“You can be the next Hitler for all I care. Kung iyon ang gusto mo, fine... Just let me stay with you. And let me love you with all my heart, for the rest of my life.” Bata pa lang sina Cassandra at Ice nang ipagkasundo sila ng kanilang mga ama dahil sa isang insidente sa kani-kanilang paaralan. They grew up living separate lives. Nagkaroon din naman kasi sila noon ng kasunduan na walang sinuman ang makakapagdikta sa kanila sa kung sino ang pipiliin nilang mahalín at makasama

habang-buhay. Ngunit kapag nariyan ang pinakamamahal nilang mga ama, kailangan nilang magpanggap. Hanggang sa isang araw ay nilapitan siya ni Ice. “I want you to meet Erica.” “Why?” “Coz I’m gonna ask her to marry me.” Ngumiti lang siya. Pero sa loob-loob niya, nasasaktan siya. Dahil noon pa mang mga bata sila, minahal na niya ito.

Cultural, economic and political trends are changing the way public administrations are organized and this book examines the new challenges managers face, with the need for a shift from a traditional bureaucratic model to a competency-based approach to

organizational design and management in the areas of recruitment, training, career development and assessment. Through the analysis of an experimental project launched jointly by the Italian National School for Administration (SNA) and the Prime Minister's Office, this book showcases how a competency-based system can be a key tool in reforming HR in the public sector, with significant effects on the organization and management of public administration.

#### The Basic Code of the Universe Routledge

This book focuses on Integrated Reporting as a contemporary social and managerial innovation where a number of initiatives, organizations and individuals began to converge in response to the need for a consistent, collaborative and internationally accepted approach to redesign corporate reporting. Integrated Reporting is a process that results in communication of the annual "integrated report" which

describes value creation over time. An integrated report is a concise communication about how an organization's strategy, governance, performance and prospects lead to the creation of value over the short, medium and long term. This book offers a fresh perspective with expert contributions focusing on both the theoretical underpinnings and the practical challenges for the future of corporate reporting.

For thousands of years, the faithful have honed proselytizing strategies and talked people into believing the truth of one holy book or another. Indeed, the faithful often view converting others as an obligation of their faith—and are trained from an early age to spread their unique brand of religion. The result is a world broken in large part by unquestioned faith. As an urgently needed counter to this tried-and-true tradition of religious evangelism, *A Manual for Creating Atheists* offers the first-ever guide not for talking people into faith—but for talking them out of it. Peter Boghossian draws on the tools

---

he has developed and used for more than 20 years as a philosopher and educator to teach how to engage the faithful in conversations that will help them value reason and rationality, cast doubt on their religious beliefs, mistrust their faith, abandon superstition and irrationality, and ultimately embrace reason.

This book describes the state-of-the-art concerning the ‘ marine microbiome ’ and its uses in biotechnology. The first part discusses the diversity and ecology of marine microorganisms and viruses, including all three domains of life: Bacteria, Archaea, and Eukarya. It discusses whether marine microorganisms exist and, if so, why they might be unique. The second part presents selected marine habitats, their inhabitants and how they influence biogeochemical cycles, while the third discusses the utilization of marine microbial resources, including legal aspects, dissemination, and public awareness. The marine microbiome is the total of microorganisms and viruses in the ocean and seas and in any connected environment, including the seafloor and

marine animals and plants. The diversity of microbial life remains unquantified and largely unknown, and could represent a hidden treasure for human society.

Accordingly, this book is also intended to connect academics and industry, providing essential information for microbiologists from both fields.

