What's the secret to sales success? If you're like most business leaders, you'd say it's fundamentally about relationships—and you'd be wrong. The best salespeople don't just build relationships with customers. They challenge them. The need to understand what top-performing reps are doing that their average performing colleagues are not drove Matthew Dixon, Brent Adamson, and their colleagues at Corporate Executive Board to investigate the skills, behaviors, knowledge, and attitudes that matter most for high performance. And what they discovered may be the biggest shock to conventional sales wisdom in decades. Based on an exhaustive study of thousands of sales reps across multiple industries and geographies, *The Challenger Sale* argues that classic relationship building is a losing approach, especially when it comes to selling complex, large-scale business-to-business solutions. The authors' study found that every sales rep in the world falls into one of five distinct profiles, and while all of these types of reps can deliver average sales performance, only one—the Challenger—delivers consistently high performance. Instead of bludgeoning customers with endless facts and features about their company and products, Challengers approach customers with unique insights about how they can save or make money. They tailor their sales message to the customer's specific needs and objectives. Rather than acquiescing to the customer's every demand or objection, they are assertive, pushing back when necessary and taking control of the sale. The things that make Challengers unique are replicable and teachable to the average sales rep. Once you understand how to identify the Challengers in your organization, you can model their approach and embed it throughout your sales force. The authors explain how almost any average-performing rep, once equipped with the right tools, can successfully reframe customers' expectations and deliver a distinctive purchase experience that drives higher levels of customer loyalty and, ultimately, greater growth.

The new way to transform a sales culture with clarity, authenticity, and emotional intelligence. Too often, the sales process is all about fear. Customers are afraid that they will be talked into making a mistake; salespeople dread being unable to close the deal and make their quotas. No one is happy. Mahan Khalsa and Randy Illig offer a better way. Salespeople, they argue, do best when they focus 100 percent on helping clients succeed. When customers are successful, both buyer and seller win. When they aren't, both lose. It's no longer sufficient to get clients to buy; a salesperson must also help the client reduce costs, increase revenues, and improve productivity, quality, and customer satisfaction. This book shares the unique FranklinCovey Sales Performance Group methodology that will help readers:

- Start new business from scratch in a way both salespeople and clients can feel good about
- Ask hard questions in a soft way
- Close the deal by opening minds

What do the world's most successful enterprise sales teams have in common? They rely on MEDDICC to make their sales process predictable and efficient. MEDDICC with one C was initially created by Dick Dunkel in 1996 when he was at PTC. Since then MEDDICC has evolved to be better known as MEDDICC or MEDDIPCC and has proliferated across the world being the go-to choice for elite enterprise sales organizations. If you ever find yourself feeling any of the following symptoms with your deal, you could benefit from MEDDICC: Your buyer doesn't see the value of your solution? (aka they think you are expensive) You are unable to find, articulate and quantify Pain You don't have a Champion or at the very least a Coach helping you navigate and sell You find yourself unable to gain access to people with power and influence You don't know how the customer makes decisions You don't know who is involved in the decision-making process You find yourself surprised by things that come up in the sales process The decision criteria seem to move throughout the process, and you're constantly playing catch up Your Competition is landing strikes against you that you neither see coming nor are able to defend You lose track of where you stand in your deals Whether you are an individual contributor or a sales leader embracing MEDDICC will help you to beat those symptoms and take back control of your deal. Historically, learning MEDDICC has relied upon hands-on training, but now you can learn MEDDICC from an expert who uses it every day. The Book deconstructs MEDDICC into easy to understand and implement steps. Breaking down every letter of the acronym into actionable insights complemented by commentary on how MEDDICC can help sales organizations to revolutionize their sales execution and efficiency. In the words of the original creator of MEDDICC, Dick Dunkel: Whether you are an individual contributor or sales leader, my advice is that you should start to implement MEDDICC into what you do straight away. Embrace MEDDICC, and you and your team will more clearly understand the WHY to your process, and you'll begin to execute your customer interactions with more purpose and achieve better results. And like so many others before, you will begin to reap the rewards of having a well-qualified pipeline of opportunities with clearer paths to success. - Dick Dunkel, MEDDICC Creator.

Four years ago, the bestselling authors of *The Challenger Sale* overturned decades of conventional wisdom with a bold new approach to sales. Now their latest research reveals something even more surprising: Being a Challenger seller isn't enough. Your success or failure also depends on who you challenge. Picture your ideal customer: friendly, eager to meet, ready to coach you through the sale and champion your products and services across the organization. It turns out that's the last person you need. Most marketing and sales teams go after low-hanging fruit: buyers who are eager and have clearly articulated needs. That's simply human nature; it's much easier to build a relationship with someone who always makes time for you, engages with your content, and listens

attentively. But according to brand-new CEB research—based on data from thousands of B2B marketers, sellers, and buyers around the world—the highest-performing teams focus their time on potential customers who are far more skeptical, far less interested in meeting, and ultimately agnostic as to who wins the deal. How could this be? The authors of *The Challenger Customer* reveal that high-performing B2B teams grasp something that their average-performing peers don't: Now that big, complex deals increasingly require consensus among a wide range of players across the organization, the limiting factor is rarely the salesperson's inability to get an individual stakeholder to agree to a solution. More often it's that the stakeholders inside the company can't even agree with one another about what the problem is. It turns out only a very specific type of customer stakeholder has the credibility, persuasive skill, and will to effectively challenge his or her colleagues to pursue anything more ambitious than the status quo. These customers get deals to the finish line far more often than friendlier stakeholders who seem so receptive at first. In other words, Challenger sellers do best when they target Challenger customers. *The Challenger Customer* unveils research-based tools that will help you distinguish the "Talkers" from the "Mobilizers" in any organization. It also provides a blueprint for finding them, engaging them with disruptive insight, and equipping them to effectively challenge their own organization.

