A “funny, erudite, and fascinating” miscellany of things lost, large and small—from cultures to candies, species to sports gear—by the acclaimed columnist (A.C. Grayling). They go. They vanish. People. Civilizations. Languages. Philosophies. Works of art disappear, species are extinguished, books are lost. Dunwich is drowned, Pompeii buried, Athena’s statue gone from the Parthenon, Suetonius’s Lives of the Great Whores gone the way of the Roman Empire. Whole libraries of knowledge, galleries of secrets. Gone.

Little things, too. Train compartments. Snuff, galoshes, smog. Your mother's perfume. Michael Bywater argues that we are not defined by what we have but by what we have lost along the way. In *Lost Worlds*, he offers a witty, eclectic, and endlessly fascinating glossary of the missing, a cabinet of absent curiosities, weaving a web of everything we no longer have.

Writing explicitly about interracial homosexual sex makes many people uneasy. Adams celebrates the sexual connections across the American great divide of race that he made during two particularly interesting epochs of modern American gay history.

Talking to Strangers Nicholas Black

A provocative satire of love, sex, money, and politics that unfolds over four wild days in so-called "paradise"—the long-awaited first novel from the acclaimed author of *Sam the Cat* "I seriously, deeply love this book."—Michael Cunningham **NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES AND THE**

WASHINGTON POST Every summer, a once-sort-of-famous cartoonist named Rich Fischer leaves his wife and two kids behind to teach a class at a weeklong arts conference in a charming New England beachside town. It's a place where, every year, students—nature poets and driftwood sculptors, widowed seniors, teenagers away from home for the first time—show up to study with an esteemed faculty made up of prizewinning playwrights, actors, and historians; drunkards and perverts; members of the cultural elite; unknown nobodies, midlist somebodies, and legitimate stars—a place where drum circles happen on the beach at midnight, clothing optional. Once more, Rich finds himself, in this seaside paradise, worrying about his family's nights without him and trying not to think about his book, now out of print, or

his future as an illustrator at a glossy magazine about to go under, or his back taxes, or the shameless shenanigans of his colleagues at this summer make-out festival. He can't decide whether his own very real desire for love and human contact is going to rescue or destroy him. A warped and exhilarating tale of love and lust, *Who Is Rich?* goes far beyond to address deeper questions: of family, monogamy, the intoxicating beauty of children, and the challenging interdependence of two soulful, sensitive creatures in a confusing domestic alliance.

On September 13, 1998, John Scalzi sat down in front of his computer to write the first entry in his blog *Whatever*--and changed the history of the Internet as we know it today. What, you're not swallowing that one? Okay, fine: He started writing *Whatever* and amused about 15 people that first day. If that many. But he kept at it, for ten years and running. Now 40,000 people drop by on a daily basis to see what he's got to say. About what? Well, about whatever: Politics, writing, family, war, popular culture and cats (especially with bacon on them). Sometimes he's funny. Sometimes he's serious (mostly he's sarcastic). Sometimes people agree with him. Sometimes they send him hate mail, which he grades on originality and sends back. Along the way, Scalzi's become a best-selling, award-winning author, a father, and a geek celebrity. But no matter what, there's always another *Whatever* post to amuse and/or enrage his readers. *Your Hate Mail Will Be Graded* collects some of the best and most popular *Whatever* entries from the first ten years of the blog – a decade of *Whatever*, presented in delightfully random form, just as it should be. *

Looking at a heretofore overlooked set of archival records of London in the late 17th and early 18th centuries, Hurl-Eamon reassesses the impact of gender on petty crime and its prosecution during the period. This book offers a new approach to the growing body of work on the history of violence in past societies. By focusing upon low-cost prosecutions in minor courts, Hurl-Eamon uncovers thousands of assaults on the streets of early modern London. Previous histories stressing the masculine nature of past violence are questioned here: women perpetrated one-third of all assaults. In looking at more mundane altercations rather than the homicidal attacks studied in previous histories, the book investigates violence as a physical language, with some forms that were subject to gender constraints, but many of which were available to both men and women. Quantitative analyses of various circumstances surrounding the assaults--including initial causes, weapons used, and injuries sustained--outline the patterns of violence as a language. Hurl-Eamon also stresses the importance of focusing on the prosecutorial voice. In bringing the court's attention to petty attacks, thousands of early modern men and women should be seen as agents rather than victims. This view is especially interesting in the context of domestic violence, where hundreds of wives and servants prosecuted patriarchs for assault, and in the Mohock Scare of 1712, where London's

populace rose up in opposition to aristocratic violence. The discussion is informed by a detailed knowledge of assault laws and the rules governing justices of the peace.

