A beautifully packaged edition of one of García Márquez's most beloved novels, with never-before-seen color illustrations by the Chilean artist Luisa Rivera and an interior design created by the author's son, Gonzalo García Barcha. In their youth, Florentino Ariza and Fermina Daza fall passionately in love. When Fermina eventually chooses to marry a wealthy, well-born doctor, Florentino is devastated, but he is a

romantic. As he rises in his business career he whiles away the years in 622 affairs—yet he reserves his heart for Fermina. Her husband dies at last, and Florentino purposefully attends the funeral. Fifty years, nine months, and four days after he first declared his love for Fermina, he will do so again.

Aspects is the first text that deals with the scientific aspects of necrophilia from a multidisciplinary point of view. After an introduction that provides a general scientific, social, and historical perspective, this volume: Explores causes and contributing factors, covering biological theories and genetics, Sodomy Cat How My Gay Uncle F'ed Up Christmas IN THIS COMING of age story a tragic accident leaves Trevor looking for a place to call home. And now that his parents are gone the only one he can turn to is his uncle Gary — the legendary fetish-porn producer. Surrounded by new friends, a new school, and an environment that he could never have imagined, Trevor finds that the past he thought he knew was a well constructed lie. LITTLE BY LITTLE, the disturbing truth is brought to the surface and he

finds that guidance and understanding can come from the most unlikely of people. Just when he thinks he is getting his life back together, tragedy strikes again. AND THEN HE is given the Diary. BE WARNED — this story is not for the faint of heart. It is an incredible mix of mystery and comedy, turmoil and suspense. Sodomy Cat has a way of getting under your skin. It'll knock on your door at 3 in the morning, sneak into your bedroom, and pull your panties down.

The Cat who Wished to be a Man OUP Oxford

A classic text on deviance is updated and reissued. A K Press Distribution The Oxford Handbook of English Prose 1500-1640 is the only current overview of early modern English prose writing. The aim of the volume is to make prose more visible as a subject and as a mode of writing. It covers a vast range of material vital for the

understanding of the period: inaugurated by John Lyly's from jestbooks, newsbooks, and popular romance to the translation of the classics and the pioneering collections of scientific writing and travel writing; from diaries, tracts on witchcraft, and domestic conduct books to rhetorical treatises designed for a courtly audience; from little known works such as William Baldwin's *Beware the Cat*, probably the first novel in English, to *The Bible*, *The Book of Common Prayer* and Richard Hooker's eloquent statement of Anglican belief, *The Laws of Ecclesiastical Polity*. The work not only deals with the range and variety of the substance and types of English prose, but also analyses the forms and styles of writing adopted in the early modern period, ranging from the Euphuistic nature of prose fiction

mannered novel, to the aggressive polemic of the Marprelate controversy; from the scatological humour of comic writing to the careful modulations of the most significant sermons of the age; and from the pithy and concise English essays of Francis Bacon to the ornate and meandering style of John Florio's translation of Montaigne's famous collection. Each essay provides an overview as well as comment on key passages, and a select guide to further reading.

Intercourse is a book that moves through the sexed world of dominance and submission. It moves in descending circles, not in a straight line, and as in a vortex each spiral goes down deeper. Its formal model is Dante's Inferno; its lyrical debt is to Rimbaud; the equality it envisions is rooted in the dreams of women, silent generations, pioneer voices, lone rebels, and masses who agitated, demanded, cried out, broke laws, and even begged. The begging was a substitute for retaliatory violence: doing bodily harm back to those who use or

injure you. I want women to be done with begging. The public censure of women as if we are rabid because we speak without apology about the world in which we live is a strategy of threat that usually works. Men often react to women's words - speaking and writing - as if they were acts of violence; sometimes men react to women's words with violence. So we lower our voices. Women whisper. Women apologize. Women shut up. Women trivialize what we know. Women shrink. Women pull back. Most women have experienced enough dominance from men - control, violence, insult, contempt - that no threat seems empty. Intercourse does not say, forgive me and love me. It does not say, I forgive you, I love you. For a woman writer to thrive (or, arguably, to survive) in these current hard times, forgiveness and love must be subtext. No. I say no. Intercourse is search and assertion, passion and fury;

and its form - no less than its content - deserves critical scrutiny and respect.----

