The Last Soulkeeper The Soulkeepers struggle to survive in an increasingly deadly world while continuing to defend human souls. How far will they go when saving the world means sacrificing their most precious team member? Soulkeeper Apprenticed to the infamous Necromancer of Boston while on the brink of death, Daniel Macavoy has seen a lot of upheaval in his life since that fateful day. Rescued from an abusive father and the monster he was once enslaved by, Daniel has struggled with the traumas that scarred his heart and mind. Yet with the love and support of his found family, Daniel has become stronger than he ever imagined. A capable sorcerer, he's been entrusted with the ancestral home of the Salvatores, the legendary site of the Massacre that brought an end to the centuries-long Blood Wars between the Salvatores and the Macavoyes. The huge Mansion is a testament to old-school magic, high sorcery, and comes with a history almost as impressive as the enigmatic fae warrior who calls the gardens home. A member of the nearly extinct High Court Sidhe, Rory remembers when humans climbed down from trees and learned to stand upright. After eons spent hand in hand with his twin, Cian, Rory was struck down by a near-fatal sword blow; he slept for centuries only to be resurrected by the Necromancer of Boston. Once awakened, Rory lost his twin to a mortal prison, sentenced for heinous crimes committed in an effort to save Rory while he slept. Once worshipped as a god, Rory Brennan is learning what it means to exist in a modern mortal world. Rory finds that for the very first time, true love has found its way into his immortal heart. Daniel and Rory grow closer, love springing to life in the narrowing space between them. But their nascent bond is threatened by strangers attempting to break into the Mansion, and by the ever-growing danger to Rory's twin Cian, locked in the depths of Blackguard Prison. With the danger increasing from all sides, Daniel and Rory struggle to balance surviving with falling in love. A dragon with a growth spurt isn't helping matters, and his mentor's watchful eye makes things both more awkward and potentially lethal. LOVE SPRINGS ETERNAL is the fifth book in the bestselling Beacon Hill Sorcerer series and should not be read as a standalone. **Python 101 Flirt** This volume provides the first comparative survey of the relations between the two most active book worlds in Eurasia between 1450 and 1850. Prominent scholars in book history explore different approaches to publishing, printing, and book culture. They discuss the extent of technology transfer and book distribution between the two regions and show how much book historians of East Asia and Europe can learn from one another by raising new questions, exploring remarkable similarities and differences in these regions' production, distribution, and consumption of books. The chapters in turn show different ways of writing transnational comparative history. Whereas recent problems confronting research on European books can instruct researchers on East Asian book production, so can the privileged role of noncommercial publications in the East Asian textual record highlight for historians of the European book the singular contribution of commercial printing and market demands to the making of the European printed record. Likewise, although production growth was accompanied in both regions by a wider distribution of books, woodblock technology's simplicity and mobility allowed for a shift in China of its production and distribution sites farther down the hierarchy of urban sites than was common in Europe. And, the different demands and consumption practices within these two regions' expanding markets led to different genre preferences and uses as well as to the growth of distinctive female readerships. A substantial introduction pulls the work together and the volume ends with an essay that considers how these historical developments shape the present book worlds of Eurasia. "This splendid volume offers expert new insight into

the ways of producing, financing, distributing, and reading printed books in early modern Europe and East Asia. This is comparative history at its best, which leaves us with a better understanding of each context and of the challenges common to book cultures across space and time." —Ann Blair, author of Too Much to Know: Managing Scholarly Information before the Modern Age and professor of history, Harvard University "This engrossing account of the history of the book by leading specialists on the European and East Asian publishing worlds takes stock of what we know—and how much we still need to know—about the places that books had in the lives of our early modern forebears. Each chapter is masterful state-of-the-field coverage of its subject, and together they set a new standard for future studies of the book, East and West." —Timothy Brook, author of The Troubled Empire: China in the Yuan and Ming Dynasties

Puzzling, disturbing rumors have reached Port Kar. Tarl Cabot, warrior and merchant, pirate and slaver, once of Earth, now of Gor, learns that the Farther Islands, Thera, Daphna, and Chios, west of the Island Ubarates of Cos and Tyros, are being bloodily and systematically ravaged by corsairs supposedly led by himself, by Bosk of Port Kar, as he is commonly known. How could this be? What is one to make of it? Why would so cruel and outrageous a hoax, apparently pointless, be perpetrated? Who would dare to do so? And, in the meantime, shipping is assailed and towns and villages are looted and burned. Tarl Cabot will investigate. He will seek vengeance. His quest will carry him to the taverns and palaces of corrupt, luxurious, decadent Sybaris, on Thera, where life is cheap and collared slave girls plentiful, where ruthless corsairs live by the sword and whip, and into strange and dangerous waters teeming with predatory vessels and monstrous sea life. As the mystery is unraveled, bit by bloody bit, he discovers that its threads may reach far beyond the Farther Islands.

