Example 1 Given the function $f(x) = x^2$, identify the key features of the graph: the extremum, vertex, and y-intercept. Then sketch the graph.

Leveled Practice: Grade 5

I intend for this Warm Up to take the students about 10 minutes to complete and for me to review with the class. The purpose of this Warm Up is to use students' prior knowledge from the previous lesson on perfect squares to introduce a review on applying the Pythagorean Theorem. My students have been introduced to the Pythagorean Theorem in previous grades, so my focus for this lesson is to dig ...

Beaty, Shawn / Algebra 2 - McLean County Unit District No. 5

These materials enable personalized practice alongside the new Illustrative Mathematics 8th grade curriculum. They were created by Khan Academy math experts and reviewed for curriculum alignment by experts at both Illustrative Mathematics and Khan Academy.

Lesson 5.1 Unit 5 Homework Key - mms8thgrademath.weebly.com

In this lesson we explore the nature of systems of equations and their solutions and what happens to these solutions when the equations are manipulated using the properties of equality. This ...

8th grade (Illustrative Mathematics) | Math | Khan Academy

Students apply concepts learned about solving systems of equations and apply them to create, interpret and solve systems of inequalities! Plan your 60-minute lesson in Math or Algebra with helpful tips from Jason Colombino
