Yes, you can turn those great melodies and smokin' grooves in your head into stunning digital music! And you don't have to be a musical genius or a computer geek to do it! Composing Digital Music For Dummies shows you everything you need to know to compose great tunes using the hottest digital tools. This

friendly, plain-English guide explains all of the digital music basics, including how to work with the latest hardware and software, use templates from the companion CD-ROM to make a quick start, build your first tune, and save it in different formats. You'll also find out how to add instruments to your score, set tempos and keys, create chord symbols and show fretboards, add lyrics to your tune, and much more. Discover how to: Write and arrange digital music Determine what – if any – equipment you need Create your own ringtones and mp3s Compose with a MIDI controller, or a mouse Work with notation software Use keyboard shortcuts Publish your creations on the Internet Build your own tune from scratch Extract parts from your score for each instrument The companion CD-Rom also includes a demo of Sebelius 5, the most popular music notation software, as well as audio files for all music examples in the book. With this step-by-step guide and your computer, you'll have everything you need to start writing, arranging, and publishing your own digital music – immediately! Note: CD-ROM/DVD and other supplementary materials are not

included as part of eBook file.

Music Composition For Dummies John Wiley & Sons

In this book, Alison Stone argues that popular music since rock- ' n ' -roll is a unified form of music which has positive value. That value is that popular music affirms the importance of materiality and the body, challenging the long-standing Western elevation of the intellect above all things corporeal. Stone also argues that popular music ' s stress on materiality gives it aesthetic value, drawing on ideas from the post-Kantian tradition in aesthetics by Hegel, Adorno, and others. She shows that popular music gives importance to materiality in its typical structure: in how music of this type handles the relations between matter and form, the relations between sounds and words, and in how it deals with rhythm, meaning, and

emotional expression. Extensive use is made of musical examples from a wide range of popular music genres. This book is distinctive in that it defends popular music on philosophical grounds, particularly informed by the continental tradition in philosophy.

Creative Writing For Dummies John Wiley & Sons

DJ like a pro—without skipping a beat The bestselling guide to spinning and scratching is back! If you've ever spent hours in your bedroom with two turntables and an earful of tracks that sound off-beat or out of key, DJing For Dummies is the go-to guide for taking your skills to the next level. Nail down the basics and build on existing skills. Sort through the latest equipment and technology. Have a go at crossfading, beatmatching and scratching. Mix tracks seamlessly to sound like a pro. If you're new to the game or looking to step up your skills and graduate to club work, *DJing For Dummies* has you covered.

Music Theory Workbook for All Musicians John Wiley & Sons

This comprehensive collection from the legendary folk icon features lyrics from each of Simon's 10 original studio albums,

as well as lyrics from the renowned Simon & Garfunkel records. 50 b&w photographs throughout.

The Value of Popular Music John Wiley & Sons

For years, Todd Snider has been one of the most beloved country-folk singers in the United States, compared to Bob Dylan, Tom Petty, John Prine, and dozens of others. He's become not only a new-century Dylan but a modern-day Will Rogers, an everyman whose intelligence, self-deprecation, experience, and sense of humor make him a uniquely American character. In live performance, Snider's monologues are cheered as much as his songs. But never before has he told the whole story. Running the gamut from personal memoir to shaggy-dog comedy to

rueful memories of his troubles and triumphs with drugs and alcohol to sharp-eyed observations from years on the road, *I Never Met a Story I Didn't Like* is for fans of Snider's music, but also for fans of America itself: the broad, wild country that has produced figures of folk wisdom like Will Rogers, Mark Twain, Ambrose Bierce, Tonya Harding, Garrison Keillor, and more. There are storytellers and there are performers and there are stand-up comedians. And then there's Todd Snider, who is all three in one, and something else entirely.

The Art of Songwriting John Wiley & Sons
Learn the secrets to achieving your ultimate sound Whether amateur or pro, guitarists live for the ultimate sound. *Guitar Amps & Effects For Dummies* provides the information and instruction you need to discover that sound

and make it your own! Written in the characteristically easy-to-read Dummies style, this book is ideal for beginners and experienced musicians alike, and can help all players expand their skill set with effects. Guitarists tend to be gearheads when it comes to sound, and this book provides guidance on topics ranging from the guitar itself to amps, pedals, and other sound technology. Amps and effects are the unsung heroes of guitar music. While most people recognize the more psychedelic effects, many don't realize that effects are often responsible for the unique quality of tone that can become a musician's trademark. Certain effects work on the volume or signal level, others work on the environment, and still others work on the bass and treble content. *Guitar Amps & Effects For Dummies* covers them all, and shows how effects can not only add something extra, but also "fix" problematic areas. Topics include: Gain-based

effects, like distortion, compression, volume pedals, and gates Tone-based effects, including graphic and parametric EQ, and the wah-wah pedal Modulation effects, like the flanger, phase shifter, and tremolo Ambience effects, including reverb and delay The journey to incredible guitar music never ends. No matter how experienced you are with a guitar, there is always room for improvement to your tone and sound. Whether you're looking for the sound of angels or thunder, *Guitar Amps & Effects For Dummies* will help you achieve the music you hear in your dreams.

