If you connect a home theater system to your TV with an optical cable, change the A/V Sync or Audio Delay setting on your home theater system (if available). Audio delay adjustments usually range from 0 millisecond to approximately 250 milliseconds. Check your manual to see if A/V Sync or Audio Delay setting is available on your home theater ...

Sony Bravia Home Theater System

The functionality of the sony bravia surround system is very poor. The only good thing about this receiver is the picture quality! it sounded ok for watching movies (maybe 3 out of 5 stars), but if you ever plan to listen to a cd dont bother! A \$20 walmart boom box would sound far superior.