Witchcraft and magic are topics of enduring interest for many reasons. The main one lies in their extraordinary interdisciplinarity: anthropologists, folklorists, historians, and more have contributed to build a body of work of extreme variety and consistence. Of course, this also means that the subjects themselves are not easy to assess. In a very general way, we can define witchcraft as a supernatural means to cause harm, death, or misfortune, while magic also belongs to the field of supernatural, or at least esoteric knowledge, but can be used to less dangerous effects (e.g.,

divination and astrology). In Western civilization, however, the witch hunt has set a very peculiar perspective in which diabolical witchcraft, the invention of the Sabbat, the persecution of many thousands of (mostly) female and (sometimes) male presumed witches gave way to a phenomenon that is fundamentally different from traditional witchcraft. This Special Issue of Religions dedicated to Witchcraft, Demonology, and Magic features nine articles that deal with four different regions of Europe (England, Germany, Hungary, and Italy) between Late Medieval and Modern times in different contexts and social milieus. Far from pretending to offer a complete picture, they focus on some topics that are central to the research in those fields and fit well in

the current “cumulative concept of Western witchcraft” that rules out all mono-causality theories, investigating a plurality of causes.

Throughout his career, Eduardo Galeano has turned our understanding of history and reality on its head. Isabelle Allende said his works “invade the reader's mind, to persuade him or her to surrender to the charm of his writing and power of his idealism.” *Mirrors*, Galeano's most ambitious project since *Memory of Fire*, is an unofficial history of the world seen through history's unseen, unheard, and forgotten. As Galeano notes: “Official history has it that Vasco Núñez de Balboa was the first man to see, from a summit in Panama, the two oceans at once. Were the people who lived there blind??” Recalling the lives of

artists, writers, gods, and visionaries, from the Garden of Eden to twenty-first-century New York, of the black slaves who built the White House and the women erased by men's fears, and told in hundreds of kaleidoscopic vignettes, *Mirrors* is a magic mosaic of our humanity.

This fascinating book is the first volume in a projected cultural history of the United States, from the earliest English settlements to our own time. It is a history of American folkways as they have changed through time, and it argues a thesis about the importance for the United States of having been British in its cultural origins. While most people in the United States today have no British ancestors, they have assimilated regional cultures which were created by British colonists, even while

preserving ethnic identities at the same time. In this sense, nearly all Americans are "Albion's Seed," no matter what their ethnicity may be. The concluding section of this remarkable book explores the ways that regional cultures have continued to dominate national politics from 1789 to 1988, and still help to shape attitudes toward education, government, gender, and violence, on which differences between American regions are greater than between European nations.

Nicholas Black Closet Queens is a fascinating study of gay men in twentieth century British politics, from Lord Rosebery and Lord Beauchamp in Edwardian times to Michael Portillo and Peter Mandelson in our own era. As all homosexual

activity was illegal until 1967, and exposure meant ruin and disgrace, such men were obliged either to repress their sexual feelings or else lead double lives, indulging their tastes secretly while respectably married with children. The need to cover up their sexuality, while causing problems and disappointments, often sharpened their skills as politicians - they were masters of secrecy and subterfuge, and knew how to take calculated risks. An entertaining and insightful account of some extraordinary personalities, Closet Queens opens doors into a hidden world.

More than three decades after its first publication, Edward Said's groundbreaking critique of the West's historical, cultural, and political perceptions of the East has become a modern classic. In this wide-ranging, intellectually vigorous study, Said traces the origins of "orientalism" to the centuries-long period during which Europe dominated the Middle and Near East and, from its position of power, defined "the orient" simply as "other than" the occident. This entrenched view continues to dominate western ideas and, because it does not allow the East to represent itself, prevents true understanding. Essential, and still eye-opening, *Orientalism* remains one of the most important books written about our divided world.

This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could

patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.

A fascinating mix of autobiographical episodes and extraordinary Egyptian theology, Burroughs's final novel is poignant and melancholic. Blending war films and pornography, and referencing Kafka and Mailer, *The Western Lands* confirms his status as one of America's greatest writers. The final novel of the trilogy containing *Cities of the Red Night* and *The Place of Dead Roads*, this is a profound meditation on morality, loneliness, life and death.
