Thomas speaks out, revealing the pieces of his life he holds dear, detailing the suffering and injustices he has overcome, including the acrimonious and polarizing Senate hearing involving a former aide, Anita Hill, and the depression and despair it created in his own life and the lives of those closest to him. In this candid and deeply moving memoir, a quintessential American tale of hardship and grit, Clarence Thomas recounts his astonishing journey for the first time.

*Doomed to Fail* explores the heaviest music the world has ever heard, tracing doom, sludge, and post-metal as their own distinct (and incredibly loud) traditions. Anselmi covers the bands and musicians that have impacted those styles most--Black Sabbath, Candlemass, Melvins, Eyehategod, Godflesh, Neurosis, Saint Vitus, and many others--while diving into the cultural doom that has spawned such music, from the bombing of Birmingham and hurricane devastation of New Orleans to glaring economic inequality, industrial alienation, climate change, and widespread addiction. Along the way, Anselmi interweaves the musical experiences that have led him to proudly identify as one of the doomed.

This bracing new nonfiction book by the young superstar Édouard Louis is both a searing j'accuse of the viciously entrenched French class system and a wrenchingly tender love letter to his father. This bracing new nonfiction book by the young superstar Édouard Louis is both a searing j'accuse of the viciously entrenched French class system and a wrenchingly tender love letter to his father. Who Killed My Father rips into France's long neglect of the working class and its overt contempt for the poor, accusing the complacent French—at the minimum—of negligent homicide. The author goes to visit the ugly gray town of his childhood to see his dying father, barely fifty years old, who can hardly walk or breathe: "You belong to the category of humans whom politics consigns to an early death." It's as simple as that. But hand in hand with searing, specific denunciations are tender passages of a love between father and son, once damaged by shame, poverty and homophobia. Yet tenderness reconciles them, even as the state is killing off his father. Louis goes after the French system with bare knuckles but turns to his long-alienated father with open arms: this passionate combination makes *Who Killed My Father* a heartbreaking book.

### **A Journey Through the Landscape of Progressive Rock** Penguin

A legendary record producer and performer takes readers on an alphabetical journey of insights into the music of the Beatles and individual

remiscences of John, Paul, George, and Ringo. Peter Asher met the Beatles in the spring of 1963, the start of a lifelong association with the band and its members. He had a front-row seat as they elevated pop music into an art form, and he was present at the creation of some of the most iconic music of our times. Asher is also a talented musician in his own right, with a great ear for what was new and fresh. Once, when Paul McCartney wrote a song that John Lennon didn't think was right for the Beatles, Asher asked if he could record it. "A World Without Love" became a global No. 1 hit for his duo, Peter & Gordon. A few years later Asher was asked by Paul McCartney to help start Apple Records; the first artist Asher discovered and signed up was a young American singer-songwriter named James Taylor. Before long he would be not only managing and producing Taylor but also (having left Apple and moved to Los Angeles) working with Linda Ronstadt, Neil Diamond, Robin Williams, Joni Mitchell, and Cher, among others. The Beatles from A to Zed grows out of his popular radio program "From Me to You" on SiriusXM's The Beatles Channel, where he shares memories and insights about the Fab Four and their music. Here he weaves his reflections into a whimsical alphabetical journey that focuses not only on songs whose titles start with each letter, but also on recurrent themes in the Beatles' music, the instruments they played, the innovations they pioneered, the artists who influenced them, the key people in their lives, and the cultural events of the time. Few can match Peter Asher for his fresh and personal perspective on the Beatles. And no one is a more congenial and entertaining guide to their music.

In this volume of 15 articles, contributors from a wide range of disciplines present their analyses of Disney movies and Disney music, which are mainstays of popular culture. The power of the Disney brand has heightened the need for academics to question whether Disney's films and music function as a tool of the Western elite that shapes the views of those less empowered. Given its global reach, how the Walt Disney Company handles the role of race, gender, and sexuality in social structural inequality merits serious reflection according to a number of the articles in the volume. On the other hand, other authors argue that Disney productions can help individuals cope with difficult situations or embrace progressive thinking. The different approaches to the assessment of Disney films as cultural artifacts also vary according to the theoretical perspectives guiding the interpretation of both overt and latent symbolic meaning in the movies. The authors of the 15 articles encourage readers to engage with the material, showcasing a variety of views about the good, the bad, and the best way forward.

Even leading capitalists admit that capitalism is broken. Green Swans is a manifesto for system change designed to serve people, planet, and prosperity. In his twentieth book, John Elkington—dubbed the “Godfather of Sustainability”—explores new forms of capitalism fit for the twenty-first century. Green Swans draws on Elkington’s firsthand experience in some of the world’s best-known boardrooms and C-suites. "With this profound and magnificent book, drawing on his deep reservoir of thought and expertise in the humanities, James MacGregor Burns takes us into the fire's center. As a 21st-century philosopher, he brings to vivid life the incandescent personalities and ideas that embody the best in Western civilization and shows us how understanding them is essential for anyone who would seek to decipher the complex problems and potentialities of the world we will live in tomorrow." --Michael Beschloss, New York Times bestselling author of Presidential Courage: Brave Leaders and How They Changed America, 1789-1989 "James MacGregor Burns is a national treasure, and Fire and Light is the elegiac capstone to a career devoted to understanding the seminal ideas that made America - for better and for worse - what it is." --Joseph J. Ellis, Pulitzer Prize and National Book Award winning author Revolutionary Summer Pulitzer Prize-winning and bestselling historian James MacGregor Burns explores the most daring and transformational intellectual movement in history, the European and American Enlightenment In this engaging, provocative history, James MacGregor Burns brilliantly illuminates the two-hundred-year conflagration of the Enlightenment, when audacious questions and astonishing ideas tore across Europe and the New World, transforming thought, overturning governments, and inspiring visionary political experiments. Fire and Light brings to vivid life the galaxy of revolutionary leaders of thought and action who, armed with a new sense of human possibility, driven by a hunger for change, created the modern world. Burns discovers the origins of a distinctive American Enlightenment in men like the Founding Fathers Benjamin Franklin, John Adams, Thomas Jefferson, and James Madison, and their early encounters with incendiary European ideas about liberty and equality. It

was these thinker-activists who framed the United States as a grand and continuing experiment in Enlightenment principles. Today the same questions Enlightenment thinkers grappled with have taken on new urgency around the world: in the turmoil of the Arab Spring, in the former Soviet Union, and China, as well as in the United States itself. What should a nation be? What should citizens expect from their government? Who should lead and how can leadership be made both effective and accountable? What is happiness, and what can the state contribute to it? Burns's exploration of the ideals and arguments that formed the bedrock of our modern world shines a new light on these ever-important questions.