“ A dynamic group biography studded with design history and high-society dash . . . [This] elegantly wrought narrative bears the Cartier hallmark. ” —The Economist

The “ astounding ” (André Leon Talley) story of the family behind the Cartier empire and the three brothers who turned their grandfather ’ s humble Parisian jewelry store into a global luxury icon—as told by a great-granddaughter with exclusive access to long-lost family archives

“ Ms. Cartier Brickell has done her grandfather proud. ” —The Wall Street Journal The Cartiers is the revealing tale of a jewelry dynasty—four generations, from revolutionary France to the 1970s. At its heart are the three Cartier brothers whose motto was “ Never copy, only create ” and who made their family firm

internationally famous in the early days of the twentieth century, thanks to their unique and complementary talents: Louis, the visionary designer who created the first men ’ s wristwatch to help an aviator friend tell the time without taking his hands off the controls of his flying machine; Pierre, the master dealmaker who bought the New York headquarters on Fifth Avenue for a double-stranded natural pearl necklace; and Jacques, the globe-trotting gemstone expert whose travels to India gave Cartier access to the world ’ s best rubies, emeralds, and sapphires, inspiring the celebrated Tutti Frutti jewelry. Francesca Cartier Brickell, whose great-grandfather was the youngest of the brothers, has traveled the world researching her family ’ s history, tracking down those connected with her ancestors and discovering long-lost pieces of the puzzle along the way. Now she reveals never-before-told dramas, romances, intrigues, betrayals, and more. The Cartiers also offers a behind-the-scenes look at the firm ’ s most iconic jewelry—the notoriously cursed Hope Diamond, the Romanov emeralds, the classic panther pieces—and the long line of stars from the

worlds of fashion, film, and royalty who wore them, from Indian maharajas and Russian grand duchesses to Wallis Simpson, Coco Chanel, and Elizabeth Taylor. Published in the two-hundredth anniversary year of the birth of the dynasty's founder, Louis-François Cartier, this book is a magnificent, definitive, epic social history shown through the deeply personal lens of one legendary family.

Delivered: One Family Hay House, Inc  
Meet the Kings. They'll warm your heart... then get it racing. Fall in love with the wild, passionate, scandalous men, and the strong, confident women of this big family as they find lasting love in the quaint small town of Crown Creek. Each book is connected or can be read as a standalone. I met Finn King the day my world turned upside down. My life hasn't exactly been easy, but I could always count on two universal truths: Music is my passion, and I'm Daddy's little girl. When my Dad died, my world was rocked. When I went to his funeral and found he was not the man I knew... it was shattered. That's when Finn stepped in to pick up the pieces. What started as a desperate fling with the worst man imaginable became a friendship built on slow trust. The mystery of why one of the famous King brothers is hiding away from the world doesn't seem so strange as long as I am the one hiding in his arms. But even as we both try to heal the wounds we've caused, my father's secrets are knocking at our door. Finn may be able to protect me from my past. If I can protect him from himself. CROWN CREEK is one big series about one special small town, following the lives and loves of interconnected families and friends. The same characters show up in multiple books and each

book can be read as a standalone. Or they can be read in the following order for one long series. The Kings: Sweet Crazy Song - Jonah's story (FREE) Lost Perfect Kiss - Gabe's story Soft Wild Ache - Beau's story His Secret Heart - Finn's story Crown Creek Standalones: Last Good Man - Willa and Cooper's story

This book pursues a comprehensive, multidisciplinary approach in order to analyze the relationship between water and food security. It demonstrates that most of the world's economies lack sufficient water resources to secure their populations' food requirements and are thus virtual importers of water. One of the most inspiring cases, which this book is rooted in, is Italy: the third largest net virtual water importer on earth. The book also shows that the sustainability of water depends on the extent to which societies recognize and take into account its value and contribution to agricultural production. Due to the large volumes of water required for food production, water and food security are in fact inextricably linked. Contributions from leading international experts and scholars in the field use the concepts of virtual water and water footprints to explain this relationship, with an eye to the empirical examples of wine, tomato and pasta production in Italy. This book provides a valuable resource for all researchers, professionals,

---

policymakers and everyone else interested in water and food security.

Behind Sami, the Syrian skyline is full of smoke.

