Auditing Theory and Practice incorporates the standards set by Australia's AUASB (Auditing and Assurance Standards Board) and New Zealand's NZAuASB (New Zealand Auditing and Assurance Standards Board). Parts 1-4 of the reader-friendly text illustrate the four major phases of the audit. Part 5 allows instructors to pick and mix content to match both shorter and longer courses, with dedicated chapters on fraud and sustainability audits, public-sector and non-profit-sector audits and internal audit, for both AUASB and NZAuASB. By linking theory - through historical context and examples - to practice, students learn why a particular practice is important, giving examples of audit failures, and then how to apply it. This approach enhances understanding of the application of professional scepticism in auditing and prepares learners for real-world auditing.

Now in its eleventh edition, Contemporary Accounting: A Strategic Approach for Users provides an excellent overview of the accounting function in business for non-accounting majors, and the approach taken to financial accounting provides a solid foundation on which accounting majors can better understand the bookkeeping function. The objective is to convey an understanding of accounting, both financial accounting and management accounting, without introducing unnecessary technical terminology and procedures. Building on basic concepts, it provides a clear understanding of financial statements, their uses, and limitations. In this edition, the authors have worked to add content that expands coverage of ethics, sustainability, and corporate governance. Financial accounting chapters bridge the gap between assumed and actual knowledge, and the pedagogical features make the text friendlier to first-year learners.
