The book was created over the years of true stories of what happened to a family that some will say no way could happen. I promise you; there is no way this stuff could ever be made up! One person in the family loved the stories and could always tell them as they happened and pretend to be each person in every occurrence. The family had encouraged this person for years to write the stories into a book so others could laugh as well. It seemed all stories you could buy in this day and time were

---

criminal fast pace stories, sad stories, love stories, murders, trials; well, you get the idea. It was time for a humorous book that was about real people and real stories that were honestly true. You will notice the family has a huge heart for animals and people in need, and sometimes their huge heart for animals could cause them lack of sleep but they never seemed to mind to help with some of God's chores. They were laboring, working-class people who were as honest as the day is long. They kept their nose in their own business even though they may not understand some of the stuff that was going on with their neighbors. It still was none of their business. What was their business however, was taking care of grandkids, great-grandkids, and all the animals that made up the zoo there on the farm and all the fun stuff that came along with it. They were not ashamed to tell their stories. It happens to everyone; some people want to act like it never happens to them. I promise you at some time in your life, you will step into some dog poop.

As the incidence of violent crime rises in the United States, so does the public demand for a solution. But what will work? Mark S. Fleisher has spent years among inmates in jails and prisons and on the streets with thieves, gang members, addicts, and life-long criminals in Seattle and other cities across the country. In *Beggars and Thieves*, he writes about how and why they become and remain offenders, and about the actual role of jails and prisons in efforts to deter crime and rehabilitate criminals. Fleisher shows, with wrenching firsthand accounts, that parents who are addicts, abusers, and criminals beget irreversibly damaged children who become addicts, abusers, and criminals. Further, Fleisher contends that many

well-intentioned educational and vocational training programs are wasted because they are offered too late to help. And, he provides sobering evidence that many youthful and adult offenders find themselves better off in prison—with work to do, medical care, a clean place to sleep, regular meals, and stable social ties—than they are in America's cities. Fleisher calls for anti-crime policies that are bold, practical, and absolutely imperative. He prescribes life terms for violent offenders, but in prisons structured as work communities, where privileges are earned through work in expanded, productive industries that reduce the financial burden of incarceration on the public. But most important, he argues that the only way to prevent street crime, cut prison growth, and reduce the waste of money and human lives is to permanently remove brutalized children from criminal, addicted, and violent parents.
