Guide to Digital Photography Tony Northrup

The Sony PXW-Z750/450 camcorder is loaded with advanced features and options that can bewilder even the most seasoned professional. In the no-nonsense style for which Doug Jensen is

known, he cuts through the clutter of confusing, misunderstood, and undocumented features. He explains each camera function and provides step-by-step instructions for how to use them. With almost 400 pages of detailed information, there isn't a single important topic not included.

**Canon EOS 5D Mark III Digital Field Guide** CreateSpace

This book is a complete manual on the Sony Cyber-shot DSC-RX100 VI camera, one of the most advanced, but still pocketable, cameras available. With this book, author Alexander White provides users of the RX100 VI with a guide to all aspects of the camera's operation. Using a tutorial-like approach, the book shows beginning and intermediate photographers how to take still images and record video with the RX100 VI, and explains when and why to use the camera's many features. The book provides details about the camera's automatic and advanced shooting

modes, including burst shooting at rates as fast as 24 frames per second, as well as its numerous menu options for shooting, playback, and setup. The book includes information about using Wi-Fi and Bluetooth connections for image transfer, remote control, and adding location information to images. The book has more than 500 color photographs or illustrations that help explain the camera's menus, shooting screens, and features. These images include examples of photographs taken using the RX100 VI's Scene mode, with settings optimized for subjects such as landscapes, sunsets, portraits, low-light, and action shots; and the Creative Style and Picture Effect menu options, with settings that alter the appearance of images. The book also provides introductions to topics such as street photography, astrophotography, and digiscoping, with photographic examples. The book includes a full discussion of the video features of the RX100 VI, which can shoot HD and 4K (ultra-HD) movies, and which offers manual control of exposure and focus during movie recording. The book explains the camera's numerous

features that are useful for professional-level videography, including Picture Profiles that allow adjustment of settings such as gamma curve, black level, knee, and detail. The book provides detailed information about recording 4K video to an external video recorder using the "clean" video output from the camera's HDMI port. In three appendices, the book discusses accessories for the RX100 VI, including cases, power sources, grips, remote controls, and filter adapters, and includes a list of websites and other resources for further information. The book includes an appendix with "quick tips" on how to take advantage of the camera's features in the most efficient ways possible. This guide to the RX100 VI includes a detailed index, so the reader can quickly find needed information about any particular feature or aspect of the camera.

Newnes Guide to TV and Video

Technology is a guide to TV and video technology and covers topics ranging from transmission and reception to color decoding, magnetic tape basics and video signals, and signal processing. Tips on care, operation, and maintenance of videotape recorders are given. Block diagrams are used

throughout the book. Comprised of 21 chapters, this book begins with an overview of the basic principles of monochrome television, followed by a discussion on the light and color aspects of TV. The reader is then introduced to assembling a color TV outfit by triplicating the "basic" television system and assigning one primary color to each of the three; the principle of chroma encoding and the method of "dovetailing" the chroma and Y signals; transmission and reception; color decoding; and color display devices. VTR principles and circuits are explained in general terms, taking examples from all home formats to illustrate the techniques used. This monograph is

---

aimed at interested laymen, students, and technicians and those in allied fields seeking an insight into the technicalities of TV and VTR practice.

The top-rated and top-

selling photography ebook since 2012 and the first ever Gold Honoree of the Benjamin Franklin Digital Award, gives you five innovations no other book offers: Free video training. 9+ HOURS of video training integrated into the book's content (requires Internet access). Travel around the world with Tony and Chelsea as they teach you hands-on. Appendix A lists the videos so you can use the book like an inexpensive video course. Classroom-style teacher and peer help. After buying the book, you get access to the private forums on this site, as well as the private Stunning Digital Photography Readers group on Facebook where you can ask the questions and post pictures for feedback from Tony, Chelsea, and other readers. It's like being able to raise your hand in class and ask a question! Instructions are in the introduction. Lifetime

