Bullying Prevention and Intervention at School Corwin Press  
Headlines are filled with tragic stories of senseless murders and suicides that have resulted from child and teen bullying. As social networking and technology add to the ways that kids can be bullied, parents feel powerless against this insidious force that compels even "good" kids to participate in or enable bullying in schools, in extracurricular activities, online, and at home. The Essential Guide to Bullying Prevention and Intervention brings together the wisdom and experience of two people who have witnessed bullying's causes and tragic effects. School social worker Cindy Miller teams with Cynthia Lowen, the co-creator of Bully, to arm parents and teachers with the knowledge they need to: • Understand the societal and human forces that are causing bullying to escalate. • Discover who is most at risk for being

bullied, being a bully, or not helping a bullying victim. • Target-proof their kids and teach them coping skills. • Identify even the most covert bullying situations. • Infiltrate the world of cyberbullying and head off its disastrous effects. • Intervene to stop a bullying situation. • Know what legal recourse they have to back up other anti-bullying efforts.

*Big Red and the Little Bitty Wolf* B.E.S. Publishing

This book looks in depth at the emerging issue of cyber-bullying. In this increasingly digital world cyber-bullying has emerged as an electronic form of bullying that is difficult to monitor or supervise because it often occurs outside the physical school setting and outside school hours on home computers and personal phones. These web-based and mobile technologies are providing young people with what has been described as: 'an arsenal of weapons for social cruelty'. These emerging issues have created an urgent need for a practical book grounded in comprehensive scholarship that addresses the policy-vacuum and provides practical educational responses to cyber-bullying. Written by one of the few experts on the topic Cyber-Bullying develops guidelines for teachers, head teachers and administrators regarding the extent of their obligations to prevent and reduce cyber-bullying. The book also highlights ways in which schools can network with parents, police, technology providers and community organizations to provide support systems for victims (and perpetrators) of cyber-bullying.

The only book with a program that is proven to solve the problem of female bullying, a controversial issue first exposed in the bestselling *Reviving Ophelia*. Stop the Hurting Mary Pipher's bestselling *Reviving Ophelia* triggered widespread interest in the culture of preteen and teenage girls and the seeming epidemic of relational aggression (bullying) among them. Gossip, teasing, forming cliques, and other cruel behaviors are the basis of this bullying, which harms both victim and aggressor. Until now, no one has been able to offer practical and effective solutions that stop girls from hurting each other with words and actions. But in *Girl Wars*, two experts explain not only how to prevent such behavior but also how to intervene should it happen, as well as overcome the culture that breeds it. Illustrated by compelling true stories from mothers and girls, the authors offer effective, easy-to-implement strategies that range from preventive to prescriptive, such as how to -Adopt a "help, don't hurt" strategy -Provide positive role models -Teach communication skills

online and off -Stress assertiveness, not aggressiveness -Learn conflict resolution skills -Identify alternatives to bullying behavior With their combined experience in offering and evaluating programs that combat bullying, the authors show that girls not only want to help rather than hurt each other, they can do so with guidance from concerned adults.
