatist a means of understanding Shephard’s frequent experimentation with language, setting, characters, and theme. Beginning with a brief biography of Shepard, Crank shows how experiences in Shepard’s life eventually resonate in his work by exploring the major themes, unique style, and history of Shepard’s productions. Focusing first on Shepard’s early plays, which showcase highly experimental, frenetic explorations of fractured worlds, Crank discusses how the techniques from these works evolve and translate into the major works in his “family trilogy”: Curse of the Starving Class, the Pulitzer Prize-winning Buried Child, and True West. Shepard often uses elements from his past–his relationship with his father, his struggle for control within the family, and the breakdown of the suburban American dream–as major starting points in his plays. Shepard is a recipient of a Pulitzer Prize for Drama, eleven Obie Awards, and a Chicago Tribune Literary Prize for Lifetime Achievement. Augmented with an extensive bibliography, Understanding Sam Shepard is an ideal point of entrance into complex and compelling dramas of this acclaimed playwright.

Film theory no longer gets top billing or plays a starring role in film studies today, as critics proclaim that theory is dead and we are living in a post-theory moment. While theory may be out of the limelight, it remains an essential key to understanding the full complexity of cinema, one that should not be so easily discounted or discarded. In this volume, contributors explore recent popular movies through the lens of film theory, beginning with industrial-economic analysis before moving into a predominately aesthetic and interpretive framework. The Hollywood films discussed cover a wide range from 300 to Fifty First Dates, from Brokeback Mountain to Lord of the Rings, from Spider-Man 3 to Fahrenheit 9/11, from Saw to Raiders of the Lost Ark, and much more. Individual essays consider such topics as the rules that govern new blockbuster franchises, the 'posthumanist realism' of digital cinema, video game adaptations, increasingly restricted stylistic norms, the spatial stories of social networks like YouTube, the mainstreaming of queer culture, and the cognitive paradox behind enjoyable viewing of traumatic events onscreen. With its cast of international film scholars, Film Theory and Contemporary Hollywood Movies demonstrates the remarkable contributions theory can offer to film studies and moviegoers alike.

Internment during the Second World War McFarland
He saw the soft cedars of San Piedro Island, its high, rolling hills, the low mist that lay in long streamers against its beaches, the whitecaps riffing its shoreline. The moon had risen already behind the island - a quarter moon, pale and indefinite, as ethereal and translucent as the wisps of cloud that travelled the skies. A fisherman is found dead in the net of his boat off the coast of a North American island. When a local Japanese-American man is charged with his murder, it becomes clear that what is at stake is more than one man's guilt. For on San Piedro, memories grow as thickly as cedar trees - memories of a charmed romance between a white boy and a Japanese girl. Above all, the island is haunted by what happened to its Japanese residents during the Second World War, when an entire community was sent into exile while its neighbours watched.