updates. This book is

regularly updated with new content (including additional videos) that existing owners receive for free. Updates are added based on reader feedback and questions, as well as changing photography trends and new camera equipment. This is the last photography book you'll ever need. Hands-on practices. Complete the practices at the end of every chapter to get the real world experience you need. 500+ high resolution, original pictures. Detailed example pictures taken by the author in fifteen countries demonstrate both good and bad technique. Many pictures include links to the full-size image so you can zoom in to see every pixel. Most photography books use stock photography, which means the author didn't even take them. If an author can't take his own pictures, how can he teach you? In this book, Tony Northrup (award-winning author of more than 30 how-to books and a

professional portrait, wildlife, and landscape photographer) teaches the art and science of creating stunning pictures. First, beginner photographers will master: Composition, Exposure, Shutter speed, Aperture, Depth-of-field (blurring the background), ISO, Natural light, Flash, Troubleshooting blurry, dark, and bad pictures, Pet photography, Wildlife photography (mammals, birds, insects, fish, and more), Sunrises and sunsets, Landscapes, Cityscapes, Flowers, Forests, waterfalls, and rivers, Night photography, Fireworks, Raw files, HDR, Macro/close-up photography. Advanced photographers can skip forward to learn the pro's secrets for: Posing men and women, including corrective posing (checklists provided), Portraits (candid, casual, formal, and underwater), Remotely triggering flashes, Using bounce flash and flash modifiers, Using studio lighting on any budget, Building a temporary or permanent studio at home, Shooting your first wedding, High speed photography, Location scouting/finding the best spots and times, Planning shoots around the sun and moon, Star trails (via long exposure and image stacking), Light painting, Eliminating noise, Focus stacking for infinite depth-of-field, Underwater photography, Getting close to wildlife, Using electronic shutter triggers, Photographing moving cars, Photographing architecture and real estate.

with the Sony a7 IV. David Busch's Sony [Alpha] SLT-A65 Guide to Digital Photography The Hard Copy is a work that walks the line between the exotic artists' book and the democratic, mass-produced multiple. Appropriating ideas and visual references from Stewart Brand's Whole Earth Catalog, Hard Copy represents the power that the tool bestows on the contemporary artist by listing, reviewing and appropriating information on a selection of 'artists' tools.

**Doug Jensen's Complete Guide to the Sony PXW-Z750 and PXW-Z450**

If you're a beginner photographer, this book can save you hundreds of dollars. If you're a seasoned pro, it can save you thousands. With access to over 16 HOURS of online video, this book helps you choose the best equipment for your budget and style of photography. In this book, award-winning author and photographer Tony Northrup explains what all your camera, flash, lens, and tripod features do, as well as which are worth paying for

---

and which you can simply skip. Tony provides information specific to your style of photography, whether you're a casual photographer or you're serious about portraits, landscapes, sports, wildlife, weddings, or even macro. For the casual reader, Tony provides quick recommendations to allow you to get the best gear for your budget, without spending days researching. If you love camera gear, you'll be able to dive into 200 pages of detailed information covering Nikon, Canon, Sony, Micro Four-Thirds, Olympus, Samsung, Leica, Mamiya, Hasselblad, Fuji, Pentax, Tamron, Sigma, Yongnuo, PocketWizard, Phottix, Pixel King, and many other manufacturers. Camera technology changes fast, and this book keeps up. Tony updates this book several times per year, and buying the book gives you a lifetime subscription to the updated content. You'll always have an up-to-date reference on camera gear right at your fingertips. Here are just some of the topics covered in the book: What should my first camera be? Which lens should I buy? Should I buy Canon, Nikon, or Sony? Is a mirrorless camera or a DSLR better for me? Do I need a full frame camera? Is it safe to buy generic lenses and flashes? What's the best landscape photography gear? Which portrait lens and flash should I buy? What gear do I need to photograph a wedding? How can I get great wildlife shots on a budget? Which sports photography equipment should I purchase? Should I buy zooms or primes? Is image stabilization worth the extra cost? Which type of tripod should I buy? Which wireless flash system is the best for my budget? How can I save money by buying used? What kind of computer should I get for photo editing? What studio lighting equipment should I buy? When you buy this book, you'll be able to immediately read the book online. You'll also be able to download it in PDF, .mobi, and .epub formats--every popular format for your computer, tablet, smartphone, or eReader!