How My Gay Uncle F'ed Up Christmas Knopf

A MILESTONE IN GAY FICTION Phillip Froelich is in trouble. The year is 1946, and he's traveling to Seattle where he will face a court martial for acting insubordinate to a lazy officer in the closing days of World War II. On the way to Seattle he meets Tim Danelaw, and soon the court martial is among the least of Phillip's concerns.... So begins *Quatrefoil*, a novel originally published in 1950. It marked a milestone in gay writing, with two of the first non-stereotyped gay characters to appear in American fiction. For readers of the Fifties, it was a rare chance to counteract the negative imagery that surrounded them. Today, *Quatrefoil* ranks as a classic work of gay writing, a novel that is still as gripping and enjoyable as ever. It is of extra interest to the modern reader for the vivid picture it draws of what life was like for gay men in our recent but little-known past.

The idea behind *10-Second Feelings* was to mimic a philosophy that has resonated through warriors, philosophers, deep thinkers and athletes for literally hundreds of years. The basic concept is to be able to control your emotions - whether they are good or bad - in the space of 10 seconds. I prepared some very interesting research that helps to support this concept. I

have provided a variety of breathing techniques that will help you gain your mental focus in a very short period of time.

A Dictionary of Sexual Language and Imagery in Shakespearean and Stuart Literature Nicholas Black

Mehr als 400 Jahre lang erlitten schwarzafrikanische Männer, Frauen und Kinder während des transatlantischen Sklavenhandels schlimmste Formen der Versklavung und Erniedrigung durch Katholiken und das westliche Christentum. Damals wie heute glaubte niemand an die tiefe Verwicklung der Kirche und des Papsttums in den schwarzafrikanischen Holocaust. Trotz jüngster Behauptungen des päpstlichen Officiums in Rom, wonach die Päpste jegliche Form von Sklaverei verurteilten, so auch im Falle der Versklavung von Schwarzafrikanern, verweisen neuere Studien innerhalb dieses Forschungsfeldes auf das Gegenteil. Die Kirche und die Päpste nahmen vielmehr zentrale Rollen in diesem schlimmsten Verbrechen gegen die Schwarzafrikaner seit Beginn der schriftlichen Dokumentation ein. Mithilfe zahlreicher päpstlicher Bullen aus den Geheimarchiven des Vatikans und einer Vielzahl an königlichen Dokumenten aus dem portugiesischen Nationalarchiv in Lissabon, strebt der vorliegende Band eine kritische und analytische Untersuchung dieses Aspekts des transatlantischen Sklavenhandels an, der über so viele Jahre von den westlichen Historikern und Gelehrten verschleiert wurde. For over 400 years, Black African men, women and children suffered the worst type of enslavement and humiliation from the hands of Catholics and other Western Christians during the transatlantic slave trade. Before now, no one could ever believe that the Popes of the Church were deeply involved in this Holocaust against Black African people. Despite the claims made by the hallowed papal office in Rome in recent years that the Popes condemned the enslavement of peoples wherever it existed including that of Black Africans, recent researches in these fields of

study have proved the contrary to be true. The Church and her Popes were rather among the major “role players” in this worst crime against Black Africans in recorded history. With the help of a considerable number of papal Bulls from the Vatican Secret Archives and a great amount of Royal documents from the Portuguese National Archives in Lisbon, the present book is aiming to undertake a critical and analytical inquiry of this aspect of the transatlantic slavery that has been kept in the dark for so many years by the Western historians and scholars. The results of this studious but fruitful academic inquiry are laid bare in this notable work of the 21st century. Pius Onyemechi Adiele is a Catholic priest of Ahiara Diocese Mbaise and an alumnus of Seat of Wisdom Seminary Owerri and Bigard Memorial Seminary Enugu in Nigeria. He obtained his licentiate in Theology from the famous University of Münster and his doctoral degree in Church History from the renowned University of Tübingen in Germany. At present, he is a research fellow in the areas of African Church History and Enslavement of peoples as well as the pastor in charge of the merged parishes of Lauchheim, Westhausen, Lippach, Röttingen and Hülen in Germany.

This fascinating book is the first volume in a projected cultural history of the United States, from the earliest English settlements to our own time. It is a history of American folkways as they have changed through time, and it argues a thesis about the importance for the United States of having been British in its cultural origins. While most people in the United States today have no British ancestors, they have assimilated regional cultures which were created by British colonists, even while preserving ethnic identities at the same time. In this sense, nearly all Americans are "Albion's Seed," no matter what their ethnicity may be. The concluding section of this remarkable book explores the ways that regional cultures have continued to dominate national politics from 1789 to 1988, and still help to shape attitudes toward education, government, gender, and violence, on which differences between American regions are greater than between European nations.
