Each year it is estimated that over 20 million taxpayers have a tax issue or

problem with the IRS. And the chances are, the path to resolving that tax problem is covered in the Tax Problems and Solutions Handbook. Working with the IRS can be complicated and frustrating - even for the most knowledgeable tax professional. The rules in resolving tax problems often appear unclear and they change often, leaving tax professionals and taxpayers with no line-of-sight to resolving their tax problems. The Handbook provides the most current practical know-how to convey that line-of-sight. The Handbook will provide direction on how to resolve the

most common IRS problems for individuals. The first section provides guidance on the most common post-filing actions: contacting and working with the IRS to obtain information and helping tax professionals practice effectively before the IRS. The remaining sections of the Handbook focus on each of the major tax problem categories: audits/underreported notices, collection issues, penalties, unfiled returns, and spousal issues. The issues in these categories constitute most of the problems for individual taxpayers. The book provides solutions to these

problems.

## Outlook Handbook

The salient features of the present edition are: All the Problems and Solutions have been thoroughly revised in the light of up-to-date amendments in Income tax Law and Rules for Assessment Year 2020-21. Almost all numerical questions given at the end of the chapters of the authors' other publications on Income-tax (viz., Income-tax Law and Accounts, Aaykar Vidhan evam Lekhe, Law and Practice of Income-tax) have been solved in this book and the number printed within brackets at the end of the

questions in other publications is the problem number of this book. The selection and sequence of the questions are well planned and systematic so as to cover all ticklish points within a reasonable number of questions.

Wherever needed, detailed explanatory notes have been given at the end of solutions.

Candidates preparing for C.A., Company Secretaries, Cost and Works Accountants, and Income-tax Departmental Examinations, will, particularly, find the book very useful. It will also be useful

for candidates preparing for B.Com. and M.Com.

Examinations of various Indian Universities.
