Since the first EcoDesign International Symposium held in 1999, this symposium has led the research and practices of environmentally conscious design of products, services, manufacturing systems, supply chain, consumption, as well as economics and society. EcoDesign 2011 - the 7th International Symposium on Environmentally Conscious Design and Inverse Manufacturing - was successfully held in the Japanese old capital city

of Kyoto, on November 30th – December 2nd, 2011. The subtitle of EcoDesign 2011 is to “ design for value innovation towards sustainable society. ” During this event, presenters discussed the way to achieve both drastic environmental consciousness and value innovation in order to realise a sustainable society.

Whether we like it or not, communication technologies - ever smaller, more convergent, and more comprehensive - are tightly woven into the cultural fabric of our everyday lives. How did we get here? And what exactly does it mean to be 'literate' in this new media era? "Media Literacies: A Critical Introduction" traces

---

the history of media literacy and grapples with the fresh challenges posed by the convergent media of the twenty-first century. The book explores the history and emergence of media education, contemporary youth and its digitally mediated lives, digital literacy, and critical citizenship. Sidebar commentary written by leading media researchers and educators spotlights specific issues and media phenomena. "Media Literacies" provides students and educators alike with an invaluable theoretical and practical approach to understanding media literacy in the remarkable digital age we find ourselves in.

The international conference on Automation and Robotics-ICAR2011 is held during December 12-13, 2011 in Dubai, UAE. The proceedings of ICAR2011 have been published by Springer Lecture Notes in Electrical Engineering, which include 163 excellent papers selected from more than 400 submitted papers. The conference is intended to bring together the researchers and engineers/technologists working in different aspects of intelligent control systems and optimization, robotics and automation, signal processing, sensors, systems modeling and control, industrial engineering, production and management. This part of proceedings includes 81 papers contributed by many researchers in relevant topic areas covered at ICAR2011 from various countries such as France, Japan, USA, Korea and China etc. Many papers introduced their advanced research work recently; some of them gave a new solution to problems in the field, with powerful evidence and detail demonstration. Others stated the application of their designed and realized systems. The session topic of this proceeding is intelligent control and robotics and automation, which includes papers about Distributed Control Systems, Intelligent Fault Detection and Identification, Machine Learning in Control, Neural Networks based Control Systems, Fuzzy Control, Genetic Algorithms, Robot Design,

Human-robots Interfaces, Network Robotics, and Autonomous Systems, Industrial Networks and Automation, Modeling, Simulation and Architectures, Vision, Recognition and Reconstruction, Virtual Reality, Image Processing, and so on. All of papers here involved the authors' numerous time and energy, will be proved valuable in their research field. Sincere thanks to the committee and all the authors, moreover anonymous reviewers from many fields and organizations. That is a power for all of us to go on research work for the world.

The newest darling in the world of baking -- the classic French pastry has been embraced by a whole new generation of bakers. Making this classic at home is much easier than you think. And it's made easy by the fact that it's written by one of Europe's top pastry chefs, Christophe Adam. With its straightforward approach, full color pages and hundreds of step-by-step photos, it's as though Christophe were by your side giving you a lesson in your home kitchen. Over the last dozen years, Christophe has perfected the éclair and has turned it into a gourmet delight which marries unconventional and imaginative fruits, flavors, colors and textures, resulting in luxe éclairs that

will have you reaching for seconds and thirds. Christophe has created 25 innovative recipes (both introductory and advanced) that will be perfect for everything from casual gatherings with family and friends, to formal celebrations. With these easy-to-follow instructions and some practice with the basic techniques you'll soon be mastering these recipes as well as inventing new ones of your own. Some of Christophe's creations include Chocolate Popping Sugar Eclairs, Hazelnut Praline, Caramel-Peanut, Lemon, Cherry-Raspberry Sugared Almond Eclairs, Fig Eclairs, Pistachio-Orange Eclairs, Vanilla Eclairs, Raspberry-Passion Fruit Eclairs and Hazelnut Mix Eclairs. A complete list of utensils, a few simple rules and invaluable tips and techniques are sprinkled throughout and will be hugely appealing to novice and experienced bakers. The open source nature of the platform has not only established a new direction for the industry, but enables a developer or forensic analyst to understand the device at the most fundamental level. Android Forensics covers an open source mobile device platform based on the Linux 2.6 kernel and managed by the Open Handset Alliance. The Android platform is a major source of digital forensic investigation and analysis. This book provides a thorough

review of the Android platform including supported hardware devices, the structure of the Android development project and implementation of core services (wireless communication, data storage and other low-level functions). Finally, it will focus on teaching readers how to apply actual forensic techniques to recover data. Ability to forensically acquire Android devices using the techniques outlined in the book Detailed information about Android applications needed for forensics investigations Important information about SQLite, a file based structured data storage relevant for both Android and many other platforms.

