This book looks in depth at the emerging issue of cyber-bullying. In this increasingly digital world cyber-bullying has emerged as an electronic form of bullying that is difficult to monitor or supervise because it often occurs outside the physical school setting and outside school hours on home computers and personal phones. These web-based and mobile technologies are providing young people with what has been described as: ‘ an arsenal of weapons for social cruelty ’ . These emerging issues have created an urgent need for a practical book grounded in comprehensive scholarship that addresses the policy-vacuum and provides practical educational responses to cyber-bullying. Written by one of the few experts on the topic Cyber-Bullying develops guidelines for teachers, head teachers and administrators regarding the extent of their obligations to prevent and reduce cyber-bullying. The book also highlights ways in which schools can network with parents, police, technology providers and community organizations to provide support systems for victims (and perpetrators) of cyber-bullying.

The untold story of the root cause of America's education crisis--and the seemingly endless cycle of multigenerational poverty. It was only after years within the education reform movement that Natalie Wexler stumbled across a hidden explanation for our country's frustrating lack of progress when it comes to providing every child with a quality education. The problem wasn't

one of the usual scapegoats: lazy teachers, shoddy facilities, lack of accountability. It was something no one was talking about: the elementary school curriculum's intense focus on decontextualized reading comprehension "skills" at the expense of actual knowledge. In the tradition of Dale Russakoff's *The Prize* and Dana Goldstein's *The Teacher Wars*, Wexler brings together history, research, and compelling characters to pull back the curtain on this fundamental flaw in our education system--one that fellow reformers, journalists, and policymakers have long overlooked, and of which the general public, including many parents, remains unaware. But *The Knowledge Gap* isn't just a story of what schools have gotten so wrong--it also follows innovative educators who are in the process of shedding their deeply ingrained habits, and describes the rewards that have come along: students who are not only excited to learn but are also acquiring the knowledge and vocabulary that will enable them to succeed. If we truly want to fix our education system and unlock the potential of our neediest children, we have no choice but to pay attention.

*The Knowledge Gap* Untreed Reads

The only book with a program that is proven to solve the problem of female bullying, a controversial issue first exposed in the bestselling *Reviving Ophelia*. Stop the Hurting Mary Pipher's bestselling *Reviving Ophelia* triggered widespread interest in the culture of preteen and teenage girls and the seeming epidemic of relational aggression (bullying) among them. Gossip, teasing, forming cliques, and other cruel behaviors are the basis of this bullying, which harms both victim and aggressor. Until now, no one has been able to offer practical and effective solutions that stop girls from hurting each other with words and actions. But in *Girl Wars*, two experts explain not only how to prevent such behavior but also how to intervene should it happen, as well as overcome the culture that breeds it. Illustrated by compelling true stories from mothers and girls, the authors offer effective, easy-to-implement strategies that range from preventive to prescriptive, such as how to -Adopt a "help, don't hurt" strategy -Provide positive role models -Teach communication skills online and off -Stress assertiveness,

not aggressiveness -Learn conflict resolution skills -Identify alternatives to bullying behavior With their combined experience in offering and evaluating programs that combat bullying, the authors show that girls not only want to help rather than hurt each other, they can do so with guidance from concerned adults.
