For a brief time in mid-nineteenth century  
Oneida, New York, two of the most eccentric  
and fascinating figures in American history  
crossed paths when troubled soul and soon-to-  
be presidential assassin Charles Guiteau  
threw in his lot with John Humphrey Noyes's  
utopian community of "free love" believers. In  
The Substance of Things Hoped For, Tom  
Noyes--a distant relative of John Humphrey  
Noyes--renders this historical intersection by  
deftly imagining the dynamics and  
consequences of an ominous and unusual  
relationship. As Guiteau stumbles further into

---

madness and eventually achieves infamy for his murder of President Garfield, John Humphrey Noyes is left to face the consequences of his own missteps and misunderstandings as he's forced to make a hasty exit from Oneida. Joining Noyes and Guiteau in their parallel narratives is a chorus of other characters--family members, lovers, rivals, notable historical figures--whose haunting voices complement, undermine, complicate, and enhance Noyes's and Guiteau's versions of events, while also homing in on the novel's most pressing questions, including those related to revelation, delusion, loyalty, and love.

"A biography focusing on the poet John Ashbery's early life"--

*The Open Road* Barefoot Books

Ever since the Middle Ages, the first hour of daily prayer in monastic life--Matins--has roused the community from sleep. Wisely, the second hour

was reserved for Lauds, which means praise. Praise with that freshly awakened consciousness. In this way, such an attitude toward the world, seen and unseen, could be absorbed before breakfast. The poems in this book continue that tradition--though outside a monastic community--of waking up, reflecting, and discerning what there is to praise--and how, and whom. The book constructs an introspective retrospective of a woman charged with curiosity and accommodating doubt. Over decades, she acknowledges with gratitude her own daily shaping by students, grandchildren, rhinos--a public and private history full of saints and ain'ts. Beyond the author's erstwhile community chanting Lauds, she explores its resonance with wit and wistfulness and arrives at this truth: praise over time alters the one who gives it.

Road Song Wednesday Books

A nomad and a swindler embark on an eccentric road trip in this picaresque, philosophical novel by the author of *The Man Who Planted Trees*. *The south of France, 1950*: A solitary vagabond walks through the villages, towns, valleys, and foothills of the region between northern Provence and the Alps. He picks up work along the way and spends the winter as the custodian of a walnut-oil mill. He also picks up a problematic companion: a cardsharp and con man, whom he calls "the Artist." The action moves from place to place, and episode to episode, in truly picaresque fashion. Everything is told in the first person, present tense, by the vagabond narrator, who goes unnamed. He himself is a curious combination of qualities--poetic, resentful, cynical, compassionate, flirtatious, and self-absorbed. While *The Open Road* can be read as loosely strung entertainment, interspersed with caustic reflections, it can also be interpreted as a projection of the relationship of author, art, and audience. But it is ultimately an exploration of the tensions and

---

boundaries between affection and commitment, and of the competing needs for solitude, independence, and human bonds. As always in Jean Giono, the language is rich in natural imagery and as ruggedly idiomatic as it is lyrical.

This book is a collection of biographical sketches of some of the leading figures of our time, though the figures aren't people but configurations of words. Proposing that such words constitute an active force that can lead us into certain attitudes and behavior with realizing it, Rosenthal shows how our leading language acquired such power and suggests ways to escape its control.

Listen to a short interview with Joan Shelley Rubin Host: Chris Gondek | Producer: Heron & Crane In the years between 1880 and 1950, Americans recited poetry at family gatherings, school assemblies, church services, camp outings, and civic affairs. As they did so, they invested poems--and the figure of the poet--with the beliefs, values, and emotions that they experienced in those settings. Reciting a poem together with others joined the individual to the community in a special and memorable way. In a strikingly original and rich portrait of the uses of verse in America, Joan Shelley Rubin shows how the sites and practices of reciting poetry influenced readers' lives and helped them to find meaning in a poet's words. Emphasizing the cultural circumstances that influenced the production and reception of poets and poetry in this country, Rubin recovers the experiences of

ordinary people reading poems in public places. We see the recent immigrant seeking acceptance, the schoolchild eager to be integrated into the class, the mourner sharing grief at a funeral, the grandparent trying to bridge the generation gap--all instances of readers remaking texts to meet social and personal needs. Preserving the moral, romantic, and sentimental legacies of the nineteenth century, the act of reading poems offered cultural continuity, spiritual comfort, and pleasure. *Songs of Ourselves* is a unique history of literary texts as lived experience. By blurring the boundaries between "high" and "popular" poetry as well as between modern and traditional, it creates a fuller, more democratic way of studying our poetic language and ourselves.

