The book covers various aspects of dairying and milk products such as dairy farm establishment, management, production and utilisation of various dairy products.

Information has been included on various aspects of dairy farming starting with selection and purchase of dairy cattle, their care and management, with respect to housing, feeding, breeding and health care during various physiological states such as growth, pregnancy and lactation and during different seasons. Details of health care management along with common diseases have been covered with all information required for educated farmers and technicians working in these areas. Various means for consistent improvement of the stock has also been included. Production of clean milk, its procurement, processing and distribution has been covered with more emphasis on common processing technologies such as pasteurisation and sterilisation. Different forms of liquid milk available in the market has been described along with its standards and other specifications for the knowledge of common man and technicians. Manufacturing

methods of milk products have been included with appropriate flow chart wherever required and various categories of milk products have been covered in detail under different chapters under milk products. This book has been prepared with emphasis on second year syllabus of Vocational higher secondary course on milk products and dairying and considering the lack of a suitable textbook for this subject. Hence the book is expected to fill the gap of a textbook for the above said and similar courses. Also the book may be accepted as a textbook/manual for educated farmers, other teaching and training programmes covering similar syllabus like that of dairy farm instructors and as a handbook for Veterinary Students and Dairy Extension Officers. With these introductory notes, we presume that the book will satisfy its readers' requirements and form a valuable textbook/reference book for all those concerned with dairy animal production and utilisation of their products ultimately benefiting the farming community.

Taryn Clark thought she'd outgrown the need to find her birth mother. She thought that a successful career and a comfortable life in the city were enough to be happy. Did she really need to know about the woman who had given her away? Adopted at birth, her first few years were happy. It hadn't mattered that she didn't know her heritage; she had parents who loved her and wanted her. But divorce, and then death, ripped their tiny family apart, and at the tender age of six, she entered the foster care system. Over the next dozen years, she shuffled from home to home. Finding her roots seemed an impossible dream. But dreams are resilient. An unexpected discovery awakens old yearnings of belonging to a family, of being part of something bigger than herself. Finding the brief, ambiguous note from her birth mother is enough to unfurl the ribbons of hope still binding her heart. Her quest takes her to Lancaster County, Pennsylvania and the heart of the Plain community. Aided by her unique eye color, a healthy dose of luck, and the private investigator she hires, Taryn finds her birth family easily enough, but finding the truth is another matter. In all her musings, she never imagined a scenario where her mother might be Amish. She never imagined that the fabric of her life might be a patchwork of faith and fear, stitched together with a dark family secret. Taryn is determined to trace her roots, even if it means digging in the mud to do so. Now she's caught in the quicksand of a shocking discovery and the consequences of choices made, almost forty years ago. She'll risk everything to uncover the truth and to claim the family--and the roots--she so desperately craves.
