Solution Architect Vs Enterprise File Type
Enterprise and solution architect roles. Enterprise and solution architects don't design buildings, cities or other concrete structures. Their concern is the design of business activity systems in which human and computer actors perform processes to deliver services.
Enterprise Architect vs Solution

Architect – dbj(org);
From this perspective, solution architecture’s value to enterprise architecture becomes even more clear. Where an enterprise architect is concerned with the EA’s current state, and the strategy to reach the desired future-state, solutions architects act on that strategic direction. Enterprise Architects vs. Solutions Architects
Enterprise vs. Solution vs ... - Architecture Center

Enterprise architecture is just solution architecture, but at a larger scale: ‘the enterprise’. All these kinds of architectures are just a matter of scale. As the scale increases, the details become harder to manage because there are more of them. And it’s more than just ‘design for the issue at hand’.
Enterprise Architects vs Solution Architects vs Domain ...
Solution architecture (SA) describes the architecture of a technological solution. It uses different perspectives including information,

technical, and business. It also considers the solution from the point of EA. Enterprise architects are best known for taking the "50,000-foot view" of a project. A solutions architect zones in on the details.