The boy follows his family and all his neighbours in a long line, as they trudge through the sands and hills to escape the bombs that have destroyed their homes. But all Sami can think of is his pet pigeons - will they escape too? When they reach a refugee camp and are safe at last, everyone settles into the tent city. But though the children start to play and go to school again, Sami can't join in. When he is given paper and paint, all he can do is smear his painting with black. He can't forget his birds and what his family has left behind. One day a canary, a dove, and a rose finch fly into the camp. They flutter around Sami and settle on his outstretched arms. For Sami it is one step in a long healing process at last. A gentle yet moving story of refugees of the Syrian civil war, *My Beautiful Birds* illuminates the ongoing crisis as it affects its children. It shows the reality of the refugee camps, where people attempt to pick up their lives and carry on. And it reveals the hope of generations of people as they struggle to redefine home.

This book constitutes the refereed proceedings of the 9th International Conference on Pervasive Computing Paradigms for Mental Health, MindCare 2019, held in Buenos Aires, Argentina, in April 2019. The 22 papers presented were carefully reviewed and selected from 38 submissions and present new paradigms in mental healthcare, in parallel with compelling questions about how it is possible to promote and structure these changes to improve physical well-being. Stallion Series 2: Eneru Villlasis Academic Press Illegal. Undocumented. Remedial. DREAMers. All of these labels have been applied to immigrant youth. Using a combination of engaging narrative and rigorous analysis, this book explores how immigrant youth are included in, and excluded from, various sectors of American society, including education. Instead of the land of opportunity, immigrant youth often encounter myriad new borders long after their physical journey to the United States is over. With an intimate storytelling style, the author invites readers to rethink assumptions about immigrant youth and what their often liminal positions reveal about the politics of inclusion in America. Book Features: Engaging case studies that capture the lived experiences of immigrant youth, from secondary school and beyond. A cohesive analysis of how immigration law, education, and health intertwine to shape possible life pathways. Descriptions of educational practices that both support and disempower newcomer immigrant students. Recommendations for

interrupting day-to-day practices that privilege some youth, many who will recognize themselves and disadvantage others. Lisa (Leigh) Patel is an associate professor of education at Boston College. She has been a journalist, a teacher, and a state-level policymaker. “ Over coffee, tears, and laughter, I spent a delightful morning stunned at the beauty of Leigh Patel ’ s writing and swept up in the pages of *Youth Held at the Border*, a piercing analysis of how laws move under the skin and penetrate the soul and a tragicomic musical of young people improvising lives at the dangerous intersection of U.S. immigration, criminalization, education, and welfare policies. ” —From the Foreword by Michelle Fine, Graduate Center, CUNY “ Poignant and insightful. . . . After reading this book it will no longer be possible to use code words like ‘ undocumented ’ and ‘ illegal ’ to keep these young people silenced and confined to the shadowy world of fugitives. ” —Pedro Noguera, Peter L. Agnew Professor of Education, Steinhardt School of Culture, Education and Development, Executive Director, Metropolitan Center for Urban Education, New York University “ Lisa Patel is both ethnographer and poet in telling stories of anguish and desperation, but in the end, stories of hope and survival. All teachers, and anyone who cares about the future of our nation, must read this book. ” —Sonia Nieto, Professor Emerita, School of Education, University of Massachusetts “ Patel brings into compelling focus and with love young people who are all around us yet not wholly seen. This is an essential read for all educators and for

their peers in her narrative. ” —Susan E. Wilcox, SEW Consulting, community and university educator, writer

Architecture and the Novel under the Italian Fascist Regime discusses the relationship between the novel and architecture during the Fascist period in Italy (1922-1943). By looking at two profoundly diverse aesthetic phenomena within the context of the creation of a Fascist State art, Billiani and Pennacchietti argue that an effort of construction, or

---

reconstruction, was the main driving force behind both projects: the advocated “ revolution ” of the novel form (realism) and that of architecture (rationalism). The book is divided into seven chapters, which in turn analyze the interconnections between the novel and architecture in theory and in practice. The first six chapters cover debates on State art, on the novel and on architecture, as well as their historical development and their unfolding in key journals of the period. The last chapter offers a detailed analysis of some important novels and buildings, which have in practice realized some of the key principles articulated in the theoretical disputes.
