Transfigurements develops a framework for thinking about art through innovative readings of some of the most important philosophical writing on the subject by Kant, Hegel, and Heidegger. Sallis exposes new layers in their texts and theories while also

marking their limits. By doing so, his aim is to show that philosophy needs to attend to art directly. Consequently, Sallis also addresses a wide range of works of art, including paintings by Raphael, Monet, and Klee; Shakespeare's comedies; and the music of Beethoven, Schubert, Mahler, and Tan Dun.

Through these interpretations, he puts forth a compelling new elaboration of the philosophy of art.

Cliff Richard has been Britain's longest surviving and most consistent hit music maker. Starting his career as a rock 'n' roll threat to decent, upstanding citizens, he is now a friend to Royalty and prime ministers, a Knight, and a holder of the OBE. This book tells his story chronologically, through the voices of his friends, family, and colleagues including

songwriters, film directors, managers, and agents—like listening in on a dinner party attended by most of the key people in his career. The stories reveal Cliff as seen by those closest to him and, in contrast to the many official publications, this book does not just include the flattering stories. The author's probing questions have elicited extraordinary memories and observations, previously unheard by the public. Heavily illustrated with rare and interesting photographs of Cliff at work and play, this unique oral history will stand as a lasting testament to one of the most glorious careers in British show business.