World-renowned economist Klaus Schwab, Founder and Executive Chairman of the World Economic Forum, explains that we have an opportunity to shape the fourth industrial revolution, which will fundamentally alter how we live and work. Schwab argues that this revolution is different in scale, scope and complexity from any that have come before. Characterized by a range of new technologies that are fusing the physical, digital and biological worlds, the developments are affecting all disciplines, economies, industries and governments, and even challenging ideas about what it means to be human. Artificial intelligence is already all around us, from supercomputers, drones and virtual assistants to 3D printing, DNA sequencing, smart thermostats, wearable sensors and microchips smaller than a grain of sand. But this is just the beginning: nanomaterials 200 times stronger than steel and a million times thinner than a strand of hair and the first transplant of a 3D printed liver are already in development. Imagine "smart factories" in which global systems of manufacturing are coordinated virtually, or implantable mobile phones made of biosynthetic materials. The fourth industrial revolution, says Schwab, is more significant, and its ramifications more profound, than in any prior period of human history. He outlines the key technologies driving this revolution and discusses the major impacts expected on government, business, civil society and individuals. Schwab also offers bold ideas on how to harness these changes and shape a better future—one in which technology empowers people rather than replaces them; progress serves society rather than disrupts it; and in which innovators respect moral and ethical boundaries rather than cross them. We all have the opportunity to contribute to developing new frameworks that advance progress.

How to Compete with the Industry Giants McGraw Hill Professional

In today's technology-saturated world, information is cheap. The Internet has changed everything for prospects--not to mention for the salespeople who hope to win their business. Prospects no longer need that big sales pitch touting all the features and benefits of a product. What's more, they have come to resent old-school selling techniques. As Marc explains in *Game Plan Selling*, winning the business of well-informed prospects is very similar to winning in sports. Consistent success--both in sales and on the field--requires a distinct strategy, a repeatable process and a clear plan to execute with commitment and passion. In this highly practical book, you will learn how to: *Separate yourself from the competition; *Use a simple system to close sales more quickly and with greater frequency; and *Create a personal selling plan to virtually guarantee success.

In this age of rapidly-advancing technology, sales professionals need a reliable method for selling products and services that are perceived as sophisticated or complex. This book offers techniques for overcoming the customer's resistance, showing how to generate prospects and new business with a unique value-perception approach, create a set of tools that enable sales managers to manage pipeline, assign prospecting activity, control the cost of sales, and more.

The Solution-Centric Organization Portfolio

In a modern recurring revenue business it is impossible to scale without treating sales as a science. In this first book of the *Sales Blueprints* series, Jacco Van Der Kooij and Fernando Pizarro break down the science of sales into its basic elements. Unlike any book before it, *The SaaS Sales Method* exposes the math the underpins each stage in revenue production, from marketing, to sales, to customer success, and infers how revenue leaders should structure their processes, organizations, and training in each. By linking all three functions, *The SaaS Sales Method* provides a framework for the modern revenue leader to understand and improve their entire system, shifting from what the authors call a superstar culture to a science culture in the process. While subsequent books in the series go into depth on the specifics of each revenue function and the skills needed to succeed in each, *The SaaS Sales Method* is the glue that holds the entire approach together.

An updated and revised version of the business classic *Power Base Selling* *Power Base Selling*, originally published in 1990, left readers with an understanding of and language for gaining political advantage within accounts. Now famous among sellers, the concept of aligning with powerful customer individuals or "Foxes" is taken to a new level. *The New Power Base Selling* offers an updated and more in-depth edition of the original classic with an empirically based breakthrough to significantly increasing sales performance. It explains how competitive selling is as much a matter of politics, customer value, and strategy as it is a management science. Based on data from one of the most comprehensive sales surveys in the sales training industry, along with over 50,000 deal reviews, *The New Power Base Selling* will help salespeople quickly outfox the competition, impress customers with unexpected value, and achieve new levels of professional success. Create Demand, as well as competitively Service Demand Quickly leverage "Situational Power Bases" to drive up win rates Provide customers with value that advances their critical business initiatives Effectively use LinkedIn, Facebook, Twitter, and other social tools in a sales campaign Increase customer satisfaction and competitive differentiation See measurable gains and exceed quota when you leverage customer politics, value, and competitive strategy.

