Fundamental Managerial Accounting Concepts 7e

Loose-Leaf Fundamental Financial Accounting Concepts with Connect McGraw-Hill/Irwin

"Fundamental Managerial Accounting Concepts" 4e by Edmonds/Edmonds/Tsay/Olds focuses on concepts that are isolated and introduced in a logical sequence. The authors intentionally limit the scope of the material to help students build a solid foundation

of the most important concepts in managerial accounting. "Fundamental Managerial Accounting Concepts" 4e is organized in a distinctive way, particularly in the first six chapters. The objective is to establish a coherent, integrative framework that enables students to build knowledge in stepwise fashion. The authors' goal is for students to understand the underlying principles of accounting, not just memorize content.

Financial Management of Health Care Organizations McGraw-Hill/Irwin

If you read the 'business pages' of a newspaper or if you listen to the financial news on the television or radio, you will often hear terms such as 'liability', 'balance sheet' or 'earnings'. These terms turn up in

non-financial contexts as well: 'he was more of a liability than an asset'. If you invest in shares, have a building society account, or sit on a committee of the property company which owns your apartment block, you will receive financial statements every year. If you are a manager in a company, a hospital or a school, you will see accounting information often. This Very Short Introduction provides a guide to understanding and using accounting information. Christopher Nobes explains the main areas of accounting work, from bookkeeping and financial reporting to auditing and management accounting. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable. *Loose Leaf for Fundamental Managerial Accounting Concepts* S. Loose-Leaf Fundamental Financial Accounting Concepts McGraw-Hill LLC

Students are often overwhelmed by the amount of information presented in the introductory financial accounting course, while

instructors often want their students to better grasp "the big picture." Fundamentals of Financial Accounting Concepts delivers a unique approach to building accounting skills while maintaining a more traditional use of debits and credits. Through this method, the authors drive students' curiosity and inspire them to ask the "why" questions that get at the heart of how Accounting works. By teaching foundational accounting concepts in a logical sequence, the Edmonds author team shifts the focus from memorizing procedures to the development of real-world thinking patterns. Author Chris Edmonds has also created a highly popular and widely used series of video lectures, which engage students by clearly and charismatically going over each learning objective in a conversational style. These videos help reinforce important lessons and are always available for review. Through use of the financial statements model and transactional analysis, students quickly see how any given business event affects the financial statements. By having this "big picture" mentality, students can tie any single transaction back to the impact on the overall business. Between the straightforward writing, popular video lectures, and unique coverage approach, Fundamentals of Financial Accounting Concepts enables students to fully comprehend the material presented as future decision-makers.

COLLEGE ACCOUNTING McGraw-Hill/Irwin

Financial Accounting provides a comprehensive coverage to

course requirements of students appearing in the paper Financial Accounting at BCom, BCom (Hons) examinations of different Indian universities and Foundation Examination (NS) of the Institute of Company Secretaries of India. The book is divided into four sections: Section I explains the fundamental principles necessary for understanding the subject. It covers the entire accounting cycle—from recording of financial transactions to the preparation of final accounts. Section II deals with accounting problems related to certain specific types of business transactions. Section III deals with partnership accounts. Section IV provides suggested answers to recent examinations' questions.