The Songwriter's Idea Book Penguin

Become a different drummer Drumming is natural to all of us—after all, it mimics the regular beat of our hearts. But some of us want to go further and really lay down a big beat. And no wonder—whether you want to become

the powerful backbone of a band or just learn how to play a hand drum for pleasure, drumming is a lot of fun. Oh, and it's scientifically proven to make you smarter. Bonus: healthier! *Drums For Dummies* gets you going on the road to becoming the drummer you want to be. Get started with the basics—what drums to buy, exercises that build your skills, and playing simple rhythms. Then move into more complex topics, explore drumming styles from around the world, and add other percussion instruments to your repertoire. Written in an easy-to-follow step-by-step style by respected instructor Jeff Strong, you'll go from banging out basic rhythms—with or without sticks—to acquiring versatility

with different styles and types of drum. The book also provides online audio files to drum along with, as well as suggestions for solo approaches to wow your bandmates. Understand fundamental techniques. Hone your technique with exercises. Explore other percussion instruments. Care for your drums. The all-time drumming great Neal Peart of the band Rush once said that when he saw a good drummer, all he wanted to do was practice. *Drums For Dummies* is your best way to do just that—and start hitting your perfect groove. P.S. If you think this book seems familiar, you're probably right. The Dummies team updated the cover and design to give the book a fresh feel,

but the content is the same as the previous release of *Drums For Dummies* (9780471794110). The book you see here shouldn't be considered a new or updated product. But if you're in the mood to learn something new, check out some of our other books. We're always writing about new topics!

The hour-long ear-training course reinforces the basic content of the book with musical examples of intervals, scales, chords, and rhythms. Also provided are aural exercises students can use to test their ear training and transcription skills. The CD is accompanied by a 20-page section of exercises and examples.

Piano & Keyboard All-in-One For Dummies John Wiley & Sons

The complete guide to mastering the art of effective body language *Body Language For Dummies* is your ideal guide to understanding other people, and helping

them understand you. Body language is a critical component of good communication, and often conveys a bigger message than the words you say. This book teaches you how to interpret what people really mean by observing their posture, gestures, eye movements, and more, and holds up a mirror to give you a clear idea of how you're being interpreted yourself. This updated third edition includes new coverage of virtual meetings, multicultural outsourcing environments, devices, and boardroom behaviours for women, as well as insight into Harvard professor Amy Cuddy's research into how body language affects testosterone and cortisol, as published in the *Harvard Business Review*. Body language is a fascinating topic that reveals how the human mind works. Image and

presentation are crucial to successful communication, both in business and in your personal life. This book is your guide to decoding body language, and adjusting your own habits to improve your interactions with others. Become a better communicator without saying a word Make a better first (and second, and third...) impression Learn what other people's signals really mean Transform your personal and professional relationships Realising what kind of impression you give is a valuable thing, and learning how to make a more positive impact is an incredibly useful skill. Whether you want to improve your prospects in job seeking, dating, or climbing the corporate ladder, *Body Language For Dummies* helps you translate the unspoken and get your

message across.

Lyrics 1964-2016 Simon and Schuster Spend less time learning and more time recording Logic Pro X offers Mac users the tools and power they need to create recordings ready to share with the world. This book provides the know-how for navigating the interface, tweaking the settings, picking the sounds, and all the other tech tasks that get in the way of capturing the perfect take. Record live sound sources or built-in virtual instruments Arrange your tracks to edit, mix, and master Discover

tips to speed the process and record on an iPad Make sense of the latest software updates A favorite among Logic Pro X beginners, this book is updated to reflect the ongoing changes added to enhance Logic Pro X's recording power.

Artist Management for the Music Business John Wiley & Sons

'The Art of Songwriting' is a comprehensive guide to life, art and making great songs. It's not about chasing a hit song. It's not about theories that are interesting but no use filling the blank page. And most of all -- it's not just about the craft of songwriting. It's about how to create, think and live like a songwriter. It's about being resilient, innovative and

passionate about what you make. It's about how artists can change the world -- and why they should.

The Art of Songwriting Penguin

A one-stop resource to the essentials of owning and playing the guitar If you've just bought a guitar, or you've had one for a while, you probably know it takes some time and effort to learn how to play the popular instrument. There's so much to know about owning, maintaining, and playing a guitar. Where do you even begin? In *Guitar All-in-One For Dummies*, a team of expert guitarists and music teachers shows you the essentials you need to know about owning and playing a guitar. From picking your first notes to exploring music theory and composition, maintaining your gear, and diving into the

specifics of genres like blues and rock, this book is a comprehensive and practical goldmine of indispensable info. Created for the budding guitarist who wants all their lessons and advice in one place, the book will show you how to: Maintain, tune, and string your guitar, as well as decipher music notation and guitar tablature Understand guitar theory, sounds and techniques to help you learn new songs and add your style to classic tunes Practice several popular genres of guitar music, including blues, rock, and classical Access accompanying online video and audio instructional resources that demonstrate the lessons you find in the book Perfect for guitar players at any skill level, *Guitar All-in-One For Dummies* is a must-have resource for anyone who wants to get the most out of

their own guitar and make great music.

Writing Better Lyrics Hal Leonard

Tune in to how music really works Whether you're a student, a performer, or simply a fan, this book makes music theory easy, providing you with a friendly guide to the concepts, artistry, and technical mastery that underlie the production of great music. You'll quickly become fluent in the fundamentals of knocking out beats, reading scores, and anticipating where a piece should go, giving you a deeper perspective on the works of others — and bringing an extra dimension to your own. Tracking to a typical college-level course, *Music Theory For Dummies* breaks difficult concepts down to manageable chunks and takes into account every aspect of musical production and appreciation — from the fundamentals of notes and scales to the complexities of expression and instrument tone color. It also examines the latest teaching

techniques — all the more important as the study of music, now shown to provide cognitive and learning benefits for both children and adults, becomes more prevalent at all levels. Master major and minor scales, intervals, pitches, and clefs Understand basic notation, time signals, tempo, dynamics, and navigation Employ melodies, chords, progressions, and phrases to form music Compose harmonies and accompanying melodies for voice and instruments Wherever you want to go musically — as a writer or performer, or just as someone who wants to enjoy music to its fullest — this approachable guide gives you everything you need to hear!

Songwriting for Dummies Da Capo Press
