*RESEARCH METHODOLOGY: TOOLS AND TECHNIQUES*

Research methods can be defined as the various ways and means of conducting a research that involve the conduct of experiments, tests, surveys and the like. It can be said that research methods aim at finding solutions to research problems. There are many types of research methods.

**Uma Sekaran (Author of Research Methods for Business)**

### **7 Key Differences between Research Method and Research ...**

Methodology refers to the overarching strategy and rationale of your research project. It involves studying the methods used in your field and the theories or principles behind them, in order to develop an approach that matches your objectives.. Methods are the specific tools and procedures you use to collect and analyze data (for example, experiments, surveys, and statistical tests).

*Chp5 - Research Methods for Business By Authors Uma ...*

An experiment is a research technique in which an IV is manipulated / and the effects of this on a DV are observed and measured. / Other (extraneous) variables are held constant. / A true experiment is one in which the IV is directly under the experimenter's control (as in laboratory or field experiments).

*What is your methodology to develop a solution to solve a ...*

^Research may be defined as a method of studying problems whose solutions are to be derived partly or wholly from facts. \_ W.S. Monroes ^Research is considered to be the more formal, systematic intensive process of carrying on the scientific method of analysis. It involves a