Macho werden ist nicht schwer, Macho sein dagegen sehr Weichei! – Das ist das Letzte, was Robert Süßmilch von seiner Freundin zu hören bekommt. Damit hat er alles, was ein erfolgreicher Mittdreißiger nicht braucht: eine gescheiterte Beziehung und einen schlecht bezahlten Job. Er beschließt, seiner Exfreundin zu beweisen, dass aus dem vermeintlichen Weichei ein harter Kerl geworden ist. Nach gescheiterten Selbstversuchen auf grotesken Partys, im Rotlichtmilieu und beim Speeddating scheint sein Vorhaben zu scheitern – bis ihm das Schicksal die

Tür zur Verwirklichung seines Traums öffnet. Allerdings nur so weit, dass eine einzige Lüge hindurchpasst. Eine Lüge, deren Folgen er nicht absehen kann ...

There are many Android programming guides that give you the basics. This book goes beyond simple apps into many areas of Android development that you simply will not find in competing books. Whether you want to add home screen app widgets to your arsenal, or create more complex maps, integrate multimedia features like the camera, integrate tightly with other applications, or integrate scripting languages, this book has you covered. Moreover, this book has over 50 pages of Honeycomb-specific material, from dynamic fragments, to integrating navigation into the action bar, to creating list-based app widgets. It also has a chapter on using NFC, the wireless technology behind Google Wallet and related services. This book is one in CommonsWare's growing series of Android related titles, including "The Busy Coder's Guide to Android Development," "Android

“ More people recognize the importance of Allyship—and that ’ s great. Unfortunately, many men still don ’ t know what they need to do to effect change so everyone feels valued and empowered at work. In Showing Up, Ray Arata provides clear guidance on how to turn good intentions into action. I strongly recommend it to everyone interested in helping create a more equal and productive workplace. ” —Sheryl Sandberg, COO of Facebook and founder of LeanIn.Org and OptionB.Org Showing Up is a revolutionary step-by-step guide—by and for men—to end toxic masculinity and enact heart-based leadership, increase diversity, bolster the bottom line, and create a workplace culture where everyone wins. The Time's Up, Me Too, and Black Lives Matter

movements have sounded a wake-up—especially for men. Organizations worldwide now realize the critical importance of diversity, equity, and inclusion (DEI) for underrepresented people. It's abundantly clear: the default model of masculinity isn't working for anyone. But for a new and healthier infrastructure, for permanent and transformational shifts, we need a plan that includes men. In *Showing Up*, Ray Arata details the proven methods he's shared with such companies as Verizon, Bloomberg, Moody's, Intel, Toyota, Hearst, and more, teaching men to

- Embrace healthy masculinity as a cornerstone of inclusionary leadership;
- Identify unhealthy masculine behaviors in the workplace—like mansplaining, maninterrupting, and manopolizing;
- Adopt behavior modifications aligned with being an inclusive leader and ally;
- Incorporate specific language to use in healthy discussions; and
- Leverage power and position to elevate underrepresented groups.

The revised and extended papers collected in this volume represent the cutting-edge of research at the nexus of electrical engineering and intelligent systems. They were selected from well over 1000 papers submitted to the high-profile international World Congress on Engineering held in London in July 2011. The chapters cover material across the full spectrum of work in the field, including computational intelligence, control engineering, network management, and wireless networks. Readers will also find substantive papers on signal processing, Internet computing, high performance computing, and industrial applications. The Electrical Engineering and Intelligent Systems conference, as part of the 2011 World Congress on Engineering was organized under the auspices of the non-profit International Association of Engineers (IAENG). With more than 30 nations

represented on the conference committees alone, the Congress features the best and brightest scientific minds from a multitude of disciplines related to engineering. These peer-reviewed papers demonstrate the huge strides currently being taken in this rapidly developing field and reflect the excitement of those at the frontiers of this research.

Once the treasured piece of the elite class, mobile phones have now become a prerequisite of every commoner. From schoolchildren to pensioners, from bureaucrats to fruit vendors, all depend greatly on their mobile phones. The reason can be given to its impeccable potential to perform various applications efficiently, within no time. This book on Mobile Commerce gives an in-depth insight on the role of a mobile in revolutionizing various industry verticals, specifically business and commerce. The book shows the evolution of a mobile phone from a mere gadget meant for communication to a smarter one performing business transactions. The book is divided into seven parts segregated as—Basic concepts, Technology, Key players, Key products, Security of legal aspects, the Future trends and the Case studies. The book also discusses various technologically advanced handheld devices, like Smartphones, PDA's, Laptops, Tablets and Portable gaming consoles, in detail. Besides, the basic technology and concepts involved in mobile commerce is discussed comprehensively. The key

concepts, like mobile marketing, mobile ticketing, mobile computing, mobile payments and mobile banking are discussed vis-a-vis latest technologies, like wireless and mobile communication technology, digital cellular technology, mobile access technology and 4G and 5G systems. The book also throws light on the issues, such as mobile security hazards, and the necessary measures to protect the same. A chapter is devoted to laws governing the mobile phone usage and its privacy. The Case Studies are provided elucidating the role of mobile commerce in the real-life scenarios. This book is intended for the undergraduate and postgraduate students of Communication Engineering, Information Technology and Management.
