ever examination of the huge literature on state-making whose author evaluates why people would deliberately and reactively remain stateless. Among the strategies employed by the people of Zomia to remain stateless are physical dispersion in rugged terrain; agricultural practices that enhance mobility; pliable ethnic identities; devotion to prophetic, millenarian leaders; and maintenance of a largely oral culture that allows them to reinvent their histories and genealogies as they move between and around states. In accessible language, James Scott, recognized worldwide as an eminent authority in Southeast Asian, peasant, and agrarian studies, tells the story of the peoples of Zomia and their unlikely odyssey in search of self-determination. He redefines our views on Asian politics, history, demographics, and even our fundamental ideas about what constitutes civilization, and challenges us with a radically different approach to history that presents

---

events from the perspective of stateless peoples and redefines state-making as a form of "internal colonialism." This new perspective requires a radical reevaluation of the civilizational narratives of the lowland states. Scott's work on Zomia represents a new way to think of area studies that will be applicable to other

runaway, fugitive, and marooned communities, be they Gypsies, Cossacks, tribes fleeing slave raiders, Marsh Arabs, or San-Bushmen. **Lonely Planet Vietnam, Cambodia, Laos & Northern Thailand** Apa Publications (UK) Limited Travels with the Lonely Planet guidebook that started it all. When Tony Wheeler wrote Lonely Planet's first-ever shoestring

guidebook, South-East Asia offered 'cheap and interesting travel without the constantly oppressing misery of some of the less fortunate parts of Asia'. Certain 'hotspots' in the region attracted the tourist crowds, but there were many 'untouched places' too. So have Tony's recommendations stood the test of time? Just how much has South-East Asia changed since the Wheelers ambled through the region in flared pants? Brian Thacker decides to retrace Tony

---

and Maureen's footsteps through Portuguese Timor, Indonesia, Singapore, Malaysia, Thailand, Laos and Burma using the original 1975 South east Asia on a Shoestring as his only guidebook. Along the way Brian meets a cast of folk from the old guidebook who are still manning hotel desks and serving in restaurants. He also encounters mishap and adventure at every step of the Banana Pancake Trail - breaking bread

with a gang of ravenous rats; swimming with a hungry goat-and-possibly-also-human-eating crocodile; crashing his scooter (twice); being wanted by the police and propositioned by Gary who likes 'pens', and getting lost everywhere . . .
