Annotation ?"This book bears the hallmark of Open University Press texts. It is well laid out and nicely produced. It manages a good balance between textbook and cutting edge research?... The book is impressive in its command of a wide range of writings on sexuality, gender, masculinity and schooling.?" - Educational Review This book focuses on the impact and effects of masculinities on the lives of boys at school. Through interviews with boys from diverse backgrounds, the authors explore the various ways in which boys define and negotiate their masculinities at school. The following questions and issues are addressed: * What does it mean to be a 'normal' boy and who decides this? * How do issues of masculinity impact on boys from culturally diverse backgrounds, indigenous boys, those with disabilities and boys of diverse sexualities? * What issues of power impact on these boys' lives and relationships at school? What effects do these issues have on boys' learning at school? Through problematizing and interrogating the question of what makes a boy a boy, this fascinating title offers recommendations and indicates future directions for working with boys in school.

The old saying goes, "To the man with a hammer, everything looks like a nail." But anyone who has done any kind of project knows a hammer often isn't enough. The more tools you have at your disposal, the more likely you'll use the right tool for the job - and get it done right. The same is true when it comes to your thinking. The quality of your outcomes depends on the mental models in your head. And most people are going through life with little more than a hammer. Until now. The Great Mental Models: General Thinking Concepts is the first book in The Great Mental Models series designed to upgrade your thinking with the best, most useful and powerful tools so you always have the right one on hand. This volume details nine of the most versatile, all-purpose mental models you can use right away to improve your decision making, productivity, and how clearly you see the world. You will discover what forces govern the universe and how to focus your efforts so you can harness them to your advantage, rather than fight with them or worse yet- ignore them. Upgrade your mental toolbox and get the first volume today. AUTHOR BIOGRAPHY Farnam Street (FS) is one of the world's fastest growing websites, dedicated to helping our readers master the best of what other people have already figured out. This book describes the discourse of biology from a systemic functional linguistic perspective. It offers a detailed description of resources based on text analysis. The description reveals co-textual patterns of language features, their expressions through grammatical resources, as well as their functions in the disciplinary context. The book also applies the description to analyse student texts in undergraduate biology, revealing characteristics of language and knowledge development. Although the discussion in this book focuses on the discourse of biology, both the language description and the descriptive principle can be used to inform the examination of knowledge in academic discourse in general, making this key reading for students and researchers in systemic functional linguistics, discourse analysis, English for academic purposes, applied linguistics, and science education.

Utopian Dreams, Apocalyptic Nightmares traces the history of utopian representations of the Americas, first on the part of the colonizers, who idealized the New World as an earthly paradise, and later by Latin American modernizing elites, who imagined Western industrialization, cosmopolitanism and consumption as a utopian dream for their independent societies. Carlos Fuentes, Homero Aridjis, Carmen Boullosa, and Alejandro Morales utilize the literary genre of dystopian science fiction to elaborate on how globalization has resulted in the alienation of indigenous peoples and the deterioration of the ecology. This book concludes that Mexican and Chicano perspectives on the past and the future of their societies constitute a key site for the analysis of the problems of underdevelopment, social injustice, and ecological decay that plague today's world. Whereas utopian discourse was once used to justify colonization, Mexican and Chicano writers now deploy dystopian rhetoric to interrogate projects of modernization, contributing to the current debate on the global expansion of capitalism. The narratives coincide in expressing confidence in the ability of Latin American and U.S. Latino popular sectors to claim a

decisive role in the implementation of enhanced measures to guarantee an ecologically sound, ethnically diverse, and just society for the future of the Americas.

Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

In the United States, female seminaries and their antecedents, the female academies, were crucial first institutions that played a vital role in liberating women from the "home sphere," a locus that was the primary domain of Euro-American women. The female seminaries founded by Native Americans and African Americans had different founding rationales but also played a key role in empowering women. On the whole, the initial intent of these schools was to prepare women for their proper role in American society as wives and mothers. An unintended effect, however, was to prepare women for the first socially accepted profession for women: teaching. Thus equipped, women played a crucial role in the development of American education at all levels while achieving varying degrees of social justice for themselves and other groups through engagement in the reform movements of their times--including women's suffrage, abolition, temperance, and mental health reform. By recapturing the role religion played in shaping education for women, Welch and Ruelas offer a refreshing take on history that draws on several primary texts and details more than one hundred female seminaries and academies opened in the United States.

Island Landscapes takes a critical look at the evolution of European islandscapes and seascapes to examine the conditions facing them in the twenty first century. Considering island landscapes as an expression of European culture, this book envisages future trends and presents clearly the need to find a balance between preservation and development to ensure sustainability. Both large and small islands are illustrated in the book including the British Isles, Malta and Cyprus as well as archipelagos in Norway, Italy and Greece. Their unique identities and values reveal the remarkable breadth of cultural heritage possessed by these diverse European islands. An interdisciplinary approach is applied to the history, perception, characterisation and planning of islandscapes and seascapes in Europe, to support culturally-oriented strategies for these fragile landscapes.