Three lives collide on an island off India: "An engrossing tale of caste and culture... introduces readers to a little-known world." —Entertainment Weekly Off the easternmost coast of India, in the Bay of Bengal, lies the immense labyrinth of tiny islands known as the Sundarbans. For settlers here, life is extremely precarious. Attacks by tigers are common. Unrest and eviction are constant threats. At any moment, tidal floods may rise and surge over the land, leaving devastation in their wake. In this place of vengeful beauty, the lives of three people collide. Piya Roy is a marine biologist, of Indian descent but stubbornly American, in search of a rare, endangered river dolphin. Her journey begins with a disaster when she is thrown from a boat into crocodile-infested waters. Rescue comes in the form of a young, illiterate fisherman, Fokir. Although they have no language between them, they are powerfully drawn to each other, sharing an uncanny instinct for the ways of the sea. Piya engages Fokir to help with her research and finds a translator in Kanai Dutt, a businessman from Delhi whose idealistic aunt and uncle are longtime settlers in the Sundarbans. As the three launch into the elaborate backwaters, they are drawn unawares into the hidden undercurrents of this isolated world, where political turmoil exacts a personal toll as powerful as the ravaging tide. From the national bestselling author of Gun Island, *The Hungry Tide* was a winner of the Crossword Book Prize and a finalist for the Kiriyama Prize. "Sibao today is a cluster of impoverished villages in the mountains of western Fujian. Yet from the late seventeenth through the early twentieth century, it was home to a flourishing publishing industry. Through itinerant booksellers and branch bookshops managed by Sibao natives, this industry supplied much of south China with cheap educational texts, household guides, medical handbooks, and fortune-telling manuals. It is precisely the ordinariness of Sibao imprints that make them valuable for the study of commercial publishing, the text-production process, and the geographical and social expansion of book culture in Chinese society. In a study with important implications for cultural and economic history, Cynthia Brokaw describes rural, lower-level publishing and bookselling operations at the end of the imperial period. Commerce in Culture traces how the poverty and isolation of Sibao necessitated a bare-bones approach to publishing and bookselling and how the Hakka identity of the Sibao publishers shaped the configuration of their distribution networks and even the nature of their publications. Sibao ' s industry reveals two major trends in print culture: the geographical extension of commercial woodblock publishing to hinterlands previously untouched by commercial book culture and the related social penetration of texts to lower-status levels of the population."

GIRLINTHEWOODSREVIEWS blog. AMERICAN GHOUL tells the story of seventeen-year-old Howard Pickman, a boy with odd problems. He just got dumped into the worst high school in the state of New Jersey, but that's nothing compared to his secret family history of digging up corpses for dinner. This is a novel filled with the creepy funkiness of the 1970s, a bygone age of punk rock, bad disco and muscle cars roaring through hot summer nights. AMERICAN GHOUL explores the good times of teenage friendships and the darkness at the heart of American youth. It's a fun, scary, and zany look at a time when being a teenager was so dangerous you just might have to be a monster in order to survive. AMERICAN GHOUL is recommended for readers comfortable with "R" rated language. If you lived through the 1970s, a few flashbacks are guaranteed, both pleasant and shocking.

Despite the importance of books and the written word in Chinese society, the history of the book in China is a topic that has been little explored. This pioneering volume of essays, written by historians, art historians, and literary scholars, introduces the major issues in the social and cultural history of the book in late imperial China. Informed by many insights from the rich literature on the history of the Western book, these essays investigate the relationship between the manuscript and print culture; the emergence of urban and rural publishing centers; the expanding audience for books; the development of niche markets and specialized publishing of fiction, drama, non-Han texts, and genealogies; and more.
