Discount on Notes on the same side of the Cash Book; (c) Columns for Discount on Sales and Cash Sales on the debit side of the Cash Book; (d) Departmental columns in the Sales Book and in the Purchase Book. Controlling Accounts.--The addition of special columns in books of original entry makes possible the keeping of Controlling Accounts. The most common examples of such accounts are Accounts Receivable account and Accounts Payable account. These summary accounts, respectively, displace individual customers' and creditors' accounts in the Ledger. The customers' accounts are then segregated in another book called the Sales Ledger or Customers' Ledger, while the creditors' accounts are kept in the Purchase or Creditors' Ledger. The original Ledger, now much reduced in size, is called the General Ledger. The Trial Balance now refers to the accounts in the General Ledger. It is evident that the task of taking a Trial Balance is greatly simplified because so many fewer accounts are involved. A Schedule of Accounts Receivable is then prepared, consisting of the balances found in the Sales Ledger, and its total must agree with the balance of the Accounts Receivable account shown in the Trial Balance. A similar Schedule of Accounts Payable, made up of all the balances in the Purchase Ledger, is prepared, and it must agree with the balance of the Accounts Payable account of the General Ledger." The Balance Sheet.--In the more elementary part of the text, the student learned how to prepare a Statement of Assets and Liabilities for the purpose of disclosing the net capital of an enterprise. In the present chapter he was shown how to prepare a similar statement, the Balance Sheet. For all practical...

Have you ever given consideration to what it would be like to be deaf? Not hearing a single sound. Sure, it's quiet in your house, but you still hear sounds. I would like to think the sensation would be equitable to being underwater, but that would not be a true statement. You can still hear things while being underwater: Waves swishing and people talking above the water - yelling or laughing. Deafness is pure silence. When something big drops to the floor, I "feel" the thump it made. When my dogs bark, I can't hear them, but if they jump on my bed while I'm sleeping, I can feel they are present to wake me for a incoming visitor, burglar, tornado or other natural disaster. This book is a candid, and comical view about hearing loss, Meniere's Disease, vertigo, and the process of undergoing cochlear implant surgery. It also goes into depression and coping mechanisms for all of the above. It is a MUST read for someone or anyone you know (possibly yourself, but you won't admit it), who may be suffering from hearing loss. Progressive hearing loss is subtle. The sounds we often take for granted you no longer hear. Pay attention to your surroundings next time you are outside. Can you still hear the birds?

Our lives are spent watching the clock. We go to sleep by it. Wake up to it. Rely on it. Race it. It's easy to forget that we're only given so much. We ignore it because we're convinced we'll always have more. I am proof that we aren't promised anything. The clock owes us nothing. I know this because not only was Time my name, I wasn't given enough of it. Sure I had challenges but I vowed to make the most of it, of my young life. My limitations wouldn't hold me back. Time was on my side. Then I was told otherwise. Now the clock was working against me. I would face this disease alone. Then he walked in and changed everything. He gave me a reason to fight. He helped me prepare. Like others before me, when time slowed I wasn't ready. I begged for more. But the clock, it stopped for no one. On the day my

world went black, I refused to take him with me. Only he didn't listen. I was a doctor. A bringer of bad news. I read the chart. She was fucked. My hands, they were tied. I was a doctor who could not heal what was beyond that door. I had no hope to offer her. But I wanted this over with. The sooner the better. I walked in, looked up and saw color. Not one. All of them. They surrounded her. She was a patient. You did not cross that line. I would not cross that line. I should have kept my eyes closed. Life was easier when you didn't see. But they were open now. They saw her. They saw everything. Suddenly invisible lines ceased to matter. For me, Time mattered. How far would you go to make sure the one you loved had enough of it? Would you challenge the clock? Help them prepare? Could you watch them suffer? Could you accept a life without them in it? Or, would you follow them into the darkness? I did. This is our story.

"People often forget the road to greatness is rarely a smooth ride. The *Other Side of Glory* reminds us of the enormous power of persistence and what can be achieved when a group of young athletes takes the journey and finds that a 'team-first attitude' can navigate the rocky road that leads to the ultimate prize." —Tim Miles, head men's basketball coach, San Jose State University. A compelling story of teamwork and commitment in the competitive world of girls' high school basketball. When the Waconia Wildcats embarked on the 2019 season, their motto was simple: FINISH. It was a mandate to follow through on every play at the basket and a promise to address unfinished business from the previous season, when a one-point loss was all that kept them from reaching the state tournament for the first time in school history. *The Other Side of Glory* is a sensitive and riveting portrait of youth basketball in small-town Minnesota, a world familiar to many but brimming with its own characters, quirks, and challenges. Readers will get to know the players—girls with nicknames like Sauce, Salsa, Raptor, and Snake—as they navigate high school life, struggle to accept their roles on the team, wrestle with self-doubt, and ultimately band together with the goal of vanquishing a 45-year legacy of coming up short. Inspirational and relatable, this is a must-read for athletes, coaches, and parents everywhere.