This volume addresses the issue of the human encounter with the Mystery of God and the purpose of human life. It explores major themes from diverse cultural and philosophical traditions, starting with questions about the possibility of belief in God, His transcendence as seen in both East and West, and ending with questions about ethics and about personhood, human dignity and human rights. Taking an eclectic approach, the chapters in this book each uniquely address aspects of the human encounter with the Mystery of God, drawing from specific cultures and traditions, and using a particular philosophical and theological style. Together, the chapters provide a fresh approach and a synergy that ensures that each topic contributes something new to the dialogue between religion and culture.

Shortlisted for the 2012 Miles Franklin Award, PAST THE SHALLOWS is a powerful and hauntingly beautiful novel from an extraordinary new Australian writer who is compared with Cormac McCarthy and Tim Winton. 'If you read only one book this year, make sure it's this' Sunday Times 'I loved Past the Shallows' Kevin Powers, author of The Yellow Birds Everyone loves Harry. Except his father. Joe, Miles and Harry are growing up on the remote south coast of Tasmania. The brothers' lives are shaped by their father's moods - like the ocean he fishes, he is wild and unpredictable. He is a bitter man, with a devastating secret. Miles does his best to watch out for Harry, the youngest, but he can't be there all the time. Often alone, Harry finds joy in the small treasures he discovers, in shark eggs and cuttlefish bones. In a kelpie pup, a mug of hot chocolate, and a secret friendship with a mysterious neighbour. But sometimes small treasures, or a brother's love are not enough.

Club, Nylon, The Week, The Rumpus, The Millions, The Guardian, Publishers Weekly, and more. "A lyrical work of self-discovery that's shockingly intimate and insistently universal... Not so much briefly gorgeous as permanently stunning." —Ron Charles, The Washington Post Poet Ocean Vuong's debut novel is a shattering portrait of a family, a first love, and the redemptive power of storytelling On Earth We're Briefly Gorgeous is a letter from a son to a mother who cannot read. Written when the speaker, Little Dog, is in his late twenties, the letter unearths a family's history that began before he was born — a history whose epicenter is rooted in Vietnam — and serves as a doorway into parts of his life his mother has never known, all of it leading to an unforgettable revelation. At once a witness to the fraught yet undeniable love between a single mother and her son, it is also a brutally honest exploration of race, class, and masculinity. Asking questions central to our American moment, immersed as we are in addiction, violence, and trauma, but undergirded by compassion and tenderness, On Earth We're Briefly Gorgeous is as much about the power of telling one's own story as it is about the obliterating silence of not being heard. With stunning urgency and grace, Ocean Vuong writes of people caught between disparate worlds, and asks how we heal and rescue one another without forsaking who we are. The question of how to survive, and how to make of it a kind of joy, powers the most important debut novel of many years. Named a Best Book of the Year by: GQ, Kirkus Reviews, Booklist, Library Journal, TIME, Esquire, The Washington Post, Apple, Good Housekeeping, The New Yorker, The New York Public Library, Elle.com, The Guardian, The A.V. Grandparents in Cultural Context gives a long overdue global view of the changing roles of grandparents. The eleven main chapters are by experts in the Americas, Europe and Russia, Asia, and Africa and the Middle East, and the editors integrate their chapters with previous writings on grandparenthood. Rather than technical or statistical research reports, each chapter provides a thought-provoking and comprehensive review of research, real-life case stories, cultural influences, and applied implications for grandparenthood across and within societies. Calling special attention to the roles of grandfathers and grandparenthood in societies previously un-represented in the literature, it provides several hundred new citations of work previously unavailable in English-language publications. Accessible to both scholars and students, it has several pedagogical features (e.g. web links, discussion questions) that make it useful as a text for upper-division undergraduate or graduate level classes in behavioral, social, and family sciences. It is relevant to psychology, gerontology, family studies, anthropology, family/comparative sociology, education, social work, gender studies, ethnic studies, psychiatry, and diversity and international studies programs. Practitioners, service providers, policymakers, and internationally minded grandparents will also enjoy this book.

Since the dawn of history, the sea has connected and divided human societies. In order to address this, increasingly ingenious and innovative technological solutions have been developed, and the sea has never been an insuperable barrier to mankind. This book presents the proceedings of ICNM 2019, the 3rd International Conference on Nautical and Maritime Culture, held in Naples, Italy, on 14 and 15 November 2019. The conference covers all conceptual and theoretical aspects relating to nautical and maritime culture, and topics covered by the 21 papers presented here include: the history of ships and navigation; maritime museums and libraries; naval architecture and the evolution of marine engineering; the conservation of nautical marine and maritime heritage; ship and nautical design; careers at sea; and the evolution of the waterfront and the coastal marine environment. The ICNM conference promotes dialogue between academics, professionals, and those involved in maritime research and development, and the book will be of interest to all those with an involvement in nautical and maritime culture.
