A 2014 Garden Writers Association Media Award Winner Just as he demystified the soil food web in his ground-breaking book *Teaming with Microbes*, in this new work Jeff Lowenfels explains the basics of plant nutrition from an organic gardener’s perspective. Most gardeners realize that plants need to be fed but know little or nothing about the nature of the nutrients and the mechanisms involved. In his trademark down-to-earth, style, Lowenfels explains the role of both macronutrients and micronutrients and shows gardeners how to provide these essentials through organic, easy-to-follow techniques. The IRS code has hampered the industry, and many fledging dispensary and cultivation facility owners have been faced with ruinous audits, large tax bills, and very few places to turn to get help in reducing the tax burden created by IRS §280E. This book explains how to maximize capitalization of costs, and deals with IRS §263A as well helping newcomers to the business understand how to create costing methods that will withstand scrutiny by the IRS. Within the book is a thorough explanation of this particular tax code along with a number of recommendation on how to reduce its impact. Also included in the book are 7 business cases with income statements, balance sheets, a narrative, and prepared tax returns with notes on how to handle these tax issues.