Ask a Manager Grand Central Publishing

From the creator of the popular website *Ask a Manager* and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called “the Dear Abby of the work world.” Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she

tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit “reply all” • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for *Ask a Manager* “A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work.”—Booklist (starred review) “The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience.”—Library Journal (starred review) “I am a huge fan of Alison Green's *Ask a Manager* column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor.”—Robert Sutton, Stanford professor and author of *The No Asshole Rule* and *The Asshole Survival Guide* “*Ask a Manager* is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way.”—Erin Lowry, author of *Broke Millennial: Stop Scraping By and Get Your Financial Life Together*

CustomerCentric Selling John Wiley and Sons

FROM THE BESTSELLING AUTHOR OF *SOLUTION SELLING* The program that is revolutionizing highend selling, by showing companies how to "clone" their top sales performers CEOs would pay anything to replicate their best salespeople; *CustomerCentric Selling*™ explains instead how to replicate their skills. It details a repeatable, scalable, and transferable sales process that formats the questions that superior salespeople ask, and then uses the results to influence and enhance the words and behaviors of their colleagues. *CustomerCentric Selling*™ shows salespersons how to differentiate themselves and their offerings by appealing to customer needs, steering away from making one-way presentations and toward having meaningful and goal-oriented conversations. Currently offered in workshops and seminars around the world, its program provides step-by-step directions to help sales professionals: Transform sales calls into interactive conversations Position their offerings in relation to buyer needs Facilitate a more consistent customer experience Achieve shorter sales cycles Integrate sales and marketing into a cooperative, cross-functional team *CustomerCentric Selling*™ details a trademarked sales process that incorporates dozens of elements, skills, and sequences into a coherent and proven methodology. By teaching a specific yet innovative model for selling big ticket, often-intangible products and services, it shows sales professionals and executives how to make the seller-buyer relationship far less adversarial, and take selling to a higher level.

The Fourth Industrial Revolution John Wiley & Sons

People don't buy from people they like. No! Your buyer doesn't care about you or your product or service. It's not your job to overcome objections, it's your buyer's. Closing isn't a skill of good salespeople; it's the skill of weak salespeople. Price isn't the main reason salespeople lose the sale. *Gap Selling* shreds traditional and closely held sales beliefs that have been hurting salespeople for decades. For years, salespeople have embraced a myriad of sales tactics and belief systems that have unknowingly created many of the issues they have been trying to avoid such as: long sales cycles, price objections, no decision, prospects going dark, last minute feature requests, and more. Success at sales requires more than a set of tactics. Salespeople need to understand the game of sales, how sales works, and what the buyer is going through in order to make the decision to buy (change) or not to buy (not change). *Gap Selling* is a game-changing book designed to raise the sales IQ of selling organizations around the world. In his unapologetic and irreverent style, Keenan breaks down the tired old sales myths causing today's frustrating sales issues, to highlight a deceptively powerful new way to connect with buyers. Today's sales world is littered with glorified order takers, beholden to a frustrated buyer, unable to influence the sale and create value. *Gap Selling* flips the script and creates salespeople with immense influence at every stage of the buying process, capable of impacting the sales metrics that matter: Shorter Sales Cycles Increased Revenue Elevated Deal Values Higher Win Rates Fewer No Decisions More Leads And Happier Buyers *Gap Selling* elevates the sales world's selling IQ and turns sales order takers into sales influencers.

SNAP Selling Taylor & Francis

"If we don't drop our price, we will lose the deal." That's the desperate cry from salespeople as they try to win deals in competitive marketplaces. While the easy answer is to lower the price, the company sacrifices margin--oftentimes unnecessarily. To win deals at the prices you want, the strategy needed is differentiation. Most executives think marketing is the sole source of differentiation. But what about the sales function of the company? This commonly neglected differentiation opportunity provides a multitude of ways to stand out from the competition. This groundbreaking book teaches you how to develop those strategies. In *Sales Differentiation*, sales management strategist, Lee B. Salz presents nineteen easy-to-implement concepts to help salespeople win deals while protecting margins. These concepts apply to any salesperson in any industry and are based on the foundation that "how you sell, not just what you sell, differentiates you." The strategies are presented in easy-to-understand stories and can quickly be put into practice. Divided into two sections, the "what you sell" chapters help salespeople: Recognize that the expression "we are the best" causes differentiation to backfire. Avoid the introspective question that frustrates salespeople and ask the right question to fire them up. Understand what their true differentiators are and how to effectively position them with buyers. Find differentiators in every nook and cranny of the company using the six components of the "Sales Differentiation Universe." Create strategies to position differentiators so buyers see value in them. The "how you sell" section teaches salespeople how to provide meaningful value to buyers and differentiate themselves in every stage of the sales process. This section helps salespeople: Develop strategies to engage buyers and turn buyer objections into sales differentiation opportunities. Shape buyer decision criteria around differentiators. Turn a commoditized Request for Proposal (RFP) process into a differentiation opportunity. Use a buyer request for references as a way to stand out from the competition. Leverage the irrefutable, most powerful differentiator...themselves. Whether you've been selling for twenty years or are new to sales, the tools you learn in *Sales Differentiation* will help you knock-out the competition, build profitable new relationships, and win deals at the prices you want.
