The Classic Texts Series is the only of its kind selection of classic pieces of work that started off as bestseller and continues to be the bestseller even today. These classic texts have been designed so as to work as elementary textbooks which play a

crucial role in building the concepts from scratch as in-depth knowledge of concepts is necessary for students preparing for various entrance exams. The present book on Higher Algebra presents all the elements of Higher Algebra in a single book meant to work as textbook for the students beginning their preparation of the varied aspects covered under Higher Algebra. The present book has been divided into 35 chapters namely Ratio, Proportion, Variation, Arithmetical Progression, Geometrical Progression, Harmonical Progression Theorems Connected with The Progression, Scales of Notation, Surds & Imaginary Quantities, The Theory of Quadratic Equations, Miscellaneous Equations, Permutations & Combinations, Mathematical Induction, Binomial Theorem Positive Integral Index, Binomial Theorem, Any Index, Multinomial Theorem, Logarithms, Exponential & Logarithmic Series, Interest & Annuities, Inequalities, Limiting Values & Vanishing Fractions, Convergency & Divergency of Series, Undetermined Coefficients, Partial Fractions, Recurring Series,

Continued Fractions, Recurring Series, Continued Fractions, Indeterminate Equations of the First Degree, Recurring Continued Fractions, Indeterminate Equations of the Second Degree, Summation of Series, Theory of Numbers, The General Theory of Continued Fractions, Probability, Determinants, Miscellaneous Theorems & Examples and Theory of Equations, each subdivided into number of topics. The first few chapters in the book have been devoted to a fuller discussion of Ratio, Proportions, Variation and the Progressions. Both the theoretical text as well as examples have been treated minutely which will help in better understanding of the concepts covered in the book. Theoretical explanation of the concepts in points has been provided at the beginning of each chapter. At the end of each chapter, unsolved practice exercises have been provided to help aspirants revise the concepts discussed in the chapter. At the end of chapterwise study, miscellaneous examples have also been given along with answers and solutions to the unsolved examples covered in each chapter. All the relevant theorems covered

under the syllabi of Higher Algebra have also been covered in the detail in this book. As the book covers the whole syllabi of Higher Algebra in detail along with ample number of solved examples, it for sure will help the students perfect the varied concepts covered under the Higher Algebra section.

Class X is strictly in accordance with the latest syllabus prescribed by the Council for the Indian School Certificate Examinations, New Delhi for Indian Certificate of Secondary Education (ICSE) examinations. While revising this book, the latest syllabus as well as the suggestions given by the students and learned teachers to the previous edition have been kept in mind. To the point and straight-forward approach, as applied in this book, allows pupils to find the subject quite interesting. Some distinctive features of this book are : • Strictly in accordance with the latest syllabus. • Rational, systematic and logical development of mathematical concepts. • All concepts and definitions have been discussed in detail and in a lucid manner. • The materials are class tested and the gradation has been done carefully. • The vocabulary and terminology used in the book is in accordance with the comprehension and maturity level of the students. • Subject matter is supplemented by suitable solved examples. • For each type of question set in exercises, there are a number of solved examples. • Multiple Choice Questions have been added for better understanding of the lesson. • Case Study Based Questions have been added to give a chance to the learners, apply the mathematical knowledge gained, to solve real life problems. • Past years' ICSE questions (up to 2022) have been incorporated topicwise and yearwise. • A well graded collection of questions with hints, wherever required, have been provided. It is sincerely hoped that

the present edition of the book would help the students to prepare adequately for the examinations. It is also hoped that as the earlier books, this book too will meet the needs and requirements of the teachers and students alike.

Suggestions for the improvement and notice of errors (if any) will be highly appreciated. -Author

The revised edition of the series Foundation Mathematics for Classes 6, 7 and 8 is based on the latest curriculum prepared and recommended by the Council for the Indian School Certificate Examinations, New Delhi. The present mathematics curriculum aims to develop a number of Mathematical Skills (like Numerical Calculation, Algebraic Manipulation, Spatial Visualisation, Data Analysis, Measurement, Estimation and Approximation) and Mathematical Processes (like Reasoning, Communication and Connections, Problem solving and Heuristics, Estimation, Technology etc.) among students at these levels. This series has been developed and designed keeping in mind the following objectives of the latest curriculum : Students should : • Enjoy learning of mathematics. • Learn important mathematics that is much more than few formulas and mechanical procedures of solving problems. • Pose and solve meaningful problems. • See mathematics as something to talk about, to communicate, to discuss among themselves, to work together on. • Understand the basic structure of mathematics :

Arithmetic, algebra, geometry and trigonometry, the basic content areas of school mathematics, all offer a methodology of abstraction, structuration and generalization. Goyal Brothers Prakashan
