Football, mechanical dragons, industrial espionage, sexy romance. Welcome to fall in Ann Arbor. Eden Randall has her life under control. Sure, people call her weird for having a mechanical dragon with her at all times, but she ' s content. All she needs are her studies and her sports—and for the football team to have another undefeated season. What she doesn ' t need are nosy men from out-of-town poking into her business. Spending months in a tiny town shadowing the football team is the last thing Boston reporter Bruce

Caldwell wants to do, but the tedious job could be his ticket to something bigger and better. When he meets a sports-mad spitfire on the sidelines, he realizes the town may hold stories far more interesting than he expected. With dragons running loose in the laboratory and a ruthless New York industrialist threatening their budding friendship, Eden and Bruce find themselves players in a game far more dangerous than the one on the gridiron. Never ones to quit, they know the only way to emerge as The Victors is to become a team. This football season, winning might mean losing their hearts.

Awesome 8 Years Old Course Technology With amazing low-light capabilities, incredible definition, intelligent autofocus and a host of other features, digital cameras have now become so powerful that they have left their users behind. In Camera is the perfect way to take your photography to that level; to master your camera, understand light, exposure and composition, and make amazing photographs, whatever your camera, without cheating after the event. One hundred of Gordon's beautiful photos are given with his own expert commentary; full settings and camera details are included, and a host of tips and tricks let photographers of any level learn something from every example. The shots are taken with a wide range of cameras, and the emphasis is on

getting results by improving your own skills, not wasting money on expensive equipment. of the Nazi period. The son of a rabbi, Klemperer was by 1933 a professor of languages in Dresden. Over the next decade he lost his job, his house and many of his friends, even his cat, as Jews were not allowed to own pets. Saved for much of the war from the Holocaust by his marriage to a gentile, he was able to escape in the aftermath of the Allied bombing of Dresden and survived the remaining months of the war in hiding.

Throughout, Klemperer kept a diary, for a Jew in Nazi Germany a daring act in itself. This volume covers the period from the beginnings of the Holocaust to the end of the war, telling the story of Klemperer's increasing isolation, his near miraculous survival, his awareness of the development of the growing Holocaust as friends and associates disappeared, and his narrow escapes from deportation and the Dresden firebombing in 1945. Shocking and moving by turns, it is a remarkable and important document, as powerful and astonishing in its way as Anne Frank's classic.

The second volume of the diaries of Victor Klemperer, a Jew in Dresden who survived the war and whose diaries between 1933 and 1945 have been hailed as one of the most important chronicles of Nazi Germany ever published. A publishing sensation in Germany (where they have sold over 100,000 copies at £ 45), the publication of Victor Klemperer's diaries brings to light one of the most extraordinary documents of the Nazi period. The son of a rabbi, Klemperer was by 1933 a professor of languages in Dresden. Over the next decade he, like other German Jews, lost his job, his house and many of his friends, even his cat, as Jews were not allowed to own pets. He remained loyal to his country, determined not to emigrate, and convinced that each successive Nazi act against the Jews must be the last. Saved for much of the war from the Holocaust by his marriage to a gentile, he
