"It is my hope that through the pages of this remarkable book, you will discover groundbreaking thoughts on building partnerships and networks to enhance the global movement to end child soldiering; you will gain new and holistic insights on what constitutes a child soldier; you will learn more about girl soldiers, who have not been fully considered in the discussion of this issue; you will discover methods on how to influence national policies and the training of security forces; and you will find practical steps that will foster better coordination between security forces and humanitarian efforts."-Ishmael Beah As the leader of the ill-fated United Nations peacekeeping force in Rwanda, Lieutenant-General Rom é o Dallaire came face-to-face with the horrifying reality of child soldiers during the genocide of 1994. Since then the incidence of child soldiers has proliferated in conflicts around the world: they are cheap, plentiful, expendable, with an incredible capacity, once drugged and brainwashed, for both loyalty and barbarism. The dilemma of the adult soldier who faces them is poignantly expressed in this book's title: when children are shooting at you, they are soldiers, but as soon as they are wounded or killed, they are children once again. Believing that not one of us should tolerate a child being used in this fashion, Dallaire has made it his mission to end the use of child soldiers. Where Ishmael Beah's A Long Way Gone gave us wrenching testimony of the devastating experience of being a child soldier, Dallaire offers intellectually daring and enlightened approaches to the child soldier phenomenon, and insightful, empowering solutions to eradicate it.

The first collection of food writing by Britain's funniest and most feared critic A.A. Gill knows food, and loves food. A meal is never just a meal. It has a past, a history, connotations. It is a metaphor for life. A.A. Gill delights in decoding what lies behind the food on our plates: famously, his reviews are as much ruminations on society at large as they are about the

restaurants themselves. So alongside the concepts, customers and cuisines, ten years of writing about restaurants has yielded insights on everything from yaks to cowboys, picnics to politics. TABLE TALK is an idiosyncratic selection of A.A. Gill's writing about food, taken from his Sunday Times and Tatler columns. Sometimes inspired by the traditions of a whole country, sometimes by a single ingredient, it is a celebration of what great eating can be, an excoriation of those who get it wrong, and an education about our own appetites. Because it spans a decade, the book focuses on A.A. Gill's general dining experiences rather than individual restaurants - food fads, tipping, chefs, ingredients, eating in town and country and abroad, and the best and worst dining experiences. Fizzing with wit, it is a treat for gourmands, gourmets and anyone who relishes good writing.

Using werewolves and Wernher von Braun, Stonehenge and the sex lives of sea corals, aboriginal myths, and an Anglican bishop in this new book, the author weaves variegated information into a glimpse of Earth's closest celestial neighbor, whose mere presence inspires us to wonder what might be out there. Going beyond the discoveries of contemporary science, he presents a cultural assessment of our complex relationship with Earth's lifeless, rocky satellite. As well as offering an engaging perspective on such age old questions as "What would Earth be like without the moon?" he surveys the moon's mythical and religious significance and provokes existential soul searching through a lunar lens, inquiring, "Forty years ago, the first man put his footprint on the moon. Will we continue to use it as the screen onto which we cast our hopes and fears?" Drawing on materials from different cultures and epochs, he walks readers down a moonlit path illuminated by more than seventy-five vintage photographs and illustrations. From scientific discussions of the moon's origins and its chronobiological effects on the mating and feeding habits of animals to an illuminating interpretation of Bishop Francis Godwin's 1638 novel The Man in the Moone, his interdisciplinary explorations recast a familiar object in an original light.

This classic work of analog photojournalism—focusing on the idiosyncratic denizens of an iconic bar in the red-light district of Hamburg, Germany—is now available in a gorgeous new edition that features a tribute by musician and actor Tom Waits. Photographer Anders Petersen was hanging out at a dive bar on the Reeperbahn in Hamburg in 1968 when someone grabbed his camera from the table where he was sitting and started taking pictures. Petersen used the opportunity to photograph the culprit—and the rest of the bar's motley crew of patrons. The resulting project is one of the most revered photobooks of all time, a celebration of a gritty city at the tail end of the sixties, and the cornerstone of Petersen's storied career. The images have become classics of their genre; Tom Waits used one for the cover of his legendary album Rain Dogs. Their candidness and authenticity remain as eloquent today as when they were first published in 1978. This sumptuously produced reissue features a new foreword by Waits, and is certain to find a new audience, who will appreciate the stunning analog photography and its elegiac collective portrait of the fringes of society.

No single service provided photographers with a complete set of tools that allowed them to connect with others in a rich, meaningful way-until now. Unlike other social networks, Google+ allows photographers to upload, personalize, and update images easily. The Google+ interface is intuitive and attractive-images appear large and uncropped in the stream, preserving their original integrity; and the infinite scrolling feature creates a fluid, enjoyable photo browsing experience. In addition, the Google+ interface is built to encourage social interaction, not in miniature sound bites, but in full-length discussions with diverse groups of people. Users can build circles to connect with just those they want to include in different conversations, and they can use the Hangouts feature to talk with other users in real time from anywhere in the world. With this book, you'll see why Google+ has quickly become the most inspiring and interactive social network for photographers, and you'll learn how to leverage Google+ to build a following and connect with other photographers-and potential customers. *Mayo Clinic Book of Alternative Medicine* Random House Value Publishing Charles V, Emperor of Europe and the New World, is the central figure in the second volume of Hugh Thomas's great history of the Spanish Empire. It begins with the return of the remnants of Magellan's expedition around the world in 1522 and ends with Charles's death in 1558. In the decades between, the Spaniards conquer Guatemala, Yucatan, Columbia, Venezuela, Peru and Chile, and control the banks of the mighty River Plate; the audacious conquistador Francisco de Orellana journeys down the Amazon, Cabeza de Vaca walks from Florida to Mexico, Juan Vazquez Coronado pioneers into New Mexico and Hernando de Soto vainly pursues worldly riches in Florida, Mississippi and Georgia. Hugh Thomas writes vividly, conveying the conquerors' almost disbelieving sense of what they were achieving. The discovery and subjugation of so many native peoples raised enormous controversy within Spain about how they should be treated, a debate Thomas explores perceptively, with an eye for resonances have lasted centuries. Hugh Thomas brings alive one of the most extraordinary and influential moments in High Renaissance and world history.
