The Divell is an Asse London : A. & C. Black

"First published in 1925, this book outlined its author's concept of "ley lines," supposed pre-Roman pathways consisting of aligned stone circles, standing stones, and

prehistoric mounds, used for trading and ceremonial purposes during the Neolithic era. Based on his surveys of the Anglo-Welsh border country, Alfred Watkins believed that in ancient times the country was crisscrossed by a network of straight-line travel routes, with prominent features of the landscape used as navigation points.

Watkins's theories have intrigued and inspired generations of readers, from historians to hill walkers, and from amateur archeologists to new-age occultists. This new edition, with a substantial introduction by Robert Macfarlane, and retaining Watkins's original atmospheric black-and-white photographs, introduces a classic antiquarian text to a 21st-century audience. It will

appeal to all who treasure the history, the contours, and the mystery of ancient landscapes." -- from Amazon.com.

the mystical monk and  
bizarre philanderer whose  
role in the demise of the  
Romanovs and the start of  
the revolution can only  
now be fully known. For  
almost a century,

in the downfall of tsarist

Russia. But in 1995 a lost  
file from the State  
Archives turned up, a file  
that contained the  
complete interrogations of

With this extensive and

We live in and from nature, but the way we

have evolved of doing this is about to destroy us. Capitalism and its by-products - imperialism, war, neoliberal globalization, racism, poverty and the destruction of community - are all playing a part in the destruction of our ecosystem. Only now are we beginning to realise the depth of the crisis and the kind of transformation which will have to occur to ensure our survival. This second, thoroughly updated, edition of The

Enemy of Nature speaks to this new environmental awareness. Joel Kovel argues against claims that we can achieve a better environment through the current Western 'way of being'. By suggesting a radical new way forward, a new kind of 'ecosocialism', Joel Kovel offers real hope and vision for a more sustainable future.

Plateaus is part of Deleuze and Guattari's landmark philosophical project, *Capitalism and Schizophrenia* - a project that still sets the terms of contemporary philosophical debate. A *Thousand Plateaus* provides a compelling analysis of social phenomena and offers fresh alternatives for thinking about philosophy and culture. Its radical perspective provides a toolbox for 'nomadic thought' and has had a galvanizing influence on today's anti-capitalist movement.

Spanning the globe and the centuries, Frances Karttunen tells the stories of sixteen men and women who served as interpreters and guides to conquerors, missionaries, explorers, soldiers, and anthropologists. These interpreters acted as uncomfortable bridges between two worlds; their own marginality, the fact that they belonged to neither world, suggests the

---

complexity and tension between cultures meeting for the first time. Some of the guides were literally dragged into their roles; others volunteered. The most famous ones were especially skilled at living in two worlds and surviving to recount their experiences. Among outsiders, the interpreters found protection, sustenance, recognition, intellectual companionship, and employment, yet most of the interpreters ultimately suffered tragic fates. *Between Worlds* addresses the broadest issues of cross-cultural encounters, and gives them a human face. *Everybody's Political What's What?* A&C Black
