Publications

Thoroughly updated throughout, *A First Course in Linear Model Theory, Second Edition* is an intermediate-level statistics text that fills an important gap by presenting the theory of linear statistical models at a level appropriate for senior undergraduate or first-year graduate students. With an innovative approach, the authors introduce to students the mathematical and statistical concepts and

tools that form a foundation for studying the theory and applications of both univariate and multivariate linear models. In addition to adding R functionality, this second edition features three new chapters and several sections on new topics that are extremely relevant to the current research in statistical methodology. Revised or expanded topics include linear fixed, random and mixed effects models,

generalized linear models, Bayesian and hierarchical linear models, model selection, multiple comparisons, and regularized and robust regression. New to the Second Edition: Coverage of inference for linear models has been expanded into two chapters. Expanded coverage of multiple comparisons, random and mixed effects models, model selection, and missing data. A new chapter on generalized linear models (Chapter

12). A new section on multivariate linear models in Chapter 13, and expanded coverage of the Bayesian linear models and longitudinal models. A new section on regularized regression in Chapter 14. Detailed data illustrations using R. The authors' fresh approach, methodical presentation, wealth of examples, use of R, and introduction to topics beyond the classical theory set this book apart from other texts on linear models. It forms a refreshing and

invaluable first step in students' study of advanced linear models, generalized linear models, nonlinear models, and dynamic models.

Sales Book PHI Learning Pvt. Ltd.
The book has been designed topic and subtopic-wise, keeping the students' needs in mind. The current edition has certain unique features: Each chapter starts with a To Do list. It gives the central idea of the chapter and the way it has been

addressed. Each chapter is divided into several sections corresponding to different components of the syllabus. Each chapter is splashed with HOTS. This is to promote clarity of the basics. Focus Zones in each chapter present a crux of the concepts. Blocks in each chapter include matter of special significance. Power Points and Revision Window offer a quick glance of the subject matter. 'Exercise' is tuned to the pattern of examination. Answers to

important questions or reference to the material for the focus on the technique text for answers) NCERT outstanding learners. of writing. The questions (with hints Solved & Unsolved exercise includes: to answers) numericals are given to objective type miscellaneous and add- boost a grip on the questions (remembering on questions (with subject. & understanding based hints or reference to **Concepts Of Physics SBPD** questions), divided the text for answers) Publications into five sections: (a) Dos and Don'ts (at the Understanding ISC Mathematics, multiple choice end of each chapter) for class 11 - sections A, B & C, questions, (b) fill in should serve as a has been written by Mr. M.L. the blanks, (c) true or safeguard against Aggarwal (Former Head of P.G. false, (d) matching the misinterpretation of Department of Mathematics, correct statements, (e) the concepts. The book has been designed topic and subtopic-wise, keeping the students' needs in mind. The current edition has certain unique features:
This book is strictly as per the latest CBSE syllabus and covers complete matter as per the NCERT book. After every

topic, objective type questions and case studies are given based on the latest CBSE Sample Paper (2020). (Hints of their answers are given at the end of each chapter.) At the end of each chapter, 40 objective type questions (20 MCQs + 10 Fill in the blanks + 10 True/False) are given along with answers at the end. Keywords of each topic are given at the end of each topic, to help students to solve case studies. A flow chart of each chapter is given at the end to recap the topics covered in that chapter. Quick revision is given to revise all the topics in short time. At the end of

each chapter, questions asked in last 7 years' board exam are given, so that the student may get an idea of what types of questions are expected from this chapter. (Hints of answers of these questions are also given). Case Studies are framed by using words strictly from the NCERT. A solved sample paper of CBSE 2020 is also given. Guidelines for project are also given. A sample project on Marketing Management is also given. The Subject Matter is presented in simple language, in points, and along with diagrams, so that the student may find it easy to understand.

Based, Understanding-Based, Analyzing , Evaluating and Creating-Based questions.
OBJECTIVES TYPE QUESTIONS / MCQs are available. TWO SAMPLE PROJECTS are available which are very practical and presented in a very interesting manner. LIVE PRESENTATION of one of the projects namely “ STUDENTS ’ DUMMY BANK ” is available at – <http://youtu.be/FnToqUaiZLY>. Sufficient number of CASE STUDIES are available. Also find Practice Papers at the end of the book.

NCERT Solutions Physics 12th
John Wiley & Sons
These classic Bible Study Courses by Rev. Kenneth E. Hagin have been reedited to include chapter review questions to further enhance your study of God's Word. These teachings on the vital subjects of faith, prayer, the Holy Spirit and His gifts, and healing will show you how to live a life of victory and abundance! Learning how to pray effectively is one of the most important things a believer can ever do in his Christian walk. A believer cannot be successful in fulfilling God's purpose in his life if he does not know how to pray according to biblical principles. A believer's prayer life should be based and

built on the Word of God. This Bible Prayer Study Course discusses many principles of prayer that are found in the Word of God. As you apply these principles in your life, you can be sure of an answer every time! Chapter titles include: -- Seven Steps to Answered Prayer -- Praying in Jesus' Name -- Praying for Results -- The Prayer of Faith -- Praying With Tongues -- What Jesus Said About Prayer -- The Will of God in Prayer
