LogoLounge Master Library, Volume 1, is the beginning of a new series of books by the authors of LogoLounge, featuring the ultimate collection of logos by category. The first book will focus on logos featuring crests and initials. As with Rockport's other books on logos, this series has the same inspirational draw, featuring over 3,000 logos. Constantly looking for fresh inspiration, designers can use this new series to take a more focused look at core logo applications.

The Multimedia and CD-ROM Directory CRC Press

The third in the seven-volume LogoLounge Master Library series, Shapes & Symbols is a collection of 3,000 shape- and symbol-based designs gathered from LogoLounge.com, the largest online collection of logos in the world. In addition, top designers, including Steff Geissbuhler, Jerry Kuyper, and Hans Hulsbosch, share their insights on the values, traditions, and future of shape- and symbol-based logo designs. "Shapes are generally logos that are more concept-oriented. It is a category that is rich with history, culture, and present-day opportunity. "Symbols are logos that are based on pictorial representations of concept: a heart, a star, or a cross, to name a few. In large part, their meaning is drawn from the specific base symbol. The LogoLounge Master Library series forms the deepest, densest, most highly focused collection of logos organized by category ever. It is organized with the busy, motivated designer in mind. You can turn to exactly what you need, time after time " a must-have resource for any serious logo designer.
