Now in paperback, this first novel of an epic fantasy trilogy reintroduces readers to the beloved and bestselling world of Deverry, blending magic, politics, and adventure in an unforgettable setting.

The bards are the people's voice--and their sword. All over the kingdom of Deverry, the common people are demanding reform of the corrupt law courts. In Aberwyn, the situation catches fire when Gwerbret Ladoic, second in authority only to the High King, allows a bard to starve to death rather than hear their grievances.

Guildwoman Alyssa, a student at the local scholars' collegium, and Lady Dovina, the gwerbret's own daughter, know that evidence exists to overthrow the so-called traditional legal system, if they can only get it into the right hands. The powerful lords will kill anyone who threatens their privileges. To retrieve the proof, Alyssa must make a dangerous journey that will either change her life forever--or end it.

Mankind's history has been determined by war. And throughout history, the way that wars are won and lost, and whether they are fought at all, has been determined more by weapons than any other single force. Before there was man, there were weapons. In his investigation of arms and culture, noted military historian Robert O'Connell goes all the way back to the first weapons: the claws, horns, and hooves of our evolutionary antecedents. Even then, a species' weaponry determined its future. So it has been for the human animal. From the ancient Assyrians' conquest of bronze, to the Toledo steel of the Spanish conquistadors, to the MIRV missiles of nuclear deterrence, the great weapons have set their own agendas. They continue to shape our culture and our lives today. **THE SOUL OF THE SWORD** gives world

history from a club, gun, or aircraft carrier's perspective. Along the way, sidebars and drawings from premier military illustrator John Batchelor illuminate the weapons themselves. In this fascinating book O'Connell unearths the extraordinary weapons of our past, and explains our most basic weapons as never before. Our killing tools are much more than fearsome curiosities; they are the engines of history.

This book is about conquering fear. Roshi Kitabu (writing as Vernon Kitabu Turner) knows from personal experience how to overcome fear. As a child, he cowered before neighbourhood bullies until finally he was driven to find his courage because he had to defend his brother. From that point he resolved to help anyone in need, and began to study martial arts. As a result of an extraordinary act of synchronicity, he met a Japanese Zen master, and shortly afterwards experienced an epiphany (satori), by which he understood that it is the soul that controls the body: 'in a blaze of light, I immediately understood the secret of self-defense from the inside out.' With virtually no training in the martial arts, he became a master - and after a sensational 'trial by combat' he was made a 'black belt'. Roshi Kitabu shares his secret - and explains that this power exists in everyone. He shows the steps that must

be taken to cultivate the Warrior Mind - involving a direct flow from the Soul (your inherent spiritual power) into action. 'Before you can begin to control a possible assailant, you must take control of your thoughts. A warrior must believe in his ability to win.' This has become a truism for all serious practitioners of martial arts - but its message applies equally to all the obstacles that one encounters in life: truly the soul houses the sword. Through diligent practice, we can sharpen ourselves to a razor's edge and learn to cut through any obstacle as it arises.
