The line began forming after eight o'clock. Sal, short and heavy-set, kept everyone busy. Neat, in a white shirt and sports jacket, with his grey fedora cocked to the side, his crooked grin made you smile. Without warning the heavy door would swing open and the waiters would come outside to join him. They were dressed in pajamas or prison garb, with hats and horns, and were there to warm up the crowd. Some in line expected this, others were shocked. The pink polka dot building should have been a warning. Complete strangers in line became chummy, exchanging stories they had heard; toilet seat covers to serve drinks on, microphones in the ladies room, toilet paper for napkins. Most had brought their friends there to be roasted. The line of people varied in age. They all dressed casually because they'd heard you could get a pie in the face or a squirt in the eye. The club's routines were blue in color, but harmless. If you were lucky you might see a "Balls for the Queen" or a "Singing beer." The price was always right for a good time and Warm Beer and Lousy Food was the place to be.

For over 35 years Roy Lanchester has been one of Britain's motoring journalists. In that time he has driven, dined, drunk and laughed, all at other people's expense. In this memoir he looks back at his life and career, from his early days as a cub reporter, through his halcyon time as a Fleet Street motoring hack in the 1980s, up to his reign as one of the country's best-known and thirstiest regional journalists. Roy has always been notoriously outspoken and he holds back nothing in this book, which includes tales of his failed marriages, his rows with press officers, and his incident with Nigel Mansell, although the lawyers later asked for this to be removed. If you've ever wondered what it takes to forge a career writing about cars in the face of setbacks, cutbacks and uncooperative barmen, *How To Be A Motoring Journalist* will tell you everything you want to know, and some things you don't. "'Twas the night before Christmas, when all through the house, Not a creature was stirring, not even a mouse..." The Christmas Tree Bucket is a modern-day Christmas story with a dark edge. A wordless narrative, Parke's story is an ironic take on the

typical Australian suburban Christmas. He photographs friends and family, and casts them in a twisted tale that merges fact and fiction. The viewer is left to make imaginative sense of images of barbecues, screaming children, a burning gingerbread house, and even the photographer himself vomiting into the infamous Christmas Tree Bucket. Says Parke: "It was there--while staring into that bright red bucket, vomiting every hour on the hour for fifteen hours straight--that I started to think how strange families, suburbia, life, vomit and in particular, Christmas really was..." Merry Christmas! Trent Parke, born in Newcastle, Australia, in 1971, joined Magnum Photos in 2002 and has been a full member since 2007. Parke has exhibited internationally and has received numerous awards including World Press Photo Awards in 1999, 2000, 2001 and 2005, and the W. Eugene Smith Grant in Humanistic Photography in 2003. His publications include *Dream / Life* (1999), *The Seventh Wave* with Narelle Autio (2000), *Bedknobs & Broomsticks* (2010), and the highly anticipated *Minutes to Midnight*, also to be published this season by Steidl. Surrounded on all borders but its western coastline by hostile and aggressive neighbors, the state of Israel resembles the walled city of the Middle Ages. But its walls are not stone and mortar, they are flesh and blood—they are the soldiers, both men and women—the airmen, the intelligence, the tankscorpsmen and the paratroops. These young people—from the old ghettos of Europe, from the cities of North Africa and Asia, native-born Sabras—are the protecting wall that keeps Israel free. The Walls of Israel is Jean Larté guy 's fascinating 1968 study of the Israeli armed forces. Talking with them, living with them, joining in their operations (he was taken along on a nighttime ambush set up to catch Syrian infiltrators), Larté guy got to know the Israeli soldier as few could. From this book, wide ranging and filled with lively

anecdotes, emerges a picture of an army, tough and determined, yet intelligent and realistic enough to foresee a long and dangerous road ahead before a peace is won. The Christmas Tree Bucket W H Freeman & Company In a complex world, products that are easy to use win favor with consumers. This is the first book on the topic of simplicity aimed specifically at interaction designers. It shows how to drill down and simplify user experiences when designing digital tools and applications. It begins by explaining why simplicity is attractive, explores the laws of simplicity, and presents proven strategies for achieving simplicity. Remove, hide, organize and displace become guidelines for designers, who learn simplicity by seeing before and after examples and case studies where the results speak for themselves.
