Culturally Responsive Teaching and The Brain Corwin Press

The Paideia Proposal is a system of liberal education intended for all children. It was a response to what Adler characterized as the United States' antidemocratic or undemocratic educational system, a holdover from the 19th century, when the understanding of basic human rights fell short of 20th century expectations. The Paideia Proposal was based upon the following assumptions: 1) All children are educable; 2) Education is never completed in school or higher institutions of learning, but is a lifelong process of maturity for all citizens; 3) The primary cause of learning is the activity of the child's mind, which is not created by, but only assisted by the teacher; 4) Multiple types learning and teaching must be utilized in education, not just teacher lecturing, or telling; and 5) A student's preparation for earning a living is not the primary objective of schooling. Adler stressed that the proposal is much more than just a return to the basic skills of reading, writing and arithmetic. It is not simply a return to the values of classical civilization, but a return to what is of enduring value. It is a democratic proposal intended for the education of all, and not an elitist program as some have alleged.

Socratic Seminars and Literature Circles

Simon and Schuster

The untold story of the root cause of America's education crisis--and the seemingly endless cycle of multigenerational poverty. It was only after years within the education reform movement that Natalie Wexler stumbled across a hidden explanation for our country's frustrating lack of progress when it comes to providing every child with a quality education. The problem wasn't one of the usual scapegoats: lazy teachers, shoddy facilities, lack of accountability. It was something no one was talking about: the elementary school curriculum's intense focus

on decontextualized reading comprehension "skills" at the expense of actual knowledge. In the tradition of Dale Russakoff's The Prize and Dana Goldstein's The Teacher Wars, Wexler brings together history, research, and compelling characters to pull back the curtain on this fundamental flaw in our education system--one that fellow reformers, journalists, and policymakers have long overlooked, and of which the general public, including many parents, remains unaware. But The Knowledge Gap isn't just a story of what schools have gotten so wrong--it also follows innovative educators who are in the process of shedding their deeply ingrained habits, and describes the rewards that have come along: students who are not only excited to learn but are also acquiring the knowledge and vocabulary that will enable them to succeed. If we truly want to fix our education system and unlock the potential of our neediest children, we have no choice but to pay attention.

A cannon. A strap. A piece. A biscuit. A burner. A heater. A chopper. A gat. A hammer A tool for RULE Or, you can call it a gun. That' s what fifteen-year-old Will has shoved in the back waistband of his jeans. See, his brother Shawn was just murdered. And Will knows the rules. No crying. No snitching. Revenge. That' s where Will' s now heading, with that gun shoved in the back waistband of his jeans, the gun that was his brother' s gun. He gets on the elevator, seventh floor, stoked. He knows who he' s after. Or does he? As the elevator stops on the sixth floor, on comes Buck. Buck, Will finds out, is who gave Shawn the gun before Will took the gun. Buck tells Will to check that the gun is even loaded. And that' s when Will sees that one bullet is missing. And the only one who could have fired Shawn' s gun was Shawn. Huh. Will didn' t know that Shawn had ever actually USED his gun. Bigger huh. BUCK IS DEAD. But Buck' s in the elevator? Just as Will' s trying to think this through, the door to the next floor opens. A teenage girl gets on, waves away the smoke from Dead Buck' s cigarette. Will doesn' t know her, but she knew him. Knew. When they were eight. And stray

bullets had cut through the playground, and Will had tried to cover her, but she was hit anyway, and so what she wants to know, on that fifth floor elevator stop, is, what if Will, Will with the gun shoved in the back waistband of his jeans, MISSES. And so it goes, the whole long way down, as the elevator stops on each floor, and at each stop someone connected to his brother gets on to give Will a piece to a bigger story than the one he thinks he knows. A story that might never know an END...if Will gets off that elevator. Told in short, fierce staccato narrative verse, Long Way Down is a fast and furious, dazzlingly brilliant look at teenage gun violence, as could only be told by Jason Reynolds. The classic, bestselling book on the psychology of racism -- now fully revised and updated Walk into any racially mixed high school and you will see Black, White, and Latino youth clustered in their own groups. Is this self-segregation a problem to address or a coping strategy? Beverly Daniel Tatum, a renowned authority on the psychology of racism, argues that straight talk about our racial identities is essential if we are serious about enabling communication across racial and ethnic divides. These topics have only become more urgent as the national conversation about race is increasingly acrimonious.

This fully revised edition is essential reading for anyone seeking to understand the dynamics of race in America.
