---

foundation. Avoid mistakes that can result in government penalties Save the fees of consulting with an accountant Know when you should register your business Get insights into whether you should incorporate your business Understand when and how to register for sales tax and what to do if you plan to hire employees Know what type of expenses are deductible for small businesses Understand the types of tax forms that need to be completed by unincorporated self employed small business owners Get guidance on setting up accounting for your business Learn how to create invoices for your customers and clients Save time and frustration and instead focus on growing your business!

CUSTOMER REVIEWS: I first stumbled across this little book while researching how I wanted to structure my freelance copywriting business. After reading it I think it's essential reading for any Canadian/Quebecer small business person who wants clear, straightforward, no "BS" answers to every question you have (and many you haven't thought about) about starting a sole proprietorship. The book is written in layman's terms so pretty much anyone can understand it, but I appreciate that it also doesn't skimp on specifics or talk down to the reader. And since each chapter title answers a question about sole proprietorship (e.g., "Why and how to register your sole proprietorship," "What does it mean to be zero-rated or exempt?") you can skip around the book as you like without wondering if you missed something. Highly recommend for Canadian entrepreneurs in every province! I was thrilled to have found your website and your book. I've been going chapter by chapter through the book and it's great. It's very clear and it's step-by-step so it's easy to put into practice. I read a chapter every day and do what is relevant for that day (register the business, open a bank account, etc). I really like the section on deductions as well. It's a great book and a great guide. You make the process easy! Ronika's book provides great insight which allowed me to

understand the process of starting a business in Quebec. It is very informative and well organized, as the information provided can be difficult to find elsewhere and let alone in one resource. I highly recommend reading through this book if you are starting a business in Quebec or in Canada! Your book truly has made my business registration journey so much easier; everything is so easy to follow and is beginner friendly. With the Quebec system being a slightly different from the rest of Canada, it was a bit complicated to search for detailed information anywhere; I'm so glad I came across your book! It is a very useful book, I learned many tips and got all the answers in the book. Thanks so much Ronika, now I have clear ideas for my new small business. I found your book very helpful. I have a publishing house that was registered in Ontario as a Sole Trader, but I have since moved to Québec province and needed information on how to register here and to understand the laws and regulations. Your book was really helpful especially in pointing out where to find the information that I needed and in advising on issues that need to be attended to.

**FASTSTART YOUR BUSINESS** Cambridge University Press

The Tax Cuts and Jobs Act is considered the most sweeping tax law change in decades, and for many individuals and businesses the massive and complex changes will have profound impacts. The treatment of pass-through entities is one of the many areas where the new Act promises to fundamentally change the approach to tax planning for many business owners. The all-new CCH(R) AnswerConnect: Tax Cuts and Jobs Act Impact - Guide to Pass-Through Entities is focused on the major changes made to the tax rules

---

for pass-through entities, including limited liability companies (LLCs), partnerships, S Corporations and sole proprietorships. Currently, the income from these pass-through entities flows through to the individual owners and is taxed at the individual rate. However, the tax landscape for pass-through entities will change considerably under the new tax law. The CCH Answer Connect Guide on Pass-Through Entities is focused on the major changes made by the Tax Cuts and Jobs Act in the way that business income generated by pass-through entities such as limited liability companies (LLCs), partnerships, S corporations or sole proprietorships is taxed. Under the old law, the net income of these pass-through entities was not taxed at the entity level but was taxed instead by the owners of the business at their individual tax rate. The Tax Cuts and Jobs Act adds a new section to the Code which provides that a non-corporate taxpayer who has qualified business income from a partnership, S corporation or sole proprietorship may be entitled to an additional deduction.

PassKey Learning Systems EA Review Part 2 Businesses Enrolled Agent Study Guide: PassKey EA Exam Review May 1, 2022-February 28, 2023 Testing Cycle Taxes for Small Businesses QuickStart Guide

Are you thinking about starting a business but are confused by the taxes? Do you already own a business and need to know the tax repercussions of having employees versus outsourcing to contractors? Are you confused on depreciation and how to use it to your tax advantage? Not sure which accounting software to use? Do you need an accountant or can you do your taxes yourself? Find the answers to these questions and more As a small business owner, you have a lot on your mind. Worries consist of how to increase sales, how much inventory to keep, and whether or not to rent office space. While these concerns are important, they're not as important as managing your taxes, which is an aspect of your small business that involves both profitability and legal compliance issues. If you don't handle your small business' taxes correctly, you can count on the almighty Internal Revenue Service or IRS to come knocking, nay, banging at your small business' door to make things really hard and costly for you. That's why consistent and efficient tax management for your small business is something that you need to learn. In this book

you will learn: How to manage your small business taxes How to improve your standing with the almighty IRS How to maximize your profits Which business structure is best for you? How your choice of business structure will effect your taxes How to plan tax management The different types of taxes your business will have to pay How your chose of accounting methods can change your tax implications Whether not to hire a professional The basic elements of computing for your business income tax returns. In addition: This book features a lengthy discussion on the issue of depreciation and how to maximize that as a tax-deductible expense. You'll learn how to manage your small business' payroll taxes, should you decide to or are already employing people to help you run your business. This is another crucial area where most small business owners tend to struggle with and often need assistance in. Don't wait until the IRS starts knocking - or banging - down your small business's doors before you take action. Buy this book now and learn how to manage your small business's taxes effectively and continue staying on the good side of the almighty IRS! Download your copy today!

Say goodbye to scratching your head in confusion This LLC book could be the answer you're looking for... A limited liability company (LLC) can be the right choice for any business owner seeking to reduce liability and protect his or her assets. This type of entity has several advantages over operating a sole proprietorship or partnership. Unlike a sole proprietorship or partnership, an LLC shields the owner or owners from liability, and unlike a more complex corporation, management structure is loose, there is no board of directors to answer to, and with an LLC being a pass-through organization, no double taxation which corporations are subject to unless one elects to be taxed as a C or S corporation. In this book, you will discover the ins and outs of an LLC and find out if it's right for you. Here are just some of the topics that are discussed in this book: LLC's Explained, Pros, Cons LLC Case Law: A Cautionary Tale LLC and Piercing the Corporate Veil Steps to Starting an LLC LLC State-Specific Guidelines LLC Hiring Tips LLC Accounting Explained LLC Taxes Transitioning an Existing Business into an LLC Dissolution of an LLC And Much More So, what are you waiting for?
