The Apple Music is a new music streaming/playing service that has been introduced by Apple Inc. The service allows the Apple users to be able to choose the music they would like to hear on demand. When users sign up for this service, they will get a combination of the Beats 1 radio station and the Connect

blog for artists to share information with their fans. The service also allows the users to get recommendations based on their taste and it can be integrated with the popular Siri command service. The complete service is similar to other streaming services however it is different based on the additional features offered and exclusive content. It aims to stand out by not using computer algorithms to determine the tastes of user but by using the human element to build more precise catalogs. The added exclusive content will provide a direct link to the artists in which fans can get content that is unfiltered and unedited. They can make comments and see the direct inspiration of the artists.

THE SMARTEST COMPANION The Echo Show 10 uses computer vision to determine where a person is in a room and then combines that with audio-based location when you say Alexa. It is one of the first devices to receive Amazon's own Climate Pledge Friendly badge. It comes with a movable 10-inch HD screen with a resolution of 1200 x 800 pixel positioned on the front and a rotating

base and speaker unit.

The rotating base allows the screen to follow you as you move around preparing meals, get ready for the day, do the dishes, or whatever else you're doing in the kitchen, you don't have to keep going back to see what's on the display; it's just always there in view.

‘ It ’ s amazing that this style came to be. Can you imagine being a struggling musician back then? It must take an incredible amount of restraint to play that gently. ’

—Actor/comedian Fred Armisen, from his foreword to this book Just what is ‘ yacht rock, ’ you ask? Perhaps the easiest description is music that would not sound out of place being played while carousing aboard a yacht back in the good old days. But these songs were also some of the top pop gems of the 1970s and '80s. And while some associate yacht rock ’ s biggest songs with one-hit wonder artists, several of rock ’ s most renowned artists fall under this category, too - including Fleetwood Mac,

the Eagles, Steely Dan, Hall & Oates, The Doobie Brothers, Toto, and more. Yacht rock seemed to have become extinct by the early twenty-first century ... until a comedic video series, simply titled Yacht Rock, went viral and introduced captain ’ s hats and blazers to a whole new generation - as well as the emergence of a popular cover band, the Yacht Rock Revue, and of course, Jimmy Fallon ’ s on-air admiration of all things yacht rock. Now, yacht rock is one of the most celebrated ‘ yesteryear ’ styles of pop music, and has resonated with a new generation of musicians (including the Fred Armisen/Bill Hader-led Blue Jean Committee and soul/funk/electronica crossover act Thundercat). But despite all the hoopla, there has never been a book that told the entire story of the genre. Until now. Featuring interviews

with many of the heavy hitters of the genre, including John Oates, Kenny Loggins, and Don Felder, *The Yacht Rock Book* leaves no sail unturned. This is the definitive story of the yacht rock 's creation, rise, chart-smashing success, fall, and stunning rebirth.
