Look out for Daniel Pink's new book, *When: The Scientific Secrets of Perfect Timing* #1 New York Times Business Bestseller #1 Wall Street Journal

Business Bestseller #1 Washington Post bestseller From the bestselling author of *Drive* and *A Whole New Mind*, and teacher of the popular MasterClass on Sales and Persuasion, comes a surprising--and surprisingly useful--new book that explores the power of selling in our lives. According to the U.S. Bureau of Labor Statistics, one in nine Americans works in sales. Every day more than fifteen million people earn their keep by persuading someone else to make a purchase. But dig deeper and a startling truth emerges: Yes, one in nine Americans works in sales. But so do the other eight. Whether we're employees pitching colleagues on a new idea, entrepreneurs enticing funders to invest, or parents and teachers cajoling children to study, we spend our days trying to move others. Like it or not, we're all in sales now. *To Sell Is Human* offers a fresh look at the art and science of selling. As he did in *Drive* and *A Whole New Mind*, Daniel H. Pink draws on a rich trove of social science for his counterintuitive insights. He reveals the new ABCs of moving others (it's no longer "Always Be Closing"), explains why extraverts don't make the best salespeople, and shows how giving people an "off-ramp" for their actions can matter more than actually changing their minds. Along the way, Pink describes the six successors to the elevator pitch, the three rules for understanding another's perspective, the five frames that can make your message clearer and more persuasive, and much more. The result is a perceptive and practical book--one that will change how you see the world and transform what you do at work, at school, and at home.

True or false? In selling high-value products or services: 'closing' increases your chance of success; it is essential to describe the benefits of your product or service to the customer; objection handling is an important skill; open questions are more effective than closed questions. All false, says this provocative book. Neil Rackham and his team studied more than 35,000 sales calls made by 10,000 sales people in 23 countries over 12 years. Their findings revealed that many of the methods developed for selling low-value goods just don't work for major sales. Rackham went on to introduce his SPIN-Selling method. SPIN describes the whole selling process: Situation questions Problem questions Implication questions Need-payoff questions SPIN-Selling provides you with a set of simple and practical techniques which have been tried in many of today's leading companies with dramatic improvements to their sales performance.

B2B buyer behavior has changed - now it's your turn. B2B buyers have changed the way they evaluate and purchase goods and services-yet most B2B suppliers still approach their markets with hyped-up, propaganda-like messages. The challenge now is for such companies to move from spouting propaganda to establishing credibility. From the role of salesperson to that of a customer advocate. And from broadcasting self-recommendations toward a more powerful model where people recommend the company and its products to their peers. *The Death of Propaganda* presents Three Voices strategy, a step-by-step recipe for meeting this challenge via three distinct modes of stakeholder engagement: Voice of Company; Voice of Industry; and Voice of Customer. The Real World Guide to Fashion Selling and Management John Wiley & Sons

The New Psychology of Selling The sales profession is in the midst of a perfect storm. Buyers have more power—more information, more at stake, and more control over the sales process—than any time in history. Technology is bringing disruptive change at an ever-increasing pace, creating fear and uncertainty that leaves buyers clinging to the status quo. Deteriorating attention spans have made it difficult to get buyers to sit still long enough to “challenge,” “teach,” “help,” give “insight,” or sell “value.” And a relentless onslaught of “me-too” competitors have made differentiating on the attributes of products, services, or even price more difficult than ever. Legions of salespeople and their leaders are coming face to face with a cold hard truth: what once gave salespeople a competitive edge—controlling the sales process, command of product knowledge, an arsenal of technology, and a great pitch—are no longer guarantees of success. Yet this is where the vast majority of the roughly \$20 billion spent each year on sales training goes. It’s no wonder many companies are seeing 50 percent or more of their salespeople miss quota. Yet, in this new paradigm, an elite group of top 1 percent sales professionals are crushing it. In our age of technology where information is ubiquitous and buyer attention spans are fleeting, these superstars have learned how to leverage a new psychology of selling—Sales EQ—to keep prospects engaged, create true competitive differentiation, as well as shape and influence buying decisions. These top earners are acutely aware that the experience of buying from them is far more important than products, prices, features, and solutions. In Sales EQ, Jeb Blount takes you on an unprecedented journey into the behaviors, techniques, and secrets of the highest earning salespeople in every industry and field. You’ll learn: How to answer the 5 Most Important Questions in Sales to make it virtually impossible for prospects to say no How to master 7 People Principles that will give you the power to influence anyone to do almost anything How to shape and align the 3 Processes of Sales to lock out competitors and shorten the sales cycle How to Flip the Buyer Script to gain complete control of the sales conversation How to Disrupt Expectations to pull buyers towards you, direct their attention, and keep them engaged How to leverage Non-Complementary Behavior to eliminate resistance, conflict, and objections How to employ the Bridge Technique to gain the micro-commitments and next steps you need to keep your deals from stalling How to tame Irrational Buyers, shake them out of their comfort zone, and shape the decision making process How to measure and increase your own Sales EQ using the 15 Sales Specific Emotional Intelligence Markers And so much more! Sales EQ begins where The Challenger Sale, Strategic Selling, and Spin Selling leave off. It addresses the human relationship gap in the modern sales process at a time when sales organizations are failing because many salespeople have never been taught the

human skills required to effectively engage buyers at the emotional level. Jeb Blount makes a compelling case that sales specific emotional intelligence (Sales EQ) is more essential to success than education, experience, industry awareness, product knowledge, skills, or raw IQ; and, sales professionals who invest in developing and improving Sales EQ gain a decisive competitive advantage in the hyper-competitive global marketplace. Sales EQ arms salespeople and sales leaders with the tool

What's the secret to sales success? If you're like most business leaders, you'd say it's fundamentally about relationships—and you'd be wrong. The best salespeople don't just build relationships with customers. They challenge them. The need to understand what top-performing reps are doing that their average performing colleagues are not drove Matthew Dixon, Brent Adamson, and their colleagues at Corporate Executive Board to investigate the skills, behaviors, knowledge, and attitudes that matter most for high performance. And what they discovered may be the biggest shock to conventional sales wisdom in decades. Based on an exhaustive study of thousands of sales reps across multiple industries and

geographies, The Challenger Sale argues that classic relationship building is a losing approach, especially when it comes to selling complex, large-scale business-to-business solutions. The authors' study found that every sales rep in the world falls into one of five distinct profiles, and while all of these types of reps can deliver average sales performance, only one-the Challenger- delivers consistently high performance. Instead of bludgeoning customers with endless facts and features about their company and products, Challengers approach customers with unique insights about how they can save or make money. They tailor their sales message to the customer's specific needs and objectives. Rather than acquiescing to the customer's every demand or objection, they are assertive, pushing back when necessary and taking control of the sale. The things that make Challengers unique are replicable and teachable to the average sales rep. Once you understand how to identify the Challengers in your organization, you can model their approach and embed it throughout your sales force. The authors explain how almost any average-performing rep, once equipped with the right tools, can successfully reframe customers' expectations and deliver a distinctive purchase experience that drives higher levels of customer loyalty and, ultimately, greater growth.
