Nina Raine's Tiger Country is a hospital play that follows a tangle of doctors and nurses in a busy London hospital - from the award-winning author of Tribes. Professionalism and prejudice, turbulent staff romances, ambition and failure collide in this swirling, action-packed drama about an overburdened health service that we all depend on and the dedicated individuals that keep it going. 'Tiger country' is where animal instinct stirs and an irrefutable eye opens. Where we make eye contact with the unknown. Tiger Country was premiered at Hampstead Theatre in 2011 and, following its sell-out

run, was revived there in 2014.

When monsters appear on Earth, Maggie MacKay is on the job. No one is better at hauling the creepy crawlies back where they belong. No one, that is, except Maggie's dad, who vanished in the middle of an assignment. Now, an elf named Killian has shown up with a gig. Seems Maggie's uncle teamed up with the forces of

dark to turn Earth into a vampire convenience store, serving bottomless refills on humans. Ah, family... The only hope for survival lies in tracking down two magical artifacts and a secret that disappeared with Maggie's dad.

Midnight World. In
this first volume

extraordinary tales,

their faith. Yet their
spiritual and cultural
importance can lead to
competition as
religious groups seek

to exclude rivals from Temple Mount/Haram el-practicing potentially Sharif, leading to the sacrilegious rituals in the hallowed space and wish to assert their own claims. Holy places thus create the potential for military, theological, or political clashes, not only between competing religious groups but also between religious groups and secular actors. In War on Sacred Grounds, Ron E. Hassner investigates the causes and properties of conflicts over sites that are both venerated and contested; he also proposes potential means for managing these disputes. Hassner illustrates a complex and poorly understood political dilemma with accounts of the failures to reach settlement at

clashes of 2000, and the competing claims of Hindus and Muslims at Ayodhya, which resulted in the destruction of the mosque there in 1992. He also addresses more successful compromises in Jerusalem in 1967 and Mecca in 1979. Sacred sites, he contends, are particularly prone to conflict because they provide valuable resources for both religious and political actors yet cannot be divided. The management of conflicts over sacred sites requires cooperation, Hassner suggests, between political leaders interested in promoting conflict resolution and religious leaders who can shape the meaning

and value that sacred places hold for believers. Because a reconfiguration of sacred space requires a confluence of political will, religious authority, and a window of opportunity, it is relatively rare. Drawing on the study of religion and the study of politics in equal measure, Hassner's account offers insight into the often-violent dynamics that come into play at the places where religion and politics collide. *The Ultimate Lean and Green Cookbook 2021* All recipes come a detailed list of ingredients, cooking and preparation times, number of servings, easy to follow step-by-step
