Like most technical disciplines, environmental science and engineering is becoming increasingly specialized. As industry professionals focus on specific environmental subjects they become less familiar with environmental problems and solutions outside their area of expertise. This situation is compounded by the fact that many environmental science related terms are confusing. Prefixes such as bio-, enviro-, hydra-, and hydro- are used so frequently that it is often hard to tell the words apart. The Environmental Engineering Dictionary and Directory gives you a complete list of brand terms, brand names, and trademarks - right at your fingertips.

Eye-catching visual intercourse is the way of the future. In this shrinking world we have come to know as the global village, art and design as well as business and industry will have to seek new ways to cross culturally communicate information and ideas. As visual interaction becomes the single most important factor in communication, Non Traditional Design promises to be the single most important source for designers working in the field, as well as those simply interested in the cutting-edge.
