Solutions Business Analysis And

Valuation

Solution evaluation in business analysis is the assessment of existing, or potential solutions before or after a business goes into operation. Business analysis includes a comprehensive conception of the term “solutions” – it also contains both IT and non-IT components as well as systems, processes, rules, and organizational structures.

Solutions to Valuation Questions. Solutions to Valuation Questions 1. Assume you expect a company ' s net income to remain stable at \$1,100 for all future years, and you expect all earnings to be distributed to stockholders at the end of each year, so that common equity also remains stable for all future years (assumes clean surplus). Also, assume the company ' s $r = 1.5$, the market risk premium is

4% and the 20-30 year yield on risk free treasury bonds is 5%.
