Did you know that the best time to learn something new is during the first two hours after you wake up and the last two hours before you go to sleep? Did you know that stressing key points in color can boost memory retention by 25 percent? Author Laura Erlauer has studied brain research and applied it to classroom teaching in a way that is both intuitive and scientific. Synthesizing recent research exploring how the brain works, she explains how students' emotions and stress affect their ability to learn, how the physical classroom environment influences learning, and what forms of assessment work best. Drawing on her experience as a teacher and principal, Erlauer summarizes current brain research and shows how teachers can use this knowledge in the classroom every day. The book covers a wide variety of topics, including * The most effective use of collaborative learning; * Simple ways to keep the attention of your students for the whole class period; * Keys to involving students in decision making to increase their engagement and achievement; * Ways to make lesson content relevant to motivate students; and * Things every teacher can do to limit stress in the classroom and school environment. Each chapter provides examples from real classrooms, showing how the research can be used to improve student learning. The ideas and strategies presented are from a variety of grade levels and subject areas and can be used immediately to create a classroom where students can reach their full potential.

Social theory can sometimes seem as though it's speaking of a world that existed long ago, so why should we continue to study and discuss the theories of these dead white men? Can their work still inform us about the way we live today? Are they still relevant to our consumer-focused, celebrity-crazy, tattoo-friendly world? This book explains how the ideas of classical sociological theory can be understood, and applied to, everyday activities like listening to hip-hop, reading fashion magazines or watching reality TV. Taking the reader through central sociological texts, *Social Theory In Popular Culture* explains why key theorists — from Marx to Saussure — are still considered to be the bedrock of sociology and sociological enquiry. Each chapter examines a different key thinker and applies their work to a recognisable aspect of popular cultural, showing how the central issues underpinning classic social thought - class, conflict, gender, power, ethnicity, and social status - can still be readily observed within the modern global world. Encouraging the reader to critique and reflect upon the ways in which classic social theory applies to their own worlds, this is the perfect antidote to dry social theory explanations. It is an eye-opening read for all students and scholars across the social sciences.

Joe Murray never originally intended to make Rocko's Modern Life into a cartoon series. The misadventures of the anthropomorphic Australian-immigrant wallaby named Rocko, set in the fictional world of O-Town, originally started life as an unpublished comic book series back in the late 1980s. But with Nickelodeon eager to follow up on the success of Nicktoons animated series like The Ren & Stimpy Show, Murray was encouraged to pitch the show to the network. Studio chiefs evidently saw something in Murray's premise, which tapped into the Nicktoons mantra for providing edgy animation that appealed to both kids and adults alike. Rocko's Modern Life premiered on September 18, 1993, and soon developed a cult following, thanks to Rocko and his memorable cast of supporting characters. There was Heffer the comfort-eating steer, Filburt the neurotic Woody Allen-esque turtle, and Rocko's faithful dog Spunky. Rocko's Modern Life was smart too, blending kid-friendly cartoon animation with biting satire, social commentary, and some surprisingly adult humor. "Rocko's Modern Life Trivia Questions & Answers" is a have for fans everywhere. This is questions and answers about everything relate Rocko's Modern Life. Discover now.

This book comprises a selection of the top contributions presented at the second international conference " Smart and Sustainable Planning for Cities and Regions 2017 " , held in March 2017 in Bolzano, Italy. Featuring forty-six papers by policy-makers, academics and consultants, it discusses current groundbreaking research in smart and sustainable planning, including the progress made in overcoming cities ' challenges towards improving the quality of life. Climate change adaptation and mitigation of global warming, generally identified as drivers of global policies, are just the " tip of the iceberg " when it comes to smart energy transition. Indeed, equally relevant towards this current transformation – and key topics in this volume – are ICTs, public spaces and society; next economy for the city; strategies and actions for good governance; urban-rural innovation; rethinking mobility. The book ' s depth in understanding and insightfulness in re-thinking demonstrate the breaking of new ground in smart and sustainable planning. A new ground that policy-

makers, academics and consultants may build upon as a bedrock for smart and sustainable planning.

"This interesting, easy-to-read book provides a comprehensive framework for considering communication and aging in the context of biology, sociology, and psychology. This thought provoking book is strongly anti-ageist. It could serve as a broad overview for anyone interested in the myriad of issues related to communication and aging." —CHOICE "Understanding Communication and Aging achieves a nice balance between the facts of growing old, the social forces that shape that process, and the communication factors that connect these two domains. With attention to both research and everyday applications, the text is thorough and inviting. I am delighted that a user-friendly, undergraduate text has finally been produced in the field of communication and aging. This book deserves to be an instant and sustained success." —Sandra Metts, Illinois State University "This book has so many strengths. I am especially pleased with the communication focus and the discussions on cultural issues, new technologies, and identities. I am impressed by Dr. Harwood's creativity and reaching out to learners via the use of info boxes, significant achievement profiles, literary/artistic descriptions, selected detailed summaries of research, and quotations about aging. All of these features auger very well for student learning and enthusiasm. I commend Dr. Harwood for his attention to detail, targeting multiple learning styles, and attending to instructors who value these kinds of features." —Jim L. Query, Jr., University of Houston "The way Professor Harwood ties together theory, research, and everyday experience into a text that is accessible, interesting, and fun to read is impressive. The focus is not merely psychological or interpersonal; the book spans multiple disciplines. This text is the total package!" —Jo Anna Grant, California State University, San Bernardino

Understanding Communication and Aging is the most accessible introduction to the many ways aging in the 21st century is influenced by human communication processes, from face-to-face conversation to mass media representations. With a lively presentation, author Jake Harwood presents central research findings while engaging students with important questions concerning communication and aging.

Key Features Covers the broad area of communication and older adulthood: The book examines key topics such as interpersonal and family relationships in old age, media portrayals of aging, cultural variations in intergenerational communication, and health communication in old age. Shatters the myths and stereotypes of aging: The book's orientation and perspective is on "healthy" living and aging. This anti-ageist approach encourages readers to reexamine their views on aging and become fluent at defending and promoting an anti-ageist ideology. Provides concrete examples: While taking a theoretical approach, the book includes coverage of applied issues such as health communication and age-related prejudice and discrimination.
