Making, Managing and Mending Deals Around the World in the Twenty-First Century Brooks/Cole Publishing Company

This edited collection explores the processes of second language learning and teaching from a psycholinguistic perspective. Authored by leading experts in the field, the book includes studies focusing on theoretical, empirical and practical aspects of second and foreign language education. Part One offers contributions devoted to a range of learner-related factors, dealing with affective and cognitive variables, the process of reading and the acquisition of lexis. Part Two brings together papers related to teacher awareness of second language instruction that focus on conversational styles, fostering intercultural pragmatics, teacher job satisfaction, the development of instructional materials and challenges of teacher training in different contexts. It is of interest to researchers as well as graduate and postgraduate students seeking fresh inspirations for their own empirical investigations of the ways in which second and foreign languages are taught and learned.

A Guide to What Works Macmillan

This book demonstrates how rethinking and adapting basic employment services into labor intermediation services can help address the many labor market disconnections of developing country economies. It addresses how scarce resources required to escape poverty – good jobs, schools, and training - more often go to the privileged and well-connected than to those who need them most. With jobs now at the top of development debates, this is a rare book on how to practically adapt one key labor market policy to very different developing and emerging country markets. It shows through examples how developing countries can build in stages from basic employment services to diverse labor intermediation services – opening up job listings, stimulating public-private partnerships, and making job connections for those who don't have a "cousin Vinny who knows a guy".

This book is for policy practitioners, development organizations, and academics who are ready to think differently about one of the policies that needs to change so that developing economies can better meet the employment and higher skill challenges of the global age.

This book addresses the enormous global challenge of providing balanced and sustainable solutions to urgent water problems. The author explores our dependence on access to safe water and other water-related services and how driving forces of the human and natural worlds are degrading this access. The greatest challenges involve conflicts between people and interest groups across all countries, as well as the economic and political difficulties in finding solutions through infrastructure development. The book takes an interdisciplinary approach to Integrated Water Resources Management or IWRM, which provides a set of tools for policy development, planning and organization, assessment, systems analysis, finance, and regulation. The author suggests that IWRM is challenging because of the human element, but that no other process can reconcile the conflicting agendas involved with water management. The broad range of topics covered here, as well as 25 case summaries, will be of interest to scientists, engineers, practitioners, and advanced level students interested in the integrated management of water as a resource.

Writing in English: A Guide for Advanced Learners Springer

This book is a practical guide to global anti-tax evasion frameworks. Coverage includes base erosion and profit shifting (BEPS), the Common Reporting Standard (CRS), and the Automatic Exchange of Information (AEOI). It covers the practical operational issues these frameworks present and offers insight into practical compliance options and operational methodologies to reduce costs and risks. The book concludes with insights into how institutions can translate these complex obligations into effective client communications.

This textbook introduces current thinking on English as a global language and explores its role in intercultural and transcultural communication. It covers how English functions as a lingua franca in multilingual scenarios alongside other languages in a wide variety of global settings, and the fluid and dynamic links between English, other languages, and cultural identities and references. The implications for English language teaching (ELT), academia, business, and digital communication are explored. Contemporary research and theory are presented in an accessible manner, illustrated with examples from current research, and supported with discussions and tasks to enable students to relate these ideas to their own experiences, needs, and interests. Each chapter contains

activities to help students orientate towards the topic, reflect on personal experiences and opinions, and check their understanding. Additionally, a detailed glossary of key terminology in Global Englishes and Intercultural Communication is provided. Exploring in depth the links between Global Englishes, Intercultural Communication research, and Transcultural Communication research, this is key reading for all advanced students and researchers in Global or World Englishes, English as a Lingua Franca (ELF), and Intercultural Communication.

Introduction to Advanced Nursing Practice Macmillan Elt

Mobile financial services (MFS) are of major interest and importance to both researchers and practitioners. The role played by nonbanking actors including telecoms and FinTech firms as well as other participants, such as PayPal and Amazon, in developing and deploying innovative financial and payment services is undeniable. Peer2peer (P2P) payments from nonbank services are becoming increasingly commonplace and will shortly be codified by EC (EU?) regulations requiring banks to provide access to consumer data for third-party app developers and service providers. Three major mobile financial systems—mobile banking, mobile payments, and branchless banking—currently dominate the electronic retail banking sector. Although interconnected and interrelated, their business models, regulatory frameworks, and target markets are distinct. This book provides a unified perspective on MFS and discusses its evolution, growth, and future, as well as identifying the frameworks, stakeholders, and technologies used in financial information systems in general and MFS in particular. Academics and researchers in digital and financial marketing will find this book an invaluable resource, as will bank executives, regulators, policy makers, FinTech professionals, and anyone interested in how mobile technology, social media and financial services will increasingly intersect.

Is English a second or foreign language for you? Do you need to improve your English language skills for your current studies or work? Or do you wish to develop your knowledge of English in order to enhance your future academic or career opportunities? Perhaps you are keen to work on your English independently but are not sure how best to do this. Or maybe you lead a busy life, and therefore need to ensure that you target your learning time and efforts carefully and effectively. This booklet, written by an experienced teacher of English as a second language, has been produced to help you. It will show you how by following some easy to understand principles and implementing a small number of practices and habits you will be able to see sustained improvement in your English skills. It will show you how your vision to become a more competent and confident user of English can become a reality. This booklet is suitable for all readers with a current level of English of Intermediate or above. Written with readers who want or need to work on their English independently especially in mind, it will also be useful to those who are attending English classes. Another intended use of this booklet is as a training tool for people who are not English language specialists but work with students or employees who want or need to develop their English Language skills. Thus, it would be of interest to a wide range of personnel who work in a multilingual context where English is used as a link language or language of instruction. This would include, for example: lecturers, tutors, in-company trainers and their managers. Topics covered include: § What there is to learn § How to make principles of language learning and memory work for you § How to achieve balance in your learning § How to exploit texts most effectively § How to handle vocabulary, phrases and grammar § How to use word frequency information to help you prioritise § How to use web-based tools to enhance your learning § How to set motivating and realistic plans and goals § What habits to develop in order to make sustained progress toward your goals If you are serious about developing your English skills for study or work purposes, or helping other people to do so,

buying and using this book would be a good investment of your time and money. Damian Johnstone has a background in ESOL teaching in the UK. He now works primarily in training and teacher education, with a particular focus on language awareness for teachers and the learning of English as a second language.