Choral Repertoire is the definitive and comprehensive one-volume presentation of the canon of the Western choral tradition. Designed for practicing conductors and directors, students and teachers of choral music, amateur and professional singers, scholars, and interested vocal enthusiasts, it is an account of the complete choral output

of the most significant composers of this genre throughout history. Organized by era (Medieval, Renaissance, Baroque, Classical, Romantic, and Modern), Choral Repertoire covers general characteristics of each historical era; trends and styles unique to various countries; biographical sketches of over 500 composers; and performance annotations of more than 5,000 individual works. This book will be an essential guide to programming, a reference tool for program notes and other research, and, most importantly, a key resource for conductors, instructors, scholars, and students of choral music.

THE HOTLY ANTICIPATED SEQUEL TO THE NO. 1 BESTSELLER CARRY ON Simon Snow is back and he's coming to America! The story is supposed to be over. Simon Snow did everything he was supposed to do. He beat the villain. He won the war. He even fell in love. Now comes the good part, right? Now comes the happily ever after... So why can't Simon Snow get off the couch? What he needs, according to his best friend, is a change of

---

scenery. He just needs to see himself in a new light. That's how Simon and Penny and Baz end up in a vintage convertible, tearing across the American West. They find trouble, of course. (Dragons, vampires, skunk-headed things with shotguns.) And they get lost. They get so lost, they start to wonder whether they ever knew where they were headed in the first place. With *Wayward Son*, Rainbow Rowell has written a book for everyone who ever wondered what happened to the Chosen One after he saved the day. And a book for everyone who was ever more curious about the second kiss than the first. It's another helping of sour cherry scones with an absolutely decadent amount of butter. Come on, Simon Snow. Your hero's journey might be over – but your life has just begun.

"From traffic stops to parking tickets, Seo traces the history of cars alongside the history of

crime and discovers that the two are inextricably linked." —Smithsonian  
When Americans think of freedom, they often picture the open road. Yet nowhere are we more likely to encounter the long arm of the law than in our cars. Sarah Seo reveals how the rise of the automobile led us to accept—and expect—pervasive police power, a radical transformation with far-reaching consequences. Before the twentieth century, most Americans rarely came into contact with police officers. But in a society dependent on cars, everyone—law-breaking and law-abiding alike—is subject to discretionary policing. Seo challenges prevailing interpretations of the Warren Court's due process revolution and argues that the Supreme Court's efforts to protect Americans did more to accommodate than limit police intervention. *Policing the Open Road* shows how the new procedures sanctioned discrimination by officers, and ultimately undermined the nation's commitment to equal protection before the law. "With insights ranging from the joy of the open road to the indignities—and worse—of 'driving while black,' Sarah Seo makes the case that the 'law of the car' has eroded our rights to privacy and equal justice...Absorbing and so essential." —Paul Butler, author of *Chokehold*  
"A fascinating examination of how the automobile reconfigured American life, not just in terms of suburbanization and infrastructure but with regard to deeply ingrained notions of freedom and personal identity." —Hua Hsu, *New Yorker*

"Thanks for the Memory." "Swinging on a Star." "The Way You Look Tonight." Three great and popular standards of the American songbook--and all three won Oscars for best song. But who wrote these songs? What movies were they written for? Which stars introduced them? In the 25 years covered by this book, 160 songs were nominated for Academy Awards. Some are well known, but many are nearly forgotten. They deserve more lasting recognition. *Best Songs of the Movies* tells the stories behind all these songs, year by year. After announcing the nominated songs, the text describes the way each song was presented and performed, critiques the lyrics and melody, and provides appropriate historical and biographical insights. One appendix presents brief biographies of all the lyricists and composers responsible for these songs; another lists the Oscar-nominated and winning songs from 1959 through 2003. A bibliography and index complete the volume.
